Natives Making Nation Gender Indigeneity And The State In The Andes:

Natives Making Nation Andrew Canessa, 2011-08-01 In Bolivia today the ability to speak an indigenous language is highly valued among educated urbanites as a useful job skill but a rural person who speaks a native language is branded with lower social status Likewise chewing coca in the countryside spells inferior indian but in La Paz jazz bars it's decidedly cool In the Andes and elsewhere the commodification of indianness has impacted urban lifestyles as people co-opt indigenous cultures for qualities that emphasize the uniqueness of their national culture This volume looks at how metropolitan ideas of nation employed by politicians the media and education are produced reproduced and contested by people of the rural Andes people who have long been regarded as ethnically and racially distinct from more culturally European urban citizens Yet these peripheral natives are shown to be actively engaged with the idea of the nation in their own communities forcing us to re-think the ways in which indigeneity is defined by its marginality The contributors examine the ways in which numerous identities racial generational ethnic regional national gender and sexual are both mutually informing and contradictory among subaltern Andean people who are more likely now to claim an allegiance to a nation than ever before Although indians are less often confronted with crude assimilationist policies they continue to face racism and discrimination as they struggle to assert an identity that is more than a mere refraction of the dominant culture Yet despite the language of multiculturalism employed even in constitutional reform any assertion of indian identity is likely to be resisted By exploring topics as varied as nation building in the 1930s or the chuqila dance these authors expose a paradox in the relation between indians and the nation that the nation can be claimed as a source of power and distinct identity while simultaneously making some types of national imaginings unattainable Whether dancing together or simply talking to one another the people described in these essays are shown creating identity through processes that are inherently social and interactive To sing to eat to weave In the performance of these simple acts bodies move in particular spaces and contexts and do so within certain understandings of gender race and nation Through its presentation of this rich variety of ethnographic and historical contexts **Natives Making Nation** provides a finely nuanced view of contemporary Andean life

Natives Making Nation Andrew Canessa, 2011-08-01 In Bolivia today the ability to speak an indigenous language is highly valued among educated urbanites as a useful job skill but a rural person who speaks a native language is branded with lower social status Likewise chewing coca in the countryside spells inferior indian but in La Paz jazz bars it's decidedly cool In the Andes and elsewhere the commodification of indianness has impacted urban lifestyles as people co-opt indigenous cultures for qualities that emphasize the uniqueness of their national culture This volume looks at how metropolitan ideas of nation employed by politicians the media and education are produced reproduced and contested by people of the rural Andes people who have long been regarded as ethnically and racially distinct from more culturally European urban citizens Yet these peripheral natives are shown to be actively engaged with the idea of the nation in their own communities forcing us to re-think the ways in which

indigeneity is defined by its marginality The contributors examine the ways in which numerous identities racial generational ethnic regional national gender and sexual are both mutually informing and contradictory among subaltern Andean people who are more likely now to claim an allegiance to a nation than ever before Although indians are less often confronted with crude assimilationist policies they continue to face racism and discrimination as they struggle to assert an identity that is more than a mere refraction of the dominant culture Yet despite the language of multiculturalism employed even in constitutional reform any assertion of indian identity is likely to be resisted By exploring topics as varied as nation building in the 1930s or the chuqila dance these authors expose a paradox in the relation between indians and the nation that the nation can be claimed as a source of power and distinct identity while simultaneously making some types of national imaginings unattainable Whether dancing together or simply talking to one another the people described in these essays are shown creating identity through processes that are inherently social and interactive To sing to eat to weave In the performance of these simple acts bodies move in particular spaces and contexts and do so within certain understandings of gender race and nation Through its presentation of this rich variety of ethnographic and historical contexts *Natives Making Nation* provides a finely nuanced view of contemporary Andean life

