Jarkko Saarinen,Christian M. Rogerson,Haretsebe Manwa,2013-10-31 In 2000 United Nations adopted the Millennium Development Goals UN MDGs committing the member nations to a new global partnership to reduce extreme poverty and setting out a series of specific targets with a deadline of 2015 Related to the UN MDGs tourism is increasingly seen as a promising tool for poverty reduction ensuring environmental sustainability and developing a global partnership for development for example Thus the industry has become an important policy tool for community and regional development in

many developing countries and the expectations for tourism and its social and economic outcomes have evolved to a high level. However, there are still many challenges to overcome in the relationship between tourism industry development and poverty reduction. This book aims to discuss the promises, challenges, and outcomes of tourism in development with a specific aim of drawing together research related to tourism and UN MDGs. The papers discuss what lessons can be learnt and conclusions drawn from the utilisation of tourism for development and poverty reduction. What emerges from this collection is a set of interesting results and notions which both support and challenge the connections between tourism and development and the new role of tourism in global development. This book is an extended version of a special issue published in *Current Issues in Tourism*.

Social Responsibility in Tourism Martina Pásková, Josef Zelenka, 2024-06-24

This monograph offers a comprehensive examination of responsible tourism, meticulously deconstructing the core tenets of socio-cultural, environmental, and economic accountability within the framework of sustainable tourism. The work underscores the intrinsic significance of local attributes, emphasizing their pivotal role in shaping responsible practices. Guiding through the intricate terrain of challenges and opportunities inherent in integrating responsible paradigms within the dynamic tourism sector, the authors introduce a prescriptive implementation framework. This framework steers tourism stakeholders towards equilibrium, enabling present actions to safeguard and augment conditions for sustainable future development. Rooted in scholarly depth, augmented by synoptic diagrams and references to supplementary resources, the book converges into an analysis of concrete instances, illustrative case studies, products, and applications demonstrating the embodiment of social responsibility in tourism's fabric. By spotlighting both successful and adverse examples, the monograph underscores the vital interplay of environmental, economic, and socio-cultural dimensions encapsulating the essence of responsible tourism's enduring impact.
