Making It And Breaking It The Fate Of Public Interest Commitment During Law School:

Making it and Breaking it Robert V. Stover, 1989 **Private Lawyers and the Public Interest** Robert Granfield, Lynn M. Mather, 2009 Private Lawyers and the Public Interest The Evolving Role of Pro Bono in the Legal Profession explores timely questions about the role of pro bono in the legal profession the relationship between pro bono ideals and pro bono in practice and the opportunities and limitations of pro bono in expanding access to justice The contributing writers explore theoretical empirical and practical questions regarding the role of pro bono and public service in the legal profession and in law schools The research presented not only highlights the increase in pro bono efforts across the legal profession but critically examines the limitations of pro bono work as well as the potential problems such work may pose to the ideal of achieving greater access to justice **Blue Juice** Patricia Morris, 2012-06-08 Offering a candid behind the scenes look at small animal veterinary practices Blue Juice explores the emotional and ethical conflicts involved in providing a good death for companion animals Patricia Morris presents a nuanced ethnographic account of how veterinarians manage patient care and client relations when their responsibility shifts from saving an animal's life to negotiating a decision to end it Using her own experiences and observations in veterinary settings as well as the voices of seasoned and novice vets Morris reveals how veterinarians think about euthanasia and why this dirty work often precipitates burnout moral quandaries and even tense or emotional interactions with clients Closely observing these interactions Morris illuminates the ways in which euthanasia reflects deep and unresolved tension in human animal relationships Blue Juice seeks to understand how practitioners charged with the difficult task of balancing the interests of animals and their humans deal with the responsibility of ending their patients' lives **Teaching Law** Robin West, 2014 This book suggests reforms to improve legal education and responds to concerns that law schools eschew the study of justice *Repay As You Earn* Philip G. Schrag, 2001-11-30 In 1993 Congress created a student loan repayment plan intended to enable high debt graduates to accept low income public service jobs by reducing their loan payments and eventually forgiving part of their debts But this Congressional initiative only helps those with catastrophically low incomes It has failed to attract many users because as implemented through regulations of the U S Department of Education it requires payment over too long a period 25 years before forgiveness Many students go to graduate and professional schools in pursuit of careers in public service But they often must borrow 100 000 or more to finance their education Their loan repayment obligations become so high that they can no longer afford to follow their ideals and they abandon their plans to have public service careers and seek employment with corporations or firms offering high salaries The income contingent repayment plan should have appealed to would be public interest lawyers who are among the graduates with the highest debt to income ratios but the plan has failed them and Schrag explores why and how the plan should be reformed either by Congress or by the federal administration **The Puzzle of Judicial Behavior** Lawrence Baum, 2009-10-22 How do we explain judges' decisions *Michigan Law Review*, 1990 *The Costs of Living* Barry

Schwartz,2001-03-22 We all value freedom family friends work education health and leisure the best things in life But the pressure we experience to chase the dollar in order to satisfy both the demands of the bottom line and the demands of our seemingly insatiable desire to consume are eroding these best things in life Our children now value profit centers not sports heroes Our educational system is fast becoming nothing more than a financial investment where students are encouraged to expend more energy on making the grade than on learning about their world Our business leaders are turning young idealists into cynics when they cut corners and explain that everybody s doing it The need to achieve in our careers intrudes so greatly on our personal world that we find ourselves weighing the costs of enjoying friendships rather than working In this book psychologist Barry Schwartz unravels how market freedom has insidiously expanded its reach into domains where it does not belong He shows how this trend developed from a misguided application of the American value of individuality and self pursuit and how it was aided by our turning away from the basic social institutions that once offered traditional community values These developments have left us within an overall framework for living where worth is measured entirely by usefulness in the marketplace The more we allow market considerations to guide our lives the more we will continue to incur the real costs of living among them disappointment and loneliness We all value freedom family friends work education health and leisure the best things in life But the pressure we experience to chase the dollar in order to satisfy both the demands of the bottom line and the demands of our seemingly insatiable desire to consume are eroding these best things in life Our children now value profit centers not sports heroes Our educational system is fast becoming nothing more than a financial investment where students are encouraged to expend more energy on making the grade than on learning about their world Our business leaders are turning young idealists into cynics when they cut corners and explain that everybody s doing it The need to achieve in our careers intrudes so greatly on our personal world that we find ourselves weighing the costs of enjoying friendships rather than working In this book psychologist Barry Schwartz unravels how market freedom has insidiously expanded its reach into domains where it does not belong He shows how this trend developed from a misguided application of the American value of individuality and self pursuit and how it was aided by our turning away from the basic social institutions that once offered traditional community values These developments have left us within an overall framework for living where worth is measured entirely by usefulness in the marketplace The more we allow market considerations to guide our lives the more we will continue to incur the real costs of living among them disappointment and loneliness

The Constitutional Logic of Affirmative Action Ronald J. Fiscus,1996-01-22 Few issues are as mired in rhetoric and controversy as affirmative action This is certainly no less true now as when Ronald J Fiscus s The Constitutional Logic of Affirmative Action was first published in 1992 The controversy has perhaps become more charged over the past few years With this compelling and rigorously reasoned argument for a constitutional rationale of affirmative action Fiscus clarifies the moral and legal ramifications of this complex subject and presents an important view in the context of the

ongoing debate Beginning with a distinction drawn between principles of compensatory and distributive justice Fiscus argues that the former although often the basis for judgments made in individual discrimination cases cannot sufficiently justify broad programs of affirmative action Only a theory of distributive justice one that assumes minorities have a right to what they would have gained proportionally in a nonracist society can persuasively provide that justification On this basis the author argues in favor of proportional racial quotas and challenges the charge of reverse discrimination raised in protest in the name of the innocent victims of affirmative action as an action necessary to approach the goals of fairness and equality The Constitutional Logic of Affirmative Action focuses on Supreme Court affirmative action rulings from Bakke 1976 to Croson 1989 and includes an epilogue by editor Stephen L Wasby that considers developments through 1995 General readers concerned with racial justice affirmative action and public policy as well as legal specialists and constitutional scholars will find Fiscus s argument passionate balanced and persuasive

