Representational Fairness in WTO Rule-making Mohamed Omar Gad, 2006 This book examines representational fairness in WTO rule making The context of examination is the pharmaceutical related provisions of the TRIPS Trade Related Aspects of Intellectual Property Rights Agreement and the interests of developing countries and pharmaceutical multinational enterprises therein The book analyzes the negotiation and implementation periods of the specified TRIPS provisions and the legal disputes that arose covering the period from the mid 1980s until the adoption of the Doha Declaration on the TRIPS Agreement and Public Health in November 2001 An imbalance reflected in the negotiated text in favor of pharmaceutical MNEs interests during the negotiation process is characterized as top down rule making Reacting to this developing countries exerted pressure from the bottom up hindering the implementation of these TRIPS provisions This retorting action while instilling a degree of balance congests the TRIPS regime and the larger WTO system with additional dispute proceedings leading to strains in North South relations The volume concludes with selective suggestions focusing on the rule making process of the WTO and proposes measures to reduce the likelihood of a deficiency in representational fairness occurring in future negotiations **Avoiding the Apocalypse** Marcus Noland, 2000 Korea is experiencing three crises a famine in the North a confrontation over the North's nuclear weapons programme and now an economic crisis in the South This volume examines the implications of these crises for Korea the United States and others with interests in the peninsula
