The Star Wars Heresies Paul F. McDonald, 2013-09-17 Despite the insatiable public appetite for all things Star Wars the more analytical side of the saga is all too often ignored This book offers a new way of seeing George Lucas space opera particularly the preguel trilogy a series never given a fair chance because of constant comparisons to the iconic originals In the classic style of Joseph Campbell the trilogy is viewed through the lens of myth and metaphor revealing a body of work not only worthy of scholarly study but perhaps destined to find therein its home A wide variety of philosophical and mythological themes are presented and expounded upon drawing from a rich source of scholars thinkers writers and poets from East and West alike Heretical or not the Star Wars preguels are a surprisingly rich source of insight into the saga as well as the human drama as a whole The History and Politics of Star Wars Chris Kempshall, 2022-08-11 This book provides the first detailed and comprehensive examination of all the materials making up the Star Wars franchise relating to the portrayal and representation of real world history and politics Drawing on a variety of sources including films published interviews with directors and actors novels comics and computer games this volume explores the ways in which historical and contemporary events have been repurposed within Star Wars It focuses on key themes such as fascism and the Galactic Empire the failures of democracy the portrayal of warfare the morality of the Jedi and the representations of sex gender and race Through these themes this study highlights the impacts of the fall of the Soviet Union the War on Terror and the failures of the United Nations upon the galaxy far far away By analysing and understanding these events and their portrayal within Star Wars it shows how the most popular media franchise in existence aims to speak about wider contemporary events and issues The History and Politics of Star Wars is useful for upper level undergraduates postgraduates and scholars of a variety of disciplines such as transmedia studies science fiction cultural studies and world history and politics in the twentieth and twenty first centuries A New Hope: Star Wars: Episode IV George Lucas, 2011-06-28 The classic adventure that started it all A long time ago in a galaxy far far away Luke Skywalker lived and worked on his uncle s farm on the remote planet of Tatooine and he was bored beyond belief He yearned for adventures out among the stars adventures that would take him beyond the farthest galaxies to distant and alien worlds But Luke gets more than he bargained for when he intercepts a cryptic message from a beautiful princess held captive by a dark and powerful warlord Luke doesn t know who she is but he knows he has to save her and soon because time is running out Armed only with courage and with the lightsaber that had been his father's Luke is catapulted into the middle of the most savage space war ever and headed straight for a desperate
