Russia Monica Attard,1998 Becoming Muslim in Imperial Russia Agnès Nilüfer Kefeli,2014-12-18 In the nineteenth century the Russian Empire's Middle Volga region today's Tatarstan was the site of a prolonged struggle between Russian Orthodoxy and Islam each of which sought to solidify its influence among the frontier's mix of Turkic Finno-Ugric and Slavic peoples The immediate catalyst of the events that Agnes Nilufer Kefeli chronicles in *Becoming Muslim in Imperial Russia* was the collective turn to Islam by many of the region's Krashens the Muslim and animist Tatars who converted to Russian Orthodoxy between the sixteenth and eighteenth centuries The traditional view holds that the apostates had really been Muslim all along or that their conversions had been forced by the state or undertaken voluntarily as a matter of convenience In Kefeli's view this argument vastly oversimplifies the complexity of a region where many participated in the religious cultures of both Islam and Orthodox Christianity and where a vibrant Krashen community has survived to the present By analyzing Russian Eurasian and Central Asian ethnographic administrative literary and missionary sources Kefeli shows how traditional education with Sufi mystical components helped to Islamize Finno-Ugric and Turkic peoples in the Kama Volga countryside and set the stage for the development of modernist Islam in Russia Of particular interest is Kefeli's emphasis on the role that Tatar women both Krashen and Muslim played as holders and transmitters of Sufi knowledge Today she notes intellectuals and mullahs in Tatarstan seek to revive both Sufi and modernist traditions to counteract new expressions of Islam and promote a purely Tatar Islam aware of its specificity in a post-Christian and secular environment **Nonviolence Speaks** Brian Martin,Wendy Varney,2003 This book addresses the power of popular nonviolent action against repression aggression and oppression A crucial aspect to effective nonviolent action is communication Activists need to be able to contact each other and to mobilize support from other parts of the world However within the nonviolence literature communication has been almost entirely neglected while within the communication literature nonviolent action is seldom mentioned This is the first major study to focus on the joint dynamics of nonviolence and communication Three case studies are examined the popular action that forced the resignation of Indonesian President Suharto in 1998 the successful people's resistance to the Soviet coup in 1991 and the successful internationally coordinated campaign against the Multilateral Agreement on Investment in 1988 In each case special attention is given to the role of communication in the struggle Attention is then turned to theory Surveys are made of nonviolence and communication theories probing for insights relevant to the nonviolence communication nexus Gradually a model for analyzing people's communication is developed The insights from theory are then used to propose a set of steps by which activist groups can analyze communication and develop effective communication strategies Social defence Brian Martin,Jørgen Johansen,2019-07-11 Social defence is nonviolent community resistance to aggression and repression as an alternative to military forces Given the enormous damage caused by military systems social defence is an alternative worth investigating and pursuing Since the 1980s Jørgen Johansen and

Brian Martin have been involved in promoting social defence In this book they provide an up to date treatment of the issues They address the downsides of military systems historical examples of nonviolent resistance to invasions and coups key ideas about social defence important developments since the end of the Cold War and the role of social movements Social defence challenges deeply embedded assumptions about violence and defence It is also a challenge to powerful groups with vested interests in systems of organised violence especially militaries and governments Popular action against aggression and repression is a radical alternative and a logical one

Russian foreign policy in this decade Russia's military interventions in Ukraine from 2014 and Syria from 2015 caused widespread surprise among Western policy communities including the United States. However, these interventions represented the culmination of two well-established trends that had been clearly identified by Russia watchers over preceding years. These were first a mounting perception of direct threat against Russia from the West and second Russia's own greatly increased capability for military or other action to respond to this perceived threat. In addition to the examination of Russia's use of military force in Ukraine and Syria, this book gives a complete insight into Russian diplomacy by analyzing the interference into the U.S. presidential elections, engagement with Latin America, and interests in Sub-Saharan Africa.

When London Calls Stephen Alomes, 1999-10-11. For thousands of young Australians the tearful dockside farewell was a rite of passage as they boarded ships bound for London. For some the journey was an extended holiday, but for many actors, painters, musicians, writers, and journalists leaving Australia seemed to be the only path to personal and professional fulfilment. This book, first published in 2000, is a collective biography of those people who found themselves categorised as expatriates: people such as Leo McKern, Dame Joan Sutherland, Barry Tuckwell, Don Banks, Phillip Knightley, John Pilger, Peter Porter, Richard Neville, Jill Neville, and megastars Barry Humphries, Germaine Greer, and Clive James. The book tells of choices they made about career and country, yet it is also a cultural history that traces shifts in the complex relationship between Australia and Britain as the supposed colonial backwater began to develop its own cultural identity.

All Russia Is Burning! Cathy A. Frierson, 2012-11-10 Rural fires were an even more persistent scourge than famine in late imperial Russia as Cathy Frierson shows in this first comprehensive study Destroying almost three billion rubles worth of property in European Russia between 1860 and 1904 accidental and arson fires acted as a brake on Russia's economic development while subjecting peasants to perennial shocks to their physical and emotional condition The fire question captured the attention of educated progressive Russians who came to perceive it as a key obstacle to Russia's becoming a modern society in the European model Using sources ranging from literary representations and newspaper articles to statistical tables and court records Frierson demonstrates the many meanings fire held for both peasants and the educated elite To peasants it was an essential source of light and warmth as well as a destructive force that regularly ignited their cramped villages of wooden thatch roofed huts Absent the rule of law they often used arson to gain justice or revenge or to exert social control over those who would violate village norms Frierson shows that the vast majority of arson cases in European Russia were not peasant against gentry acts of protest but peasant against peasant acts of self help law or plain spite Both the state and individual progressives set out to resolve the fire question and to educate cajole or coerce the peasantry into the modern world Fire insurance building codes scientific village layouts and volunteer firefighting brigades reduced the average number of buildings consumed in each blaze but none of these measures succeeded in curbing the number of fires each year More than anything else this history of fire and arson in rural European Russia is a history of their cultural meanings in the late imperial campaign for modernity Frierson shows the special associations of women with fire in rural life and in elite understanding of fire in the Russian countryside Her study of the fire question demonstrates both peasant agency in fighting fire and educated Russians hardening conviction that peasants stood in the way of Russia's advent into the company of prosperous rational civilized nations

Russians in Cold War Australia Phillip Deery, Sheila Fitzpatrick, 2024-02-19

Russians in Cold War Australia explores the time during the Cold War when Russian displaced persons, including former Soviet citizens, were amongst the hundreds of thousands of immigrants given assisted passage to Australia and other Western countries in the wake of the Second World War. With the Soviet Union and Australia as enemies, skepticism surrounding the immigrants avowed anti-communism introduced new hardships and challenges. This book examines Russian immigration to Australia in the late 1940s and 1950s, both through their own eyes and those of Australia's security service ASIO, to whom all Russian speakers were persons of interest.
