Krauss, 1986-07-09 Co founder and co editor of October magazine a veteran of Artforum of the 1960s and early 1970s Rosalind Krauss has presided over and shared in the major formulation of the theory of postmodernism In this challenging collection of fifteen essays most of which originally appeared in October she explores the ways in which the break in style that produced postmodernism has forced a change in our various understandings of twentieth century art beginning with the almost mythic idea of the avant garde Krauss uses the analytical tools of semiology structuralism and poststructuralism to reveal new meanings in the visual arts and to critique the way other prominent practitioners of art and literary history write about art In two sections Modernist Myths and Toward Postmodernism her essays range from the problem of the grid in painting and the unity of Giacometti s sculpture to the works of Jackson Pollock Sol Lewitt and Richard Serra and observations about major trends in contemporary literary criticism **Rodin Rediscovered** Albert E. Harrison, 2008-07-08 Which cultural values beliefs and attitudes best promote democracy social justice and prosperity How can we use the forces that shape cultural change such as religion education and political leadership to promote these values in the Third World and for underachieving minorities in the First World In this book Lawrence E Harrison offers intriguing answers to these questions in a valuable follow up to his acclaimed Culture Matters Drawing on a three year research project that explored the cultural values of dozens of nations from Botswana Sweden and India to China Egypt and Chile Harrison offers a provocative look at values around the globe revealing how each nation s culture has propelled or retarded their political and economic progress The book presents 25 factors that operate very differently in cultures prone to progress and those that resist it including one s influence over destiny the importance attached to education the extent to which people identify with and trust others and the role of women in society Harrison pulls no punches and many of his findings are controversial Contradicting the arguments of multiculturalists this book contends that when it comes to promoting human progress some cultures are clearly more effective than others It convincingly shows which values beliefs and attitudes work and how we can foster them Harrison takes up the question that is at the center of politics today Can we self consciously change cultures so they encourage development and modernization David Brooks New York Times I can think of no better entrance to the topic both for what it teaches and the way it invites and prepares the reader to continue A gateway study David S Landes author of The Wealth and Poverty of Nations **Rodin Rediscovered** Albert E. Elsen, Auguste

Rodin, National Gallery of Art (Washington, D.C.), 1981 Rodin Rediscovered, 1981 **The Retrieval of the Beautiful**

Galen A. Johnson, 2010 In this elegant new study Galen Johnson retrieves the concept of the beautiful through the framework of Merleau Ponty's aesthetics. Although Merleau Ponty seldom spoke directly of beauty, his philosophy is essentially about the beautiful. In Johnson's formulation, the ontology of Flesh as element and the ontology of the Beautiful as elemental are folded together. For Desire, Love, and Beauty are part of the fabric of the world's element. Flesh itself, the term at which Merleau Ponty arrived to replace Substance, Matter, or Life as the name of Being, Merleau Ponty's Eye and Mind is at the core of the book. So Johnson engages as Merleau Ponty did the writings and visual work of Paul Cézanne, Auguste Rodin, and Paul Klee as well as Rilke's commentary on Cézanne and Rodin. From these widely varying aesthetics emerge the fundamental themes of the retrieval of the beautiful: desire, repetition, difference, rhythm, and the sublime. The third part of Johnson's book takes each of these up in turn, bringing Merleau Ponty's aesthetic thinking into dialogue with classical philosophy as well as Sartre, Heidegger, Nietzsche, and Deleuze. Johnson concludes his final chapter with a direct dialogue with Kant and Merleau Ponty and also Lyotard on the subject of the beautiful and the sublime. As we experience with Rodin's Balzac, beauty and the sublime blend into one another when the beautiful grows powerful, majestic, mysterious, and transcendent. **RODIN**
