Abbas Amanat,2012 This book offers diverse debates on the possible manifestations and meanings of the term Middle East

The Modern Middle East Ilan Pappé,2014-03-26 This hugely successful ground breaking book is the first introductory textbook on the Modern Middle East to foreground the urban rural cultural and gender histories of the region over its political and economic history Distancing himself from more traditional modernising approaches Ilan Pappé is concerned with the ideological question of whom we investigate in the past rather than how we investigate the past Pappé begins his narrative at the end of the First World War with the Ottoman heritage and concludes at the present day with the political discourse of Islam Providing full geographical coverage of the region The Modern Middle East opens with a carefully argued introduction

which outlines the methodology used in the textbook provides a thematic and comparative approach to the region helping students to see the peoples of the Middle East and the developments that affect their lives as part of a larger world includes insights gained from new historiographical trends and a critical approach to conventional state and nation centred historiographies includes case studies debates maps photos an up to date bibliography and a glossarial index This third edition has been brought right up to date with recent events and includes the developments through the Arab Spring more economic history much more focus on gender history and discussion of religion in the region from a broad perspective Accessible and original The Modern Middle East continues to energise discussion and stimulate debate on the region s history and provides new insights and perspectives on its story **Atlas of the Middle East** ,2003 The Societies of the Middle East and North Africa Sean Yom,2021-07-21 The second edition of this well regarded volume explores the societies of the Middle East and North Africa Presenting original studies written by the world s leading MENA scholars it sheds light upon the organizing structures human vulnerabilities and dynamic forces that propel social change among the peoples of the Arab world as well as Israel Turkey and Iran The volume can be used in conjunction with The Government and Politics of the Middle East and North Africa textbook for a comprehensive overview of the region Carrying over from the previous edition among the rich topics covered are agriculture urbanization development identity citizenship gender religion civil society the environment and youths This second edition adds two new chapters on refugees and public opinion as each constitutes a crucial part of the region s social and cultural context This edition also updates existing chapters to account for the latest events and trends including the COVID 19 pandemic popular protests and demographic growth Written in an accessible way the chapters are clearly structured and contain insightful analysis memorable case studies illustrative photographs and visualized data that illuminate the contours of social life across this diverse region Each chapter also ends with curated questions for discussion followed by annotated bibliographies to help spark further research to encourage seamless adoption into classrooms **The Middle East and North Africa** Alasdair Drysdale,2024-10-15 This contemporary text the first in over a decade on the region presents the geography of the Middle East and North Africa defined as the Arab World Israel Turkey Iran and Afghanistan Thematically organized the book s eleven chapters focus on the region s physical and climatic setting demographic characteristics migration patterns religious and linguistic diversity political map offshore claims oil and gas resources and subregions and states Within this framework Drysdale emphasizes pressing current problems the impact of climate change in a region where some areas already suffer from extreme summer heat and aridity the challenge of providing additional water in a region where per capita availability of freshwater is already the lowest in the world the impact of high fertility and rapid population growth in a fragile environment where economies are often unable to absorb young workers entering the labor force the looming prospect of an aging population the effects of out and in migration the diverse impact and role of Islam in daily and public life the integrative consequences of linguistic and ethnic diversity the

evolution and imperfections of the political map ongoing territorial and boundary disputes that often have global repercussions external dependence on the region's prolific oil and gas resources and the extreme regional inequalities associated with their presence or absence This timely and insightful analysis is essential reading for students of the region who need a better understanding of key regional characteristics challenges and issues The State of the Middle East Dan Smith, 2014-04-08 From the author of the bestselling The State of the World Atlas here is an essential tool for understanding the Middle East and its pivotal role in global politics As Western powers attempt to redraw the map of the region Dan Smith uses his forensic skills to unravel the history of this arena of confrontation and instability from the Ottoman Empire to the present day With customarily acute analysis he highlights key issues and maps their global implications to explain why the Middle East has become and will remain the focal point for foreign policy The atlas covers a wide range of topics including imperial legacies ethnic and religious differences US presence and policies Arab Israeli wars Israel and Palestine Iran and Iraq military spending the Kurds Libya and the USA oil and water National Geographic the British World Tim Jepson, 2015 This fascinating heritage in breathtaking National Geographic style with gorgeous photographs and artwork engaging narrative information sidebars and premium quality maps specially commissioned for this book Standard Cataloging for School and Public Libraries Sheila S. Intner, Jean Weihs, 2014-12-16 A proven resource for librarians and students this updated classic opens the door to understanding current library cataloging processes shows you how to use them to create standard catalog records and provides guidance in managing the cataloging workflow Library cataloging and classification tools are constantly improving making this concise guide a necessity for any librarian or library student seeking improved understanding of the practical process of cataloging today With the release of RDA a new code for description and a new edition of Dewey Classification it's time for every library to add this fifth edition of a classic reference to your resources Two Margaret Mann Citation winners update you on the five basic steps in standardized library cataloging describing and adding access points for resources assigning subject headings using Sears List or Library of Congress subject headings classifying them using the Dewey Decimal or Library of Congress classification systems and digitizing the resulting records The book opens with a brief look at the environment in which cataloging now functions especially in response to advances in digital access It clarifies terminology explores new and changed applications and enhances understanding of basic principles for those responsible for creating cataloging data To get you ready for tomorrow the edition closes with a brief look at trends likely to affect cataloging in the foreseeable future **National Geographic Atlas of China** National Geographic Society (U.S.), 2008 Bursting with full colour maps and graphics this essential atlas provides in depth geographical coverage as it highlights the dramatic cultural and economic changes now occurring in China National Geographic's renowned cartographers have mapped the entire country all its administrative regions and their cities towns and transportation networks to create a complete and meticulously researched panorama of the world's fastest growing

economy and most populous nation In addition to newly compiled political and physical maps colourful thematic presentations post information on trade energy natural resources environment military strength religion ways of life communications and more An exhaustive place name index helps readers navigate to thousands of specific locations State of the art satellite imagery and mosaics at the highest resolution ever published by National Geographic reveal incredible variety and amazing details of China s sweepin physical landscapes Ten major cities chosen from various regions throughout China receive close up treatment wiht maps laying out each metropolitan area and quick read fact boxes listing local climate time zone population and more The profile of Beijing the captial pinpoints sites of the 2008 Summer Olympics Also charted extensively is Shanghai host of the 2010 World s Fair China s first expected to draw 70 million visitors Since the nation s turn toward openness in the late 1970s tourism has become a major growth industry in this land of bustling cities spectacular vistas ethnic diversity and cultural and historical marvels One of the 21 thematic topics focuses on tourism with a map locating popular attractions such as the Great Wall the Terra cotta Warriors Zhalong Nature Reserve the Silk Road the Imperial Palace and Hong Kong s Star Ferry A history section covers China s primary dynasties and then with a time line highlights the events of the twentieth century to the present Charts graphs and photographs complete the visual coverage of China today with expert commentaries adding insight on topics that range form teh workings of China s government to the lifestyles of its people to the global implications of its stunning emergence as a major player on the world scene
