Major Works Of Sri Aurobindo:

The Essential Aurobindo Sri Aurobindo, 2001 Who wrote the Gospel of John The author identifies himself only as the disciple whom Jesus loved and Christian tradition tells us that this disciple was the apostle John However during the past century scholars have increasingly come to doubt that attribution In 1902 Rudolf Steiner wrote that the author of the Gospel of John was in fact Lazarus Steiner's position stemmed from his insight that Lazarus's encounter with death involved far more than people realized an initiation into higher spiritual realities that uniquely qualified him to write this gospel Edward Smith takes up this argument and shows that subsequent research has tended to favor Lazarus for reasons grounded in John's Gospel itself More important Smith shows that subsequent discoveries at Nag Hammadi and Mar Saba corroborate Steiner's reasoning about the nature of the raising of Lazarus pointing to Lazarus as the rich young ruler of Mark's Gospel Six Pillars Robert McDermott, 2012 Sri Aurobindo 1872 1950 was one of the great twentieth century figures of India Over the course of his lifetime he helped India's struggle for freedom and became a leading yogi philosopher and poet of his time and culture In his teaching Sri Aurobindo went well beyond Eastern philosophy and religion synthesizing it with Western traditions even spending two years of his youth at Loreto Convent in Darjeeling West Bengal In 1879 Aurobindo and his two elder brothers were taken to Manchester England for a European education and placed in the care of Rev Drewett an Anglican clergy and his wife In 1884 Aurobindo joined St Paul's School where he learned Greek and Latin and spent three years studying literature especially English poetry By 1910 Sri Aurobindo's focus was directed entirely toward spirituality and he settled in Pondicherry India where he taught wrote and published his greatest works His spiritual vision extended beyond the perfection and transformation of the individual to include the evolution and transformation of human society According to his teaching a true solution to humanity's problems arises from a radical transformation of human life into a form of divine existence The one aim of my yoga is an inner self development by which each one who follows it can in time discover the One Self in all and evolve a higher consciousness than the mental a spiritual and supramental consciousness which will transform and divinize human nature Sri Aurobindo For everyone interested in the philosophical and spiritual vision of the great Indian thinker Sri Aurobindo the revolutionary turned yogi this outstanding collection of masterly introductions first published in 1974 offers original reflections and interpretations of Sri Aurobindo's six major works all written by distinguished scholars of religion and philosophy rather than devotees Long out of print and difficult to find Six Pillars is again available for contemporary readers Contents Foreword by Ursula King John Collins Savitri Poetic Expression of Spiritual Experience Thomas Berry The Foundations of Indian Culture its Contemporary Significance Thomas J Hopkins The Vision of the Purushottama in Essays on the Gita J Bruce Long A New Yoga for a New Age A Critical Introduction to The Synthesis of Yoga Eugene Fontinell A Pragmatic Approach to the Human Cycle Robert McDermott The Life Divine Sri Aurobindo's Philosophy of Evolution and Transformation Introductions to the Major Works of Sri Aurobindo provides readers

with a portal into the thinking of one of India's greatest figures of past century Aurobindo the revolutionary turned yogi was a puzzle to his contemporaries and remained one to later generations This is probably still true today But puzzles are there to be solved These essays can help to do that They dissolve some of the enigmas that surround Sri Aurobindo even though not answering all our questions They provide much substance for thought and further discussion and invite us to gain a deeper familiarity with one of the great minds of modern India whose inspiring spiritual message can transform one's life and help to change the world Ursula King from the foreword **Six Pillars** Robert A. McDermott, 1974 **The Hour of God** Sri

Aurobindo, 1959-08-15 The pieces collected together in this book were written by Sri Aurobindo between 1910 and 1940 None of them were published during his lifetime none received the final revision he gave to his major works Most of the pieces were first printed in various journals published by the Ashram and subsequently in the different editions of *The Hour of God* beginning with the first edition 1959 In reading these essays one gets the very distinct feeling that the author really does know whereof he speaks Here we are able to sit in his lap and listen as he fabricates one description after another of the ineffable and explains how we too can share in the realization awaiting us at the end of what seems in the clarity of his vision to be not such an arduous path It is not that he ever says that the way is easy quite the contrary but the certainty with which he speaks seems to put it into reach **The Hour Of God** Sri Aurobindo, 2016-06-05 *The Hour Of God* by Sri

them and he finds the foundations of Aurobindo's yoga practice in his diaries and unpublished letters. Heehs's biography is a sensitive honest portrait of a life that also provides surprising insights into twentieth century Indian history. **The Integral Philosophy of Aurobindo** Brainerd Prince, 2017-01-20 Sri Aurobindo was an Indian nationalist philosopher yogi guru and poet. This book is an enquiry into the integral philosophy of Aurobindo and its contemporary relevance. It offers a reading of Aurobindo's key texts by bringing them into conversation with religious studies and the hermeneutical traditions. The central argument is that Aurobindo's integral philosophy is best understood as a hermeneutical philosophy of religion. Such an understanding of Aurobindo's philosophy offering both substantive and methodological insights for the academic study of religion subdivides into three interrelated aims. The first is to demonstrate that the power of the Aurobindonian vision lies in its self-conception as a traditional hermeneutical enquiry into religion; the second to draw substantive insights from Aurobindo's enquiry to envision a way beyond the impasse within the current religious/secular debate in the academic study of religion; Working out of the condition of secularism, the dominant secularists demand the abandonment of the category religion and the dismantling of the academic discipline of religious studies. Aurobindo's integral work on religion arising out of the Vedānta tradition critiques the condition of secularity that undergirds the religious/secular debate. Finally informed by the hermeneutical tradition and building on the methodological insights from Aurobindo's integral method, the book explores a hermeneutical approach for the study of religion which is dialogical in nature. This book will be of interest to academics studying Religious Studies, Philosophy of Religion, Continental Hermeneutics, Modern India, Modern Hinduism as well as South Asian Studies.

Readings in Sri Aurobindo's Essays on the Gita Volume 1 Santosh Krinsky, 2014-04-07 Santosh highlights key relevant points of Aurobindo's Essays on the Gita, explains them and reveals their depth and implications today. Each of his well-chosen selections and lucid comments constitutes a luminous doorway into the heart of the Gita. Santosh shows us how we should approach great teachings like those of Sri Aurobindo and make them relevant for our current search, helping to lift humanity into a new era of higher consciousness that is so desperately needed.
