Making Capitalism Work:

Making Capitalism Work Leonard Silk, Mark Silk, 1996-11-01 In 1995 Republicans came to power in the United States with an ambitious program proposing to embrace a degree of laissez faire economics unknown for generations anywhere in the industrialized world Simultaneously politicians entrepreneurs and economists championed the new bastions of unregulated capitalism that sprung up in such unfamiliar precincts as Beijing and Moscow Yet to date many free market economic policies be it in Prague or here in America have not lived up to their initial promises In fact it has become a common joke in Russia that capitalism has succeeded in making communism look good a feat unaccomplished by the Kremlin in its 70 year reign In *Making Capitalism Work* Leonard and Mark Silk analyze the failures and successes of capitalism as seen most recently in the former Soviet Bloc Japan China the European Community and the United States While recognizing that capitalism has been successful in a number of countries the authors point out that overly simplistic policies advocating an unfettered capitalism ignore too large a range of issues central to the formation of any moral economic system Viewing capitalism as simply one of a number of economic systems Leonard and Mark Silk address such issues as the obligation of the rich to the poor the responsibility of the state to insulate its citizens from market fluctuations the responsibility of present generations to provide for future ones and whether economic systems can set the proper extent and limits of individual rights and freedoms An important concise thought provoking book this is the last book Leonard Silk wrote before his death late last year and has been completed here by his son Mark

Making Capitalism Work Joseph James Myler, 1950 **Making Capitalism Work** Dexter Merriam Keezer, 1950 *Making Light Work* David A. Spencer, 2022-01-19 Is work a primordial curse Or a spiritual calling Or is it a tedious necessity that technology will abolish freeing us to indulge lives of leisure In this book David A Spencer argues that work is only an alienating burden because of the nature of work under capitalism He makes the case not for the abolition of work which can remain a source of meaning and dignity but for its lightening Engaging with thinkers ranging from Marx and William Morris to Keynes and Graeber he rejects the idea that high quality work can only be open to a few while the majority are condemned to menial tasks and sets out an agenda for shortening the working week while also making work a site of creativity usefulness and joy for all This erudite book sets out a compelling agenda for radical change It s essential reading for anyone interested in the future of their work *Study of Reconstruction Finance Corporation* United States. Congress. Senate. Committee on Banking and Currency, United States. Congress. Senate. Committee on Banking and Currency. Hallin,2024-08-13 This book examines the relationship between media and medicine Drawing on insights from anthropology linguistics and media studies it considers the fundamental role of news coverage in constructing wider cultural understandings of health and disease The authors advance the notion of biomediatization and demonstrate how health knowledge is co produced through connections between dispersed sites of knowledge making and through multiple forms of expertise The chapters offer an innovative combination of media content analysis and ethnographic data on the production and circulation of health news drawing on work with journalists clinicians health officials medical researchers marketers and audiences New to this edition are new case studies in particular about the COVID 19 pandemic The first case study looks at pharmaceutical and biotech news and how journalists portray the flow of information across the boundaries between science and business The next two case studies examine pandemic news beginning with the 2009 H1N1 swine flu pandemic and continuing to the COVID 19 pandemic The final case study examines the treatment of race and racism in health news looking at the ways it interacts with cultural constructions of health citizenship and the forces that have produced a shift from deracialization of health news to a much stronger focus on race and racism in contemporary health news This book is ideal for undergraduate students and scholars across the social sciences health sciences cultural studies and journalism *Policy Making and Implementation* Ronald James May,2009-09-01 There is a vast literature on the principles of public administration and good governance and no shortage of theoreticians practitioners and donors eager to push for public sector reform especially in less developed countries Papua New Guinea has had its share of public sector reforms frequently under the influence of multinational agencies and aid donors Yet there seems to be a general consensus both within and outside Papua New Guinea that policy making and implementation have fallen short of expectations that there has been a failure to achieve good governance This volume which brings together a number of Papua New Guinean and Australian based scholars and practitioners with deep familiarity of policy making in Papua New Guinea examines the record of policy making and implementation in Papua New Guinea since independence It reviews the history of public sector reform in Papua New Guinea and provides case studies of policy making and implementation in a number of areas including the economy agriculture mineral development health education lands environment forestry decentralization law and order defence women and foreign affairs privatization and AIDS Policy is continuously evolving but this study documents the processes of policy making and implementation over a number of years with the hope that a better understanding of past successes and failures will contribute to improved governance in the future Review of Small Business Administration's Programs and Policies--1969 United States. Congress. Senate. Select Committee on Small Business,1969 *Raising the Nation* Paul Lindley,2023-11-07 Builds a compelling case showing why we must nurture smart strong and kind children to one day inherit the stewardship of society Setting out big public policy ideas enhanced by contributions from academic and campaigning experts this book is a manifesto to deliver our brightest possible future Making Capitalism Work for Everyone ,2017

