Historical Dictionary of Popular Music Norman Abjorensen, 2017-05-25 This book seeks to trace the rise of popular music identify its key figures and track the origins and development of its multiple genres and styles all the while seeking to establish historical context It is fundamentally a ready reference guide to the broad field of popular music over the past two centuries It has become a truism that popular music so pervasive in the modern world constitutes a soundtrack to our lives a constant though changing presence as we cross thresholds and grow from children to teenagers to adults But it has become more than a soundtrack it has become a narrative Not just an accompaniment to our daily lives but incorporating our lives our sense of identity our lived experiences into it We have become part of the music just as the music has become part of us The Historical Dictionary of Popular Music contains a chronology an introduction an appendix and an extensive bibliography The dictionary section has over 1000 cross referenced entries on major figures across genres definitions of genres technical innovations and surveys of countries and regions This book is an excellent resource for students researchers and anyone wanting to know more about popular music

Interpreting Popular Music David Brackett, 2023-09-01 There is a well developed vocabulary for discussing classical music but when it comes to popular music how do we analyze its effects and its meaning David Brackett draws from the disciplines of cultural studies and music theory to demonstrate how listeners form opinions about popular songs and how they come to attribute a rich variety of meanings to them Exploring several genres of popular music through recordings made by Billie Holiday Bing Crosby Hank Williams James Brown and Elvis Costello Brackett develops a set of tools for looking at both the formal and cultural dimensions of popular music of all kinds There is a well developed vocabulary for discussing classical music but when it comes to popular music how do we analyze its effects and its meaning David Brackett draws from the disciplines of cultural studies and music theory to demonstrate how listeners

Musical Style and Social Meaning Derek B. Scott, 2017-07-05 Why do we feel justified in using adjectives such as romantic erotic heroic melancholic and a hundred others when speaking about music How do we locate these meanings within particular musical styles These are questions that have occupied Derek Scott's thoughts and driven his critical musicological research for many years In this selection of essays dating from 1995-2010 he returns time and again to examining how conventions of representation arise and how they become established Among the themes of the collection are social class ideology national identity imperialism Orientalism race the sacred and profane modernity and postmodernity and

the vexed relationship of art and entertainment A wide variety of musical styles is discussed ranging from jazz and popular song to the symphonic repertoire and opera

My Melancholy Baby Michael G. Garber, 2021-06-28 2022 Association for Recorded Sound Collections Awards for Excellence Certificate of Merit in the category of Best Historical Research in Recorded Rock and Popular Music Ten songs from Bill Bailey Won't You Please Come Home 1902 to You Made Me Love You 1913 ignited the development of the classic pop ballad In this exploration of how the style of the Great American Songbook evolved Michael G Garber unveils the complicated often hidden origins of these enduring pioneering works He riffs on colorful stories that amplify the rising of an American folk art composed by innovators both famous and obscure Songwriters and also the publishers arrangers and performers achieved together a collective genius that moved hearts worldwide to song These classic ballads originated all over the nation Louisiana Colorado Illinois Michigan and then the Tin Pan Alley industry centered in New York made the tunes unforgettable sensations From ragtime to bop cabaret to radio new styles of music and modes for its dissemination invented and reinvented the intimate personal American love ballad creating something both swinging and tender Rendered by Frank Sinatra Ella Fitzgerald and a host of others recordings and movies carried these songs across the globe Using previously underexamined sources Garber demonstrates how these songs shaped the music industry and the lives of ordinary Americans Besides covering famous composers like Irving Berlin this history also introduces such little known figures as Maybelle Watson who had to sue to get credit and royalties for creating the central content of the lyric for My Melancholy Baby African American Frank Williams contributed to the seminal Some of These Days but was forgotten for decades The ten ballads explored here permanently transformed American popular song

Damaged Evan Rapport, 2020-11-24 Damaged Musicality and Race in Early American Punk is the first book length portrait of punk as a musical style with an emphasis on how punk developed in relation to changing ideas of race in American society from the late 1960s to the early 1980s Drawing on musical analysis archival research and new interviews Damaged provides fresh interpretations of race and American society during this period and illuminates the contemporary importance of that era Evan Rapport outlines the ways in which punk developed out of dramatic changes to America's cities and suburbs in the postwar era especially with respect to race The musical styles that led to punk included transformations to blues resources experimental visions of the American musical past and bold reworkings of the rock and roll and rhythm and blues sounds of the late 1950s and early 1960s revealing a historically oriented approach to rock that is strikingly different from the common myths and conceptions about punk Following these approaches punk itself reflected new versions of older exchanges between the US and the UK the changing environments of American suburbs and cities and a shift from the expressions of older baby boomers to that of younger musicians belonging to Generation X Throughout the book Rapport also explores the discourses and contradictory narratives of punk history which are often in direct conflict with the world that is captured in historical documents and revealed through musical analysis

