Chicana/o Struggles for Education Guadalupe San Miguel, 2013-06-03 Much of the history of Mexican American educational reform efforts has focused on campaigns to eliminate discrimination in public schools However as historian Guadalupe San Miguel demonstrates in *Chicana o Struggles for Education* Activism in the Community the story is much broader and more varied than that While activists certainly challenged discrimination they also worked for specific public school reforms and sought private schooling opportunities utilizing new patterns of contestation and advocacy In documenting and reviewing these additional strategies San Miguel's nuanced overview and analysis offers enhanced insight into the quest for equal educational opportunity to new generations of students San Miguel addresses questions such as what factors led to change in the 1960s and in later years who the individuals and organizations were that led the movements in this period and what

motivated them to get involved and what strategies were pursued how they were chosen and how successful they were He argues that while Chicana o activists continued to challenge school segregation in the 1960s as earlier generations had they broadened their efforts to address new concerns such as school funding testing English only curricula the exclusion of undocumented immigrants and school closings They also advocated cultural pride and memory inclusion of the Mexican American community in school governance and opportunities to seek educational excellence in private religious nationalist and secular schools The profusion of strategies has not erased patterns of de facto segregation and unequal academic achievement San Miguel concludes but it has played a key role in expanding educational opportunities The actions he describes have expanded extended and diversified the historic struggle for Mexican American education

Genuine Multiculturalism Cecil Foster,2013-12-01 While many modern societies are noted for their diversity the resulting challenge is to determine how citizens from different backgrounds and cultures can see themselves and each other as equals and be treated equally In *Genuine Multiculturalism* Cecil Foster shows that a society s failure to bridge these differences is the tragedy of modern living and that pretending it is possible to mechanically develop fraternity and solidarity among diverse groups is akin to seeking out comedy Arguing that genuine multiculturalism is the search for social justice by individuals who have been trapped by ascribed identities or newcomers who have been shut out of perceived ethnic homelands Foster details how this process in essence is the story of the Americas Reconceptionalizing the terms of multiculturalism he offers an intervention into Canada s claim that its definition and practice are based on recognizing equality of citizenship Identifying genuine multiculturalism as an ongoing work in progress rather than a tightly defined policy position Foster challenges readers to imagine a greater and more harmonious ideal A necessary theoretical reconsideration of diversity within society *Genuine Multiculturalism* refocuses the debate about ideals and practices in modern societies

Multicultural Poetics Nissa Parmar, 2017-12-21 Multicultural Poetics provides a new perspective on American poetry that will contribute to the evolution of contemporary critical practice Nissa Parmar combines formalist analysis with cultural studies theory to trace a lineage of hybrid poetry from the American Renaissance to what Marilyn Chin deemed America's multicultural renaissance the blossoming of multicultural literature in the 1980s and 1990s This revisionary literary history begins by analyzing Whitman and Dickinson as postcolonial poets This critical approach provides an alternative to the factionalism that has characterized twentieth century American poetic history and continues to inform literary criticism in the twenty first century Parmar uses a multiethnic multigender method that emphasizes the relationship between American poetic form and cultural development This book provides a new approach by using hybridity as the critical paradigm for a study that groups multiethnic and emergent authors It thereby combats literary ghettoization while revealing commonalities across American literatures and the cross fertilization that has informed their development

Creative Frictions Cecelia Cmielewski, 2021-08-17 Creative Frictions explores the relationship between visionary aspects of practice and policy Despite over 30 years of arts and cultural policy attention there remains a widespread view among the general public and artists alike that creative production does not reflect Australia's culturally diverse population Australia's increasingly complex society can no longer be confined to essentialised or traditional definitions of ethnic communities While this diversity and its emerging complexity can be celebrated as a source of creativity and innovation it can also give rise to social political and creative challenges A key challenge that remains for the arts sector is its ability to support the creative expression of cultural

difference One measure of inclusive creative production is to look at the participation of artists of non English speaking backgrounds NESBs a problematic term discussed in the book There are half as many NESB artists compared to those of other professions participating in the workforce and while under representation is an issue for management in the arts sector the question of representation also benefits from being understood more broadly beyond the narrow sense of multiculturalism as a tool to manage cultural difference This book explores the crucial role of creative leaders and how they work with the mainstream while maintaining their creative integrity and independence to generate a virtuous circle of change Creative Frictions argues that it is the NESB artists who lead change in the arts sector and that creative and organisational leadership working in partnership make creative use of friction and develop the necessary trust to generate the traction for a supportive multicultural arts milieu