Engraved on Our Nations Wanda Wuttunee, Fred Wien, 2024-03-29 A testimony to Indigenous resilience in business Despite investments in nation building self autonomy and cultural resurgence Indigenous economic development has remained an underexplored and underestimated area of research Engraved on Our Nations overturns the discouraging deficit perspective too common in policy and academia and amplifies the largely undocumented history of successful Indigenous economic activity in Canada Following David Newhouse's overview of Indigenous economic history the authors of this collection illustrate how First Nation and Métis individuals and communities have met and overcome an array of challenges Case studies focus on First Nations from Membertou Nova Scotia to Tahltan British Columbia and Indigenous led enterprises like McDonald Brothers Electric Northwest Territories and Neechi Commons Manitoba Simultaneously celebrating Indigenous entrepreneurs and exploring concerns around sustainable development the book also asks can capitalism be Indigenized This first of its kind collection shares stories not only of entrepreneurial excellence and persistence but savvy leadership innovation and reciprocity In doing so Engraved on Our Nations provides hope to Indigenous business leaders youth and elected officials working on the front lines to improve economic conditions and achieve a good life for their communities

Work Is for the People Joseph Burrell, 2011 Work is for the People is for everyone who cares about civil rights human rights and the rights of working people and consumers as well as those who believe that government is not automatically evil and incompetent The author reminds us that in a democracy the system of work and the economy are supposed to be designed to benefit the people not owners and bosses he shows that corporatism is another name for fascism and calls for a fairly regulated capitalism in place of the travesty of the unelected unregulated and predatory capitalism we have now Despite its strong language this is not a radical or extremist book Readers interested in current events the economy politics from the local to the international arena war and peace and the place of religion in society need to be conversant with the nature of the various belief systems that drive public discourse This book is an equal opportunity offender skewering capitalism communism christianism secularism conservatism liberalism libertarianism fascism and their offshoots It defines and explores each of these isms and describes their relationships to one another and the relationship between their promises and their reality from a liberal democratic viewpoint Distorted and misused for at least since the rise of McCarthyism and the start of the cold war they have corrupted American politics and undermined democratic liberalism everywhere in the western world and even in Eastern Europe The book is packed with quotations from mainstream media sources which if you read closely will acknowledge the darnedest things See for yourself [Legislative Proposals on Reforming Mortgage Practices](#) United States. Congress. House. Committee on Financial Services, 2008

The Collapse of Liberalism Charles Noble, 2004-05-03 In *The Collapse of Liberalism* noted political scientist Charles Noble shows how the American political system frustrates progressive reform while taking liberalism to task for not being radical enough for what he sees as a long history of accommodating the very same political institutions and corporate interests that it has wanted to

challenge As a result Noble argues liberals have been unable to solve the problems of class race and gender inequality that bedevil the United States In short American liberalism suffers not only at the hands of conservatives but also from its own failures of vision will and political strategy Beyond a critique Noble offers a breath taking new progressive strategy for rebuilding America Clear and thought provoking *The Collapse of Liberalism* is a politically engaged interrogation of the way American liberals think about politics and social reform *Living in the End Times* Slavoj Zizek, 2011-04-18 There should no longer be any doubt global capitalism is fast approaching its terminal crisis But if the end of capitalism seems to many like the end of the world how is it possible for Western society to face up to the end times In a major new analysis of our global situation Zizek argues that our collective responses to economic Armageddon correspond to the stages of grief ideological denial explosions of anger and attempts at bargaining followed by depression and withdrawal For this edition Zizek has written a long afterword that leaves almost no subject untouched from WikiLeaks to the nature of the Chinese Communist Party Perspectives and Proposals on the Community Reinvestment Act United States. Congress. House. Committee on Financial Services. Subcommittee on Financial Institutions and Consumer Credit, 2010 *Going Big* Robert Kuttner, 2022-04-26 With history and the extraordinary parallels between Biden and FDR as his guide the veteran political analyst diagnoses what is at stake for America in 2022 and beyond Joe Biden has found his way back to Franklin Roosevelt's New Deal After four decades of diminishing prospects for ordinary people the public likes what Biden is offering Yet American democracy is in dire peril as Republicans increasingly the national minority try to destroy democracy in order to cling to power It is the best of times and the worst of times In *Going Big* bestselling author and political journalist Robert Kuttner assesses the promise and peril of this critical juncture Biden like FDR in his time faces multiple challenges Roosevelt had to make terrible compromises with racist legislators to win enactment of his program Biden to achieve the necessary governing coalition needs to achieve durable multiracial coalitions Roosevelt had to conquer fascism in Europe Biden must defeat it at home And after four decades of neoliberal policy disasters reflecting Wall Street's political influence Biden needs to go beyond what even FDR achieved to restore a democratic economy of broad possibility From a writer with an unparalleled understanding of the history and politics that have made this moment possible this book is the essential guide to what is at stake for Joe Biden for America and for our democracy **Reading Marx in the Information Age** Christian Fuchs, 2015-10-23 Renowned Marxist scholar and critical media theorist Christian Fuchs provides a thorough chapter by chapter introduction to Capital Volume 1 that assists readers in making sense of Karl Marx's most important and groundbreaking work in the information age exploring Marx's key concepts through the lens of media and communication studies via contemporary phenomena like the Internet digital labour social media the media industries and digital class struggles Through a range of international current day examples Fuchs emphasises the continued importance of Marx and his work in a time when transnational media companies like Amazon Google and Facebook play an increasingly important

role in global capitalism Discussion questions and exercises at the end of each chapter help readers to further apply Marx's work to a modern day context