A New History of American and Canadian Folk Music

Dick Weissman, 2019-09-05 Building on his 2006 book *Which Side Are You On* Dick Weissman's *A New History of American and Canadian Folk Music* presents a provocative discussion of the history evolution and current status of folk music in the United States and Canada North American folk music achieved a high level of popular acceptance in the late 1950s When it was replaced by various forms of rock music it became a more specialized musical niche fragmenting into a proliferation of musical styles In the pop folk revival of the 1960s artists were celebrated or rejected for popularizing the music to a mass audience In particular the music seemed to embrace a quest for authenticity which has led to endless explorations of what is or is not faithful to the original concept of traditional music This book examines the history of folk music into the 21st century and how it evolved from an agrarian style as it became increasingly urbanized Scholar performer Dick Weissman himself a veteran of the popularization wars is uniquely qualified to examine the many controversies and musical evolutions of the music including a detailed discussion of the quest for authenticity and how various musicians critics and fans have defined that pursuit

I Wanna be Me Theodore Gracyk, 2001 Gracyk grapples with the ways that rock shapes limits and expands our notions of who we can be in the world He sees rock as a mass art open ended and open to diverse but not unlimited interpretations Recordings reach millions drawing people together in communities of listeners who respond viscerally to its sound and intellectually to its messages As an art form that proclaims its emotional authenticity and resistance to convention rock music constitutes part of the cultural apparatus from which individuals mold personal and political identities Going to the heart of this relationship between the music's role in its performers and fans self construction Gracyk probes questions of gender and appropriation How can a feminist be a Stones fan or a straight man enjoy the Indigo Girls Does borrowing music that carries a racial identity always add up to exploitation a charge leveled at Paul Simon's *Graceland* Rang es through forty years of rock history and offer s a trove of anecdotes Publisher description

Perspectives on German Popular Music Michael Ahlers, Christoph Jacke, 2016-11-25 In this book native popular musicologists focus on their own popular music cultures from Germany Austria and Switzerland for the first time from subcultural to mainstream phenomena from the 1950s to contemporary acts Starting with an introduction and two chapters on the histories of German popular music and its study the volume then concentrates on focused detailed and yet concise close readings from different perspectives including particular historical East and West German perspectives mostly focusing on the music and its protagonists Moreover these analyses deal with very original specific genres such as Schlager and Krautrock as well as transcultural genres such as Punk or Hip Hop There are additional chapters on characteristically German developments within music media journalism and the music industry The book will contribute to a better understanding of German Austrian and Swiss popular music and will interconnect international and especially Anglo American studies with German approaches The book as a consequence will show close connections between global and local popular music cultures and diverse traditions of study

Black Salt R. Costello, 2012-01-01 Worlds collide Destination uncertain A tar's life War under sail Blighty A question of rank From sail to

steam Global conflict Sailortown under attack The Second World War After empire Epilogue The Evolution of Jazz in Britain, 1880-1935 Catherine Tackley (née Parsonage), 2017-07-05 As a popular music the evolution of jazz is tied to the contemporary sociological situation Jazz was brought from America into a very different environment in Britain and resulted in the establishment of parallel worlds of jazz by the end of the 1920s within the realms of institutionalized culture and within the subversive underworld Tackley n Parsonage demonstrates the importance of image and racial stereotyping in shaping perceptions of jazz and leads to the significant conclusion that the evolution of jazz in Britain was so much more than merely an extension or reflection of that in America The book examines the cultural and musical antecedents of the genre including minstrel shows and black musical theatre within the context of musical life in Britain in the late nineteenth and early twentieth centuries Tackley is particularly concerned with the public perception of jazz in Britain and provides close analysis of the early European critical writing on the subject The processes through which an evolution took place are considered by looking at the methods of introducing jazz in Britain through imported revue shows sheet music and visits by American musicians Subsequent developments are analysed through the consideration of modernism and the Jazz Age as theoretical constructs and through the detailed study of dance music on the BBC and jazz in the underworld of London The book concludes in the 1930s by which time the availability of records enabled the spread of hot music affecting the live repertoire in Britain Tackley therefore sheds entirely new light on the development of jazz in Britain and provides a deep social and cultural understanding of the early history of the genre **Arguing About Art** Alex Neill, Aaron Ridley, 2013-02-01 Offering a unique debate format the third edition of the bestselling *Arguing About Art* is ideal for newcomers to aesthetics or philosophy of art This lively collection presents an extensive range of short clear introductions to each of the discussions which include sentimentality appreciation interpretation understanding objectivity nature food horror With revised introductions updated suggestions for further reading and new sections on pornography and societies without art *Arguing About Art* provides a stimulating and accessible anthology suitable for those coming to aesthetics for the first time The book will also appeal to students of art history literature and cultural studies *Dance Music* Nicolae Sfetcu, 2014-05-09 Dance music is music composed played or both specifically to accompany dancing It can be either the whole musical piece or part of a larger musical arrangement Dance music works usually bear the name of the corresponding dance e g waltzes the tango the bolero the can can minuets salsa various kinds of jigs and the breakdown Other dance forms include contradance the merengue the cha cha cha Often it is difficult to know whether the name of the music came first or the name of the dance Although dance is often accompanied by music it can also be presented alone Postmodern dance or provide its own accompaniment tap dance Dance presented with music may or may not be performed in time to the music depending on the style of dance Dance performed without music is said to be danced to its own rhythm An introduction to classical and modern dance including hip hop dance what is dance and the dance music electronic music rock and roll disco house techno trance

etc
