Handbook of Research on Equity in Computer Science in P-16 Education Keengwe, Jared, Tran, Yune, 2020-11-13

The growing trend for high quality computer science in school curricula has drawn recent attention in classrooms. With an increasingly information based and global society, computer science education coupled with computational thinking has become an integral part of an experience for all students given that these foundational concepts and skills intersect cross disciplinarily with a set of mental competencies that are relevant in their daily lives and work. While many agree that these concepts should be taught in schools, there are systematic inequities that exist to prevent students from accessing related computer science skills. The Handbook of Research on Equity in Computer Science in P 16 Education is a comprehensive reference book that highlights relevant issues, perspectives and challenges in P 16 environments that relate to the inequities that students face in accessing computer science or computational thinking and examines methods for challenging these inequities in hopes of allowing all students equal opportunities for learning these skills. Additionally, it explores the challenges and policies that are created to limit access and thus reinforce systems of power and privilege. The chapters highlight issues, perspectives and challenges faced in P 16 environments that include gender and racial imbalances, population of growing computer science teachers who are predominantly white and male, teacher preparation or lack of faculty expertise, professional development programs and more. It is intended for teacher educators, K 12 teachers, high school counselors, college faculty in the computer science department, school administrators, curriculum and instructional designers, directors of teaching and learning centers, policymakers, researchers and students. Somewhere along the way in life, you start to listen to that little voice. We are all on this journey together, growing, learning and changing. As I stood in the kitchen of my dream home, looking out on the still water of the pond, I cried. Warm, salty tears streamed down my face as I told myself I could do this. Just start with one box, don't get overwhelmed. Pack one box, stay focused. I started packing Grandma's china first. As I packed the china, a flood of memories came of the countless times I had carefully

wrapped up each piece and placed them into the box It was at that moment that I decided to write about this beautiful set of china all the experiences and lessons I have learned along my journey It is through my grandmother s journey that I have found my own strength and freedom Twenty years and thirteen moves later the china is the only set of dishes I own When was the last time you used your china What are you waiting for Don t leave it locked up waiting for a special occasion Make today the special occasion you have been waiting for In loving memory of my Grandma Veronica Billetz January 13 1922 December 13 2009 *The Elementary School Teacher and the Course of Study* ,1900 *Primary Education, Popular Educator* ,1926 **Engineering News and American Contract Journal** ,1903 *Educational Resources for Microcomputers* ,1984 **Pacific Fisherman** ,1917 Engineering News ,1886 *Fruit Grower* ,1910 *Fish and Wildlife News* U.S. Fish and Wildlife Service,1988
