Law in the Making Alessandro Pizzorusso,2012-12-06 The present volume presents a part of the results of a research project launched by the European Science Foundation ESF in 1977 Tribute should be paid to the late Professor Aleck Chloros Judge in the Court of the European Community whose belief in the European ideal and enthusiasm for European cooperation and the comparative study of legal problems made him an elo quent advocate of a large scale ESF venture into the field of com parative law Judge Chloros had envisaged the creation of a per manent sizable and well equipped European institute for compa rative legal studies The successive working parties convoked by the Executive Council of the ESF which I had the honour of chairing from the beginning came to the conclusion that this am bitious vision

could not be realized immediately the financial situation of the member organizations of the ESF also deteriorated making a cautious approach a necessary virtue The solution ultimately adopted by the last of the working parties the Ad Hoc Committee for Comparative Law and submitted to the General Assembly of the ESF in 1979 called for the launching of four pilot projects In November 1980 the Assembly approved detailed plans for two of these projects The first of these dealing with medical responsibility has already been presented in an impressive volume E Deutsch and H L Schreiber editors *Medical Responsibility in Western Europe* *Making Transformative Geographies* Benedikt Schmid, 2020-06-03 In the light of social and environmental unsustainability and injustice the continuing attachment to the idea that a growth based economy is reconcilable with human prosperity and ecological limits seems increasingly implausible Tracing and dissecting the complexities of social change *Making Transformative Geographies* speaks about the development of visions alternatives and strategies for a radical transformation beyond accumulation and growth Covering an empirical sample of 24 eco social organizations projects and groupings in the city of Stuttgart Germany the book drills down into the social spatial and strategic dimensions of transformation It advances a conceptually and empirically grounded assessment of the possibilities and limitations of community activism and civic engagement for shifting transformative geographies towards a degrowth trajectory

**Marx and Hegel on the Dialectic of the Individual and the Social** Sevgi Dogan, 2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel's theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx's arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating Marx's arguments from those of Hegel's enables the book to underline how and why Hegel's critique of liberal ideology falls short of actually empowering individuals in the way that Marx's account does
