Sport Architecture. Design Construction Management of Sport Infrastructure

Emilio Faroldi, 2021-11-18 The history of civilisations and places conveys the importance of the role the culture of sport and a cultivated management of leisure play in the definition of the identity of peoples and communities Elevating such realms to the status of cultural assets to be shared and enhanced by analysing the dynamics of transformation of the city and territory related to them is a sensible necessary and ethically correct action The context of European architecture shows an increasing number of plans that both transform existing facilities and create new ones with a defining and strategic role in the development of urban and landscape fabrics Activating a basic and permanent theoretical discussion is a fundamental and strategic action for the credibility and professional values of a sector that powerfully conveys the need to update and retrain its technical executive and managerial personnel through a renewed cultural approach The goal of this book is promoting awareness about the design enhancement of sport infrastructures as collective assets capable of developing identity and citizenship through the analysis of both physical and immaterial factors and of the personnel charged with their conception construction and management Within contemporary architecture the design of facilities for sport practice provides an extraordinary opportunity for the adaptation and strategic re evaluation of the environment and its paradigmatic places At the same time sport infrastructures provide a crucial opportunity for architectural design and technological experimentation exploring their core features and enhance their potential is the main goal of this book

The stadium century Robert W.

Lewis, 2016-12-08 The stadium century traces the history of stadia and mass spectatorship in modern France from the v lodromes of the late nineteenth century to the construction of the Stade de France before the 1998 soccer World Cup As the book demonstrates the stadium was at the centre of debates over public health and urban development and proved to be a key space for mobilising the urban crowd for political rallies and spectator sporting events alike After 1945 the transformed French stadium constituted part of the process of postwar modernisation but also was increasingly connected to global transformations to the spaces and practices of sport Drawing from a wide range of sources the stadium century links the histories of French urbanism mass politics and sport through the stadium in an innovative work that will appeal to historians students of French history and the history of sport and general readers alike