Ethics in Practice Deborah L. Rhode, 2003-09-25 Lawyers ethics have been condemned for centuries but they received little scholarly scrutiny until the last few decades Ethics in Practice brings together leading experts in the emerging field of legal ethics to discuss the central dilemmas of practicing law This collection cuts across conventional disciplinary boundaries to address the roles responsibilities and regulation of contemporary lawyers Contributors address common concerns from diverse perspectives including philosophy psychology economics political science and organizational behavior Topics include the nature of professions the structure of practice the constraints of an adversarial system the attorney client relationship the practical value of moral theory the role of race and gender and the public service responsibilities of lawyers and law students Unique in both its breadth and its depth this book redefines debates that are of enduring significance for both the profession and the public

Handbook of Symbolic Interactionism Larry T. Reynolds, Nancy J. Herman-Kinney, 2003 Symbolic interactionism has a long history in sociology social psychology and related social sciences In this volume the editors and contributors explain its history major theoretical tenets and concepts methods of doing symbolic interactionist work and its uses and findings in a host of substantive research areas

Legal Education in the Global Context Christopher Gane, Robin Hui Huang, 2017-05-15 This book discusses the opportunities and challenges facing legal education in the era of globalization It identifies the knowledge and skills that law students will require in order to prepare for the practice of tomorrow and explores pedagogical shifts legal education needs to make inside and outside of the classroom With contributions from leading experts on legal education from various jurisdictions across the globe the work combines theoretical depth with practical insights Seeking to understand the changing landscape of legal education in the era of globalization the contributions find that law schools can and must adopt educational strategies that at least present students with different understandings of what studying and practicing law is meant to be about They find that law schools need to offer their students choices a vision of practice that is not driven entirely by the demands of the marketplace or the needs of major international law firms Bridging the gap between theory

and practice this book makes a significant contribution to the impact of globalization on legal education and how students and law schools need to adapt for the future It will be of great interest to academics and students of comparative legal studies and legal education as well as policy makers and practitioners **Cause Lawyering** Austin Sarat, Stuart A. Scheingold, 1998 Why do some lawyers devote themselves to a specific social movement or political cause What can we learn from such lawyers about the relationship between law and politics CAUSE LAWYERING offers an insightful portrait of lawyers who sacrifice financial advantage in the name of a more just society These telling essays show how cause lawyering is indispensable to the legitimization of professional authority Educating for Justice Jeremy Cooper, Louise C. Trubek, 2018-12-17 Published in 1997 an edited collection of essays by a group of international public interest scholars and activists that examines the role and function of the law school in developing transmitting and understanding the use of law to bring about social change to the advantage of subordinated people The book traces this influence from the early days of the law school and its induction of legal principles and client responsibilities through training for practices in a variety of settings including teaching social action research client empowerment programs to the outer limits of law school in community legal education and awareness An important and pioneering series of international case studies **Public Interest Job Search Guide** , 1998 *Law School Guide to Public Interest Careers* , 1998 The Worlds Cause Lawyers Make Austin Sarat, 2005 The Worlds Cause Lawyers Make examines the connections between lawyers and causes the settings in which cause lawyers practice and the ways they marshal social capital and make strategic decisions **The Language of Law School** Elizabeth Mertz, 2007-02-03 Anyone who has attended law school knows that it entails an important intellectual transformation frequently referred to as learning to think like a lawyer This process which subtly induces students to think and talk in radically new and different ways about conflicts is largely accomplished in first year law school classes where professors inculcate new attitudes toward spoken and written language Elizabeth Mertz s book is the first study to truly delve into that language to reveal the complexities of how this process takes place She concludes that the transformation law students undergo is as much a shift in how they approach language how they talk and read and write as in how they think *The Rodrigo Chronicles* Richard Delgado, 1996-10-01 Dubbed a pioneer of critical race theory Delgado offers a book of compelling conversations about race in America Richard Delgado is one of the most evocative and forceful voices writing on the subject of race and law in America today The New York Times has described him as a pioneer of critical race theory the bold and provocative movement that according to the Times will be influencing the practice of law for years to come In The Rodrigo Chronicles Delgado adopting his trademark storytelling approach casts aside the dense dry language so commonly associated with legal writing and offers up a series of incisive and compelling conversations about race in America Rodrigo a brash and brilliant African American law graduate has been living in Italy and has just arrived in the office of a professor when we meet him Through the course of the book the professor and he discuss the American racial scene touching on such issues as the

role of minorities in an age of global markets and competition the black left the rise of the black right black crime feminism law reform and the economics of racial discrimination Expanding on one of the central themes of the critical race movement namely that the law has an overwhelmingly white voice Delgado here presents a radical and stunning thesis it is not black but white crime that poses the most significant problem in modern American life **The Elgar Companion to Capital Punishment and Society** Benjamin Fleury-Steiner, Austin D. Sarat, 2024-09-06 The Elgar Companion to Capital Punishment and Society presents a multidisciplinary overview of capital punishment's influences processes and outcomes across society A global range of philosophers social scientists legal experts political theorists and historians critically analyse the trajectory of the death penalty in both retentionist and abolitionist countries underscoring how state killing remains a crucial issue worldwide
