Making Of A Saint The Life Times And Sanctification Of Neophytos The Recluse:

The Making of a Saint Catia Galatariotou, 2004-01-29 A study of how a Byzantine holy man became a saint

The Ashgate Research Companion to Byzantine Hagiography Stephanos Efthymiadis, 2020-02-25 For an entire millennium Byzantine hagiography inspired by the veneration of many saints exhibited literary dynamism and a capacity to vary its basic forms The subgenres into which it branched out after its remarkable start in the fourth century underwent alternating phases of development and decline that were intertwined with changes in the political social and literary spheres The selection of saintly heroes an interest in depicting social landscapes and the modulation of linguistic and stylistic registers captured the voice of homo byzantinus down to the end of the empire in the fifteenth century The seventeen chapters in this companion form the sequel to those in volume I which dealt with the periods and regions of Byzantine hagiography and complete the first comprehensive survey ever produced in this field The book is the work of an international group of experts in the field and is addressed to both a broader public and the scholarly community of Byzantinists medievalists historians of religion and theorists of narrative It highlights the literary dimension and the research potential of a representative number of texts not only those appreciated by the Byzantines themselves but those which modern readers rank high due to their literary quality or historical relevance

The Hypotyposis of the Monastery of the Theotokos Evergetis, Constantinople (11th-12th Centuries) R. H. Jordan, Rosemary Morris, 2016-03-03 This book forms part of the Evergetis Project which aims to investigate all surviving texts associated with the Monastery of the Theotokos Evergetis founded in 1049 near Constantinople A book length introduction sets out the historical significance of the house for the development of Byzantine monasticism and discusses its administration liturgy and way of life An English translation of the Hypotyposis the monastery's foundation document is provided accompanied by detailed notes Previous scholarship on the authorship of the Hypotyposis and the evolution of the

text is discussed and linguistic analysis used to suggest that traces of the original foundation document by Paul Evergetinos can be identified within it The Hypotyposis was widely used as a model for later Byzantine and Slavonic typika and the precise relationship of these documents one to the other is demonstrated in detail The volume also includes prosopographical material on the known patrons of the monastery a discussion of its library English translations of later Greek and Latin texts referring to the monastery and a suggested reconstruction of Paul Evergetinos original foundation document *The Icons of Their Bodies* Henry Maguire,2000-05-28 The Byzantines surrounded themselves with their saints invisible but constant companions who were made visible by dreams visions and art The composition and presentation of this imagined gallery followed a logical structure a construct that was itself a collective work of art created by Byzantine society The purpose of this book is to analyze the logic of the saint s image in Byzantium both in portraits and in narrative scenes Here Henry Maguire argues that the Byzantines gave to their images differing formal characteristics of movement modeling depth and differentiation according to the tasks that the icons were called upon to perform in the all important business of communication between the visible and the invisible worlds The book draws extensively on sources that have been relatively little utilized by art historians It considers both domestic and ecclesiastical artifacts showing how the former raised the problem of access by lay men and women to the supernatural and fueled the debates concerning the role of images in the Christian cult Special attention is paid to the poems inscribed by the Byzantines upon their icons and to the written lives of their saints texts that offer the most direct and vivid insight into the everyday experience of art in Byzantium The overall purpose of the book is to provide a new view of Byzantine art one that integrates formal analysis with both theology and social history *The Monastic World* Andrew Jotischky,2025-01-14 A major new history of medieval monasticism from the fourth to the sixteenth century From the late Roman Empire onwards monasteries and convents were a common sight throughout Europe But who were monasteries for What kind of people founded and maintained them And how did monasticism change over the thousand years or so of the Middle Ages Andrew Jotischky traces the history of monastic life from its origins in the fourth century to the sixteenth He shows how religious houses sheltered the poor and elderly cared for the sick and educated the young They were centres of intellectual life that owned property and exercised power but also gave rise to new developments in theology music and art This book brings together the Orthodox and western stories as well as the experiences of women to show the full picture of medieval monasticism for the first time It is a fascinating wide ranging account that broadens our understanding of life in holy orders as never before **Saints' Lives and the Rhetoric of Gender** John Kitchen,1998 He then focuses on one of the few biographies written at that time by a female author Baudonivia s Life of Saint Radegund Baudonivia s story of a female saint is considered in light of the previous observations on Fortunatus Gregory and the prominent trends that characterize the literature s early development *Latin and Greek Monasticism in the Crusader States* Bernard Hamilton,Andrew Jotischky,2020-10-22 Monasticism was the dominant form of religious life

both in the medieval West and in the Byzantine world Latin and Greek Monasticism in the Crusader States explores the parallel histories of monasticism in western and Byzantine traditions in the Near East in the period c 1050 1300 Bernard Hamilton and Andrew Jotischky follow the parallel histories of new Latin foundations alongside the survival and revival of Greek Orthodox monastic life under Crusader rule Examining the involvement of monasteries in the newly founded Crusader States the institutional organization of monasteries the role of monastic life in shaping expressions of piety and the literary and cultural products of monasteries this meticulously researched survey will facilitate a new understanding of indigenous religious institutions and culture in the Crusader states

"Architecture and Pilgrimage, 1000?500 "