Native and National in Brazil Tracy Devine Guzmán, 2013 *Native and National in Brazil* Indigeneity after Independence *Indigenous Peoples, Civil Society, and the Neo-liberal State in Latin America* Edward F. Fischer, 2009 In recent years the concept and study of civil society has received a lot of attention from political scientists economists and sociologists but less so from anthropologists A ground breaking ethnographic approach to civil society as it is formed in indigenous communities in Latin America this volume explores the multiple potentialities of civil society's growth and critically assesses the potential for sustained change Much recent literature has focused on the remarkable gains made by civil society and the chapters in this volume reinforce this trend while also showing the complexity of civil society that civil society can itself sometimes be uncivil In doing so these insightful contributions speak not only to Latin American area studies but also to the changing shape of global systems of political economy in general

Indigeneity in Latin American Cinema Milton Fernando Gonzalez Rodriguez, 2022-07-28 *Indigeneity in Latin American Cinema* explores how contemporary films 2000-2020 participate in the evolution and circulation of images and sounds that in many ways define how indigenous communities are imagined at a local regional and global scale The volume reviews the diversity of portrayals from a chronological geopolitical linguistic epistemic ontological transnational and intersectional paradigm changing and self-representational perspective allocating one chapter to each theme The corpus of this study consists of 68 fictional features directed by non-indigenous filmmakers 31 cinematic works produced by indigenous directors communities and 22 Cine Regional Regional Cinema films The book also draws upon a significant number of engravings drawings paintings photographs and films produced between 1493 and 2000 as primary sources for the historical review of the visual representations of indigeneity Through content and close textual analysis interviews with audiences surveys and social media

posts analysis the author looks at the contexts in which Latin American films circulate in international festivals and the paradigm shifts introduced by self representational cinema and Roma Mexico 2018 Conclusively the author provides the foundations of histrionic indigeneity a theory that explains how overtly histrionic proclivities play a significant role in depictions of an imagined indigenous Other in recent films

Plurinational

Afrobolivianity Moritz Heck,2020-02-03 In Bolivia s plurinational conjuncture novel political articulations legal reform and processes of collective identification converge in unprecedented efforts to re found the country and transform its society This ethnography explores the experiences of Afrodescendants in plurinational Bolivia and offers a fresh perspective on the social and political transformations shaping the country as a whole Moritz Heck analyzes Afrobolivian social and cultural practices at the intersections of local communities politics and the law shedding light on novel articulations of Afrobolivianity and evolving processes of collective identification This study also contributes to broader anthropological debates on blackness and indigeneity in Latin America by pointing out their conceptual entanglements and continuous interactions in political and social practice

The Ethics of Anthropology and Amerindian Research Richard J. Chacon,Rubén G.

Mendoza,2011-12-15 The decision to publish scholarly findings bearing on the question of Amerindian environmental degradation warfare and or violence is one that weighs heavily on anthropologists This burden stems from the fact that documentation of this may render descendant communities vulnerable to a host of predatory agendas and hostile modern forces Consequently some anthropologists and community advocates alike argue that such culturally and socially sensitive

and thereby politically volatile information regarding Amerindian induced environmental degradation and warfare should not be reported This admonition presents a conundrum for anthropologists and other social scientists employed in the academy or who work at the behest of tribal entities This work documents the various ethical dilemmas that confront anthropologists and researchers in general when investigating Amerindian communities The contributions to this volume explore the ramifications of reporting and specifically of non reporting instances of environmental degradation and warfare among Amerindians Collectively the contributions in this volume which extend across the disciplines of archaeology anthropology ethnohistory ethnic studies philosophy and medicine argue that the non reporting of environmental mismanagement and violence in Amerindian communities generally harms not only the field of anthropology but the Amerindian populations themselves

