Russia Poland And The West Essays In Literary And Cultural History:

Russia, Poland and the West Waclaw Lednicki, 1959 **Russia, Poland, and the West** Waclaw Lednicki, 1954 **An Introduction to Russian History** Robert Auty, Dimitri Obolensky, 1976 **The History of Polish Literature, Updated Edition** Czeslaw Milosz, 1983-10-24 This book is a survey of Polish letters and culture from its beginnings to modern times Czeslaw Milosz updated this edition in 1983 and added an epilogue to bring the discussion up to date New Essays on Dostoyevsky Malcolm V. Jones, Garth M. Terry, 1983-03-31 This book comprises essays to mark the centenary of Dostoyevsky's death in 1881 The first part considers specific works and the second part ranges more widely over aspects of the great novelist's work including essays on Dostoyevsky as philosopher on his religious thought and on formalist and structuralist approaches to his work Russia and Eastern Europe, 1789-1985 Raymond Pearson, 1989 **Fiction and Society in the Age of Pushkin** William Mills Todd, 1986 Todd describes the ideology of the educated westernized gentry then charts the possibilities for literary life first patronage the salons popular literature then rapid emergence of an incipient literary profession He explores the interactions of literature and society as writers discovered their own milieu and were discovered by it Polish Encounters, Russian Identity David L. Ransel, Bożena Shallcross, 2005-06-15 Highlights Poland's central role in the formation of a modern Russian identity **The Routledge History Handbook of Central and Eastern Europe in the Twentieth Century** Włodzimierz Borodziej, Ferenc Laczó, Joachim von Puttkamer, 2020-08-02 Intellectual Horizons offers a pioneering transnational and comparative treatment of key thematic areas in the intellectual and cultural history of Central and Eastern Europe in the twentieth century For most of the twentieth century Central and Eastern European ideas and cultures constituted an integral part of wider European trends However the intellectual and cultural history of this diverse region has rarely been incorporated sufficiently into nominally comprehensive histories of Europe This volume redresses this underrepresentation and provides a more balanced perspective on the recent past of the continent through original critical overviews of themes ranging from the social and conceptual history of intellectuals and histories of political thought and historiography to literary visual and religious cultures to perceptions and representations of the region in the twentieth century While structured thematically individual contributions are organized chronologically They emphasize where relevant generational experiences agendas and accomplishments while taking into account the sharp ruptures that characterize the period The third in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for understanding the intellectual and cultural history of this dynamic region **Russia and the Idea of Europe** Iver B. Neumann, 2016-10-14 The end of the Soviet system and the transition to the market in Russia coupled with the inexorable rise of nationalism brought to the fore the centuries old debate about Russia's relationship with Europe In this revised and updated second edition of *Russia and the Idea of Europe* Iver Neumann discusses whether the tensions between self-referencing nationalist views and Europe orientated liberal views can ever be resolved Drawing on a wide range of Russian

sources this book retains the broad historical focus of the previous edition and picks up from where it left off in the early 1990s bringing the discussion fully up to date. Discussing theoretical and political developments it relates the existing story of Russian identity formation to new foreign policy analysis and the developments in the study of nationalism. The book also offers an additional focus on post Cold War developments. In particular it examines the year 2000 when Putin succeeded Yeltsin as president and 2014 when Russian foreign policy turned from cooperation to confrontation. Bringing to life the various debates surrounding this complicated relationship in an accessible and clear manner this book continues to be a unique and vital resource for both students and scholars of international relations. **Intermarium** Marek Jan

Chodakiewicz, 2017-09-08. History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy. That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe. The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures. Marek Jan Chodakiewicz focuses on the Intermarium for several reasons. Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests. It is also a gateway to both East and West. Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there. The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world. As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation. Intermarium has operated successfully for several centuries. It is the most inclusive political concept within the framework of the Commonwealth. By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area. This is a brilliant and innovative addition to European Studies and World Culture. A Nation Astray Ingrid Anne Kleespies, 2012-11-15. The metaphor of the nomad may at first seem surprising for

Russia given its history of serfdom travel restrictions and strict social hierarchy. But as the imperial center struggled to tame a vast territory with ever expanding borders ideas of mobility motion travel wandering and homelessness came to constitute important elements in the discourse about national identity. For Russians of the nineteenth century national identity was anything but stable. This rootlessness is at the core of A Nation Astray. Here Ingrid Anne Kleespies traces the image of the nomad and its relationship to Russian national identity through the debates and discussion of literary works by seminal writers like Karamzin Pushkin Chaadaev Goncharov and Dostoevsky. Appealing to students of Russian Romanticism nationhood and identity as well as general readers interested in exile and displacement as elements of the human condition this interdisciplinary work illuminates the historical and philosophical underpinnings of a basic aspect of Russian self determination the nomadic constitution of the Russian nation. **History and Geopolitics** Andrzej Nowak, 2008 **An**

