Noble, Truman R. Strobridge, 2017-03-15 One of the Coast Guard s great heroes and the secret he kept hidden This is a book of adventure that tells how one man shaped the Alaskan frontier at a crucial time in American history Vincent William Patton Master Chief Petty Officer of the Coast Guard retired Diligent research and precise writing reveal the realities of race relations in nineteenth century America as well as the dangers loneliness and complex relationships of life at sea in that era Bernard C Nalty author of *Strength for the Fight A History of Black Americans in the Military* In the late 1880s many lives in northern and western maritime Alaska rested in the capable hands of Michael A Healy 1839 1904 through his service to the U S Revenue Cutter Service Healy arrested lawbreakers put down mutinies aboard merchant ships fought the smuggling of illegal liquor and firearms rescued shipwrecked sailors from a harsh and unforgiving environment brought medical aid to isolated villages prevented the wholesale slaughter of marine wildlife and explored unknown waters and lands Captain Healy s dramatic feats in the far north were so widely reported that a New York newspaper once declared him the most famous man in America But Healy hid a secret that contributed to his legacy as a lonely tragic figure In 1896 Healy was brought to trial on charges ranging from

conduct unbecoming an officer to endangerment of his vessel for reason of intoxication As punishment he was put ashore on half pay with no command and dropped to the bottom of the Captain s list Eventually he again rose to his former high position in the service by the time of his death in 1904 Sixty seven years later in 1971 the U S Coast Guard learned that Healy was born a slave in Georgia who ran away to sea at age fifteen and spent the rest of his life passing for white This is the rare biography that encompasses both sea adventure and the height of human achievement against all odds *Work, Class, and Power in the Borderlands of the Early American Pacific* Evan Lampe,2013-12-12 This book traces the history of working people who helped established the foundation of the American empire in the Pacific from its origins after the American Revolution to its coming of age in the 1840s and 1850s Beginning with the expeditions of the Columbia and the Lady Washington Lampe argues that the early American Pacific can best be considered through the interaction of four major locations connected through the networks of trade the merchant ship the Northwest Coast Honolulu and Canton Guangzhou In each of these locations the labors of a diverse population of working people was harnessed in the critical labors of empire building including the transportation of goods The central question that the consideration of working people in the Pacific economy during this period is Lampe argues the role of power applied on these laborers by an international capitalist class emerging alongside the Pacific commercial empires Lampe also finds that this power was not uncontested and emerged in response to the activities of labor Working people on the ship and in the port cities found ways to secure their piece of the profitable trade often through illicit means **Secret Sharers: Melville, Conrad and Narratives of the Real** Pawel Jędrzejko,Milton M. Reigelman,Zuzanna Szatanik,2011-01-01 The present book explores a variety of fundamental questions that all of us secretly share Its twenty one chapters written by some of the world s leading Melville and Conrad scholars indicate possible directions of comparativist insight into the continuity and transformations of western existentialist thought between the 19th and 20th centuries The existential philosophy of participation so mistrustful of analytical categories is epitomized by the lives and oeuvres of Melville and Conrad Born in the immediacy of experience this philosophy finds its expression in uncertain tropes and faith based actions rather than muffle the horror vacui with words it plunges head first into liminality where logos dissolves into a positive nothing Unlike analytical philosophers both Melville and Conrad refrain from talking about reality they expose those who would listen to a first hand experience of participation in an interpretive act Employing literary tropes to denude the essence of the human condition they allow their readers to transgress the limitations of language Mistrustful of language they accept the necessity of discourse which to make sense must be actively reshaped endlessly questioned and constantly revised And if uncertainty is the only certainty available to us our lowly human condition also necessitates compassion an existential cure against the liquid capricious reality we are afforded People, Place and Power on the Nineteenth-Century Waterfront Graeme J. Milne,2016-08-24 This book explores the tenuous existence of seafarers divided between their time on the ocean and their residence in sailortown economies geared to exploit them

Particular attention is given both to the contribution of seafarers as a global workforce into the nineteenth century and to their help in creating vibrant multicultural enclaves in port cities worldwide In addition research explores the scandalized opinions of outside observers challenging ideas about public behavior and relationships Sailortown myths persisted far into the twentieth century to the detriment of older waterfront districts and their residents and readers will find this book is invaluable in casting new light on forgotten communities whose lives bridged urban maritime and global histories     *News Notes of California Libraries* California State Library,1929 Vols for 1971 include annual reports and statistical summaries