communities in extractivist contexts contribute to ways of thinking otherwise Mother Tongues of the High Andes Sandhya Kritika Narayanan, 2025-11-04 The Peruvian altiplano a high plateau around Lake Titicaca is known for its breathtaking landscapes and the cultivation of commodities like quinoa and alpaca wool The region also stands out for its history of inter Indigenous language contact and multilingualism between Quechua and Aymara speaking communities This linguistic ecology predates the Spanish conquest and persists today making the altiplano with its capital Puno a unique space where Indigenous multiplicity is recognized and celebrated Yet this celebration is accompanied by additional ideological challenges around defining Quechua and Aymara as distinct Indigenous languages and ethnic groups Anthropologist Sandhya Kritika Narayanan begins with these challenges and asks What does it mean to be a Quechua or Aymara speaker in Puno today What does it mean to be an Indigenous ethnic Quechua or Aymara individual *Mother Tongues of the High Andes* opens with these questions exploring what Quechua and Aymara languages and identities mean for Indigenous puno as they navigate their past and present Narayanan argues that understanding inter Indigenous linguistic and social differences involves examining Indigenous gender roles responsibilities and linguistic practices particularly those of Indigenous puna women She shows how these practices have contributed to the maintenance of Indigenous multilingualism and continuity in local modes of understanding Indigenous identity and difference Even as ideologies around Indigenous identity and linguistic practices shift due to global discourses on Indigenous ethnic identity and nationalism Indigenous women continue to play a crucial role promoting new ways to speak and think about Quechua and Aymara linguistic differences making the Indigenous roots and histories of Puno recognizable to a global audience Through a comprehensive ethnographic exploration of gender language and Indigenous difference Narayanan shows how the linguistic and social practices of Indigenous puna women both contest and reaffirm competing visions of Quechua and Aymara linguistic identity and authority *The Oxford Handbook of the History of Education* John L. Extinction or Survival? S. K. Adam, 2015-12-03 How could an urban American Indian tribe having survived relentless earlier governmental attempts to declare its culture extinct be once again on the verge of extinction The Tigua of Ysleta del Sur Pueblo dwell in the outskirts of El Paso Texas where the infamous Jack Abramoff was in the news for helping to close their highly successful casino This casino had created jobs and funded health care for the tribe and now the Tigua are once more taking action to preserve their economy membership and culture This highly publicised casino story is set against the remarkably rich history of the Tigua including earlier attempts by national and state governments to steal the tribe's land and destroy its legal status Anthropologist S K Adam explores how questions of identity can be linked to cultural survival Had the Tigua somehow survived 300 years of persecution and urban encroachment or as alleged by the government were they really just Mexicanised Indians acting fraudulently Adam examines how terms such as indigeneity identity authenticity culture change and perseverance are understood and defined by the US government He analyses how issues of power law discourse genocide and self determination affect the relationship between the United States and its indigenous populations past and present

Intimate Distance Michelle Bigenho, 2012-05-07 This is a book about Andean music its reception in Japan

and the resultant transcultural connection Michelle Bigenho toured Japan with Bolivian musicians and dancers and describes how the two nationalities connected with each other through song and dance Development, Sexual Rights and Global Governance Amy Lind, 2010-01-04 This book addresses how sexual practices and identities are imagined and regulated through development discourses and within institutions of global governance The underlying premise of this volume is that the global development industry plays a central role in constructing people's sexual lives access to citizenship and struggles for livelihood Despite the industry's persistent insistence on viewing sexuality as basically outside the realm of economic modernization and anti poverty programs this volume brings to the fore heterosexual bias within macroeconomic and human rights development frameworks The work fills an important gap in understanding how people's intimate lives are governed through heteronormative policies which typically assume that the family is based on blood or property ties rather than on alternative forms of kinship By placing heteronormativity at the center of analysis this anthology thus provides a much needed discussion about the development industry's role in pathologizing sexual deviance yet also more recently in helping make visible a sexual rights agenda Providing insights valuable to a range of disciplines this book will be of particular interest to students and scholars of Development Studies Gender Studies and International Relations It will also be highly relevant to development practitioners and international human rights advocates The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780203868348> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *Intimate Indigeneities* Andrew Canessa, 2012-11-26 Analyzing the nuances of identity formation in rural Andean culture Andrew Canessa draws on two decades of ethnographic research in a remote indigenous community in Bolivia's highlands