Introduction To Nineteenth-century Russian Slavophilism Peter K. Christoff, 2019-03-07 This book is written based on vigorous and prolonged debates between the Slavophiles and proponents of Russian Slavophilism's principal ideological rival Westernism in the mid nineteenth century It presents the analysis and evaluation of Iu F Samarin's dissertation Lyric Poetry and Modern Politics Clare Cavanagh, 2009-01-01 This work explores the intersection of poetry national life and national identity in Poland and Russia from 1917 to the present It also provides a comparative study of modern poetry from the perspective of the Eastern and Western sides of the Iron Curtain Facets of Russian Irrationalism between Art and Life, 2016-04-08 Russia is an enigmatic mysterious country situated between East and West not only spatially but also mentally Or so it is traditionally perceived in Western Europe and the Anglophone world at large One of the distinctive features of Russian culture is its irrationalism which revealed itself diversely in Russian life and thought literature music and visual arts and has survived to the present day Bridging the gap in existing scholarship the current volume is an attempt at an integral and multifaceted approach to this phenomenon and launches the study of Russian irrationalism in philosophy theology literature and the arts of the last two hundred years together with its reflections in Russian reality Contributors Tatiana Chumakova David Gillespie Arkadii Goldenberg Kira Gordovich Rainer Gröbel Elizabeth Harrison Jeremy Howard Aleksandr Ivashkin Elena Kabkova Sergei Kibalkin Oleg Kovalov Alexander McCabe Barbara Olaszek Oliver Ready Oliver Smith Margarita Odesskaia Ildik Mária Racz Lyudmila Safronova Marilyn Schwinn Smith Henrieke Stahl Olga Stukalova Olga Tabachnikova Christopher John Tooke and Natalia Vinokurova **Dostoevsky at 200** Katherine Bowers, Kate Holland, 2021-07-20 Marking the bicentenary of Dostoevsky's birth Dostoevsky at 200 The Novel in Modernity takes the writer's art specifically the tension between experience and formal representation as its central theme While many critical approaches to Dostoevsky's works are concerned with spiritual and philosophical dilemmas this volume focuses instead on questions of design and narrative to explore Dostoevsky and the novel from a multitude of perspectives Contributors situate Dostoevsky's formal choices of narrative plot genre characterization and the novel itself within modernity and consider how the experience of modernity led to Dostoevsky's particular engagement with form Conceived as a forum for younger scholars working in new directions in Dostoevsky scholarship this volume asks how narrative and genre shape Dostoevsky's works as well as how they influence the way modernity is represented Of interest not only to readers and scholars of Russian literature but also to those curious about the genre of the novel more broadly Dostoevsky at 200 is pathbreaking in its approach to the question of Dostoevsky's contribution to the novel as a form *Dostoevsky and the Catholic Underground* Elizabeth A. Blake, 2014-04-30 While Dostoevsky's relation to religion is well trod ground there exists no comprehensive study of Dostoevsky and Catholicism Elizabeth Blake's ambitious and learned Dostoevsky and the Catholic Underground fills this glaring omission in the scholarship Previous commentators have traced a wide ranging hostility in Dostoevsky's understanding of Catholicism to his Slavophilism Blake depicts a far more nuanced picture Her close reading demonstrates

that he is repelled and fascinated by Catholicism in all its medieval Reformation and modern manifestations Dostoevsky saw in Catholicism not just an inspirational source for the Grand Inquisitor but a political force an ideological wellspring a unique mode of intellectual inquiry and a source of cultural production Blake's insightful textual analysis is accompanied by an equally penetrating analysis of nineteenth century European revolutionary history from Paris to Siberia that undoubtedly influenced the evolution of Dostoevsky's thought The Jewish Persona in the European Imagination Leonid

Livak, 2010-09-10 This book proposes that the idea of the Jews in European cultures has little to do with actual Jews but rather is derived from the conception of Jews as Christianity's paradigmatic Other eternally reenacting their morally ambiguous New Testament role as the Christ bearing and killing chosen people of God Through new readings of canonical Russian literary texts by Gogol Turgenev Chekhov Babel and others the author argues that these European writers Christian secular and Jewish based their representation of Jews on the Christian exegetical tradition of anti Judaism Indeed Livak disputes the classification of some Jewish writers as belonging to Jewish literature arguing that such an approach obscures these writers debt to European literary traditions and their ambivalence about their Jewishness This work seeks to move the study of Russian literature and Russian Jewish literature in particular down a new path It will stir up controversy around Christian Jewish cultural interaction the representation of otherness in European arts and folklore modern Jewish experience and Russian literature and culture Recording Russia Gabriella Safran, 2022-11-15 Recording Russia examines scenes of listening to the people across a variety of texts by Russian writers and European travelers to Russia Gabriella Safran challenges readings of these works that essentialize Russia as a singular place where communication between the classes is consistently fraught arguing instead that as in the West the sense of separation or connection between intellectuals and those they interviewed or observed is as much about technology and performance as politics and emotions Nineteenth century writers belonged to a distinctive media generation using new communication technologies not bells but mechanically produced paper cataloguing systems telegraphy and stenography Russian writers and European observers of Russia in this era described themselves and their characters as trying hard to listen to and record the laboring and emerging middle classes They depicted scenes of listening as contests where one listener bests another at times the contest is between two sides of the same person They sometimes described Russia as an ideal testing ground for listening because of its extreme cold and silence As the mid century generation witnessed the social changes of the 1860s and 1870s their listening scenes revealed increasing skepticism about the idea that anyone could accurately identify or record the unadulterated voice of the people Bringing together intellectual history and literary analysis and drawing on ideas from linguistic anthropology and sound and media studies Recording Russia looks at how writers folklorists and linguists such as Turgenev Dostoevsky and Vladimir Dahl as well as foreign visitors thought about the possibilities and meanings of listening to and repeating other people's words