Deborah Howard, 2017-07-05 Although there is an obvious association between pilgrimage and place relatively little research has centred directly on the role of architecture Architecture and Pilgrimage 1000 1500 Southern Europe and Beyond synthesizes the work of a distinguished international group of scholars It takes a broad view of architecture to include cities routes ritual topographies and human interaction with the natural environment as well as specific buildings and shrines and considers how these were perceived represented and remembered The essays explore both the ways in which the physical embodiment of pilgrimage cultures is shared and what we can learn from the differences The chosen period reflects the flowering of medieval and early modern pilgrimage The perspective is that of the pilgrim journeying within or embarking from Southern Europe with a particular emphasis on Italy The book pursues the connections between pilgrimage and

architecture through the investigation of such issues as theology liturgy patronage miracles and healing relics and individual and communal memory Moreover it explores how pilgrimage may be regarded on various levels from a physical journey towards a holy site to a more symbolic and internalized idea of pilgrimage of the soul **Crusades** Benjamin Z.

name **History as Literature in Byzantium** Ruth Macrides, 2016-12-05 Although perceived since the sixteenth century as the most impressive literary achievement of Byzantine culture historical writing nevertheless remains little studied as literature Historical texts are still read first and foremost for nuggets of information as main sources for the reconstruction of the events of Byzantine history Whatever can be called literary in these works has been considered as external and detachable from the facts The classical tradition inherited by Byzantine writers the features that Byzantine authors imitated and absorbed are regarded as standing in the way of understanding the true meaning of the text and furthermore of contaminating the reliability of the history Chronicles whose language and style are anything but classicizing have been held in low esteem for they are seen as providing a mere chronological exposition of events This book presents a set of articles by an international cast of contributors deriving from papers delivered at the 40th annual Spring Symposium of Byzantine Studies They are concerned with historical and visual narratives that date from the sixth to the fourteenth century and aim to show that literary analyses and the study of pictorial devices far from being tangential to the study of historical texts are preliminary to their further study exposing the deeper structures and purposes of these texts *Theophylact of Ochrid* Margaret Mullett, 2016-12-05 Few works exist on Byzantine literature as literature and still fewer studies of individual texts This reading of the letter collection c 1090 c 1110 of Theophylact of Ochrid employs a variety of approaches to characterise a work which is both a literary artefact in a long Greek tradition and the only trace of a complex network of friends colleagues patrons and clients within Byzantine Bulgaria and also within the empire as a whole These letters are of great importance from the point of view of local economic or ecclesiastical history relations with the Slavs the arrival of the First Crusade but have not hitherto been studied as an example of Byzantine letter writing This was a genre taken seriously by Byzantines offering us unique insight into the mentality of the Byzantine elite but also into what the Byzantines regarded as literature This book is important as an attempt to raise the status of the study of Byzantine literature and of letters within that literature It is a first attempt to place an epistolary text in a succession of literary and historical contexts its aim too is to probe the reliability of any rhetorical text for straightforward biography especially at the time of the revival fiction in Byzantium At the heart of the book is an analysis of the personal network of Theophylact as presented in the collection with further methodological discussion of network analysis in medieval texts **Letters, Literacy and Literature in Byzantium** Margaret Mullett, 2023-06-09 These studies look at general problems of reading Byzantine literature at literacy practices and the literary process but also at individual texts The past thirty years have seen a revolution in the way Byzantine literature has been viewed no longer is it considered a decadent form of classical literature or a turgid precursor of modern Greek literature There are still prejudices to overcome that there was no literary public or that Byzantium had no drama or humour but Byzantine texts are now read as literature in the social context of literacy and book culture One genre is treated here more fully the letter Derrida said that letters represent all literature In these studies epistolography is

examined from the point of view of genre of originality of communication and as evidence for political history Other genres touched on include the novel historiography panegyric and hagiography The section on literary process includes essays on genre patronage and rhetoric and the section on literacy practices deals with both writing and reading The collection includes one unpublished lecture which acts as introduction and additional notes and comments *Sanctity and Pilgrimage in Medieval Southern Italy, 1000-1200* Paul Oldfield, 2014-04-30 This book integrates the analysis of sanctity with that of pilgrimage offering important new insights into society cross cultural interaction and faith Sacred Space: Shrine, City, Land Benjamin Z. Kedar, R.J. Zwi Werblowsky, 2016-07-27 Sacred Space Shrine City Land a collection of articles that deal with Holy Places from Antiquity to the present from the lands of the Fertile Crescent to Europe India Japan and Mexico from mountains and seas to temples cities and countries from the construction perception and functioning of sacred sites to the psychotic breakdowns they bring on some visitors The Social History of Byzantium John Haldon, 2016-07-29 With original essays by leading scholars this book explores the social history of the medieval eastern Roman Empire and offers illuminating new insights into our knowledge of Byzantine society Provides interconnected essays of original scholarship relating to the social history of the Byzantine empire Offers groundbreaking theoretical and empirical research in the study of Byzantine society Includes helpful glossaries of sociological theoretical terms and Byzantine medieval terms **The Ashgate Research Companion to Byzantine Hagiography** Professor Stephanos Efthymiadis, 2013-07-28 Hagiography is the most abundantly represented genre of Byzantine literature and it offers crucial insight to the development of religious thought and practice social and literary life and the history of the empire It emerged in the fourth century with the pioneering Life of St Antony and continued to evolve until the end of the empire in the fifteenth century and beyond The appeal and dynamics of this genre radiated beyond the confines of Byzantium and it was practised also in many Oriental and Slavic languages within the orbit of the broader Byzantine world This companion is the work of an international team of specialists and represents the first comprehensive survey ever produced in this field It consists of two volumes and is addressed to both a broader public and the scholarly community of Byzantinists Medievalists historians of religion and theorists of the narrative This first volume covers the authors and texts of the four distinctive periods during which Greek Byzantine hagiography developed as well as the hagiography produced in Oriental and Slavic languages and in geographical milieux around the periphery of the empire from Italy to Armenia Volume II addresses questions of genres and the social and other contexts of Byzantine hagiography
