The Literary Construction of the Other in the Acts of the Apostles Mitzi J Smith, 2012-06-28 Mitzi Smith engages the reader in explaining how as in the real world the characterization of the Others is used negatively in the biblical texts Smith shows how the concept of difference is constructed in order to distinguish ourselves from proximate others indeed the other who is most similar to us is most threatening and most problematic The process of Othering or Otherness is a synthetic and political social construct that allows us to create and maintain boundaries between them and us Thus this work demonstrates how proximate characters are constructed as the Other in the Acts of the Apostles Charismatics Jews and women are proximate others who are constructed as the external and internal Others
