Making Pilgrimages Meaning And Practice In Shikoku:

Making Pilgrimages Ian Reader, 2004-12-31 This study involves a fourteen hundred kilometer long pilgrimage around Japan's fourth largest island Shikoku. In traveling the circuit of the eighty-eight Buddhist temples that make up the route pilgrims make their journey together with Kōbō Daishi 774-835 the holy miracle-working figure who is at the heart of the pilgrimage. Once seen as a marginal practice recent media portrayal of the pilgrimage as a symbol of Japanese cultural heritage has greatly increased the number of participants both Japanese and foreign. In this absorbing look at the nature of the pilgrimage Ian Reader examines contemporary practices and beliefs in the context of historical development taking into account theoretical considerations of pilgrimage as a mode of activity and revealing how pilgrimages such as Shikoku may change in nature over the centuries. This rich ethnographic work covers a wide range of pilgrimage activity and behavior drawing on accounts of pilgrims traveling by traditional means on foot as well as those taking advantage of the new package bus tours and exploring the pilgrimage's role in the everyday lives of participants and the people of Shikoku alike. It discusses the various ways in which the pilgrimage is made and the forces that have shaped it in the past and in the present including history and legend the island's landscape and residents the narratives and actions of the pilgrims and the priests who run the temples regional authorities and commercial tour operators and bus companies. In studying the Shikoku pilgrimage from anthropological historical and sociological perspectives Reader shows in vivid detail the ambivalence and complexity of pilgrimage as a phenomenon that is simultaneously local national and international and both marginal and integral to the lives of its participants. Critically astute yet highly accessible *Making Pilgrimages* will be welcomed by those with an interest in anthropology religious studies and Japanese studies and will be essential for anyone contemplating making the pilgrimage themselves.

[Perspectives on Pilgrimage Studies](#) John Eade, Dionigi Albera, 2015-04-10 Although research on contemporary pilgrimage has expanded considerably since the early 1990s the conversation has largely been dominated by Anglophone researchers in anthropology ethnology sociology and religious studies from the United Kingdom the United States France and Northern Europe. This volume challenges the hegemony of Anglophone scholarship by considering what can be learned from different national linguistic religious and disciplinary traditions with the aim of fostering a global exchange of ideas. The chapters outline contributions made to the study of pilgrimage from a variety of international and methodological contexts and discuss

what the metropolis can learn from these diverse perspectives While the Anglophone study of pilgrimage has largely been centred on and located within anthropological contexts in many other linguistic and academic traditions areas such as folk studies ethnology and economics have been highly influential Contributors show that in many traditions the study of folk beliefs and practices often marginalized within the Anglophone world has been regarded as an important and central area which contributes widely to the understanding of religion in general and pilgrimage specifically As several chapters in this book indicate folk based studies have played an important role in developing different methodological orientations in Poland Germany Japan Hungary Italy Ireland and England With a highly international focus this interdisciplinary volume aims to introduce new approaches to the study of pilgrimage and to transcend the boundary between center and periphery in this emerging discipline

Understanding Tourism Mobilities in Japan

Hideki Endo, 2020-10-08 The total number of foreign tourists received in countries throughout the world was 530 million in 1995 That number broke through the 1 billion mark for the first time in 2012 at 1 035 000 000 In 2015 it reached 1 180 000 000 According to Anthony Elliott and John Urry modern society has been characterized as being mobile and within that we are also living mobile lives In modern society flows of people things capital information ideas and technologies are constantly occurring and as they are merging like a violently rushing stream what could be termed a landscape of mobilities has appeared Social realities are in flux and are transforming to become different than they were before This volume will expand the inquiry of tourism mobilities comprehensively and clearly from the fields of humanities and social sciences In particular tourism mobilities has been actively investigated up to now in the UK US Europe and Australia but even though the Japanese body of literature contains a great many excellent studies of Japanese examples there are almost no English language articles presenting their results Publishing examples of Japanese tourism mobilities will not only foster new and exciting lines of inquiry for existing and future research on tourism mobilities but will also have implications for humanities and social sciences throughout the world

Excursions in Identity

Laura Nenzi, 2008-04-16 In the Edo period 1600-1868 status and gender based expectations largely defined a person's place and identity in society The wayfarers of the time however discovered that travel provided the opportunity to escape from the confines of the everyday Cultured travelers of the seventeenth and eighteenth centuries wrote travel memoirs to celebrate their profession as belle lettrists For women in

particular the open road and the blank page of the diary offered a precious opportunity to create personal hierarchies defined less by gender and more by culture and refinement After the mid eighteenth century which saw the popularization of culture and the rise of commercial printing textbooks guides comical fiction and woodblock prints allowed not a few commoners to acquaint themselves with the historical lyrical or artistic pedigree of Japan s famous sites By identifying themselves with famous literary and historical icons of the past some among these erudite commoners saw an opportunity to rewrite their lives and re create their identities in the pages of their travel diaries The chapters in Part One Re creating Spaces introduce the notion that the spaces of travel were malleable accommodating reconceptualization across interpretive frames Laura Nenzi shows that far from being static backgrounds these travelscapes proliferated in a myriad of loci where one person s center was another s periphery In Part Two Re creating Identities we see how in the course of the Edo period educated persons used travel to or through revered lyrical sites to assert and enhance their roles and identities Finally in Part Three Purchasing Re creation Nenzi looks at the intersection between recreational travel and the rising commercial economy which allowed visitors to appropriate landscapes through new means monetary transactions acquisition of tangible icons or other forms of physical interaction

Stalker, 2007-10-31 From the 1910s to the mid 1930s the flamboyant and gifted spiritualist Deguchi Onisabur 1871-1948 transformed his mother-in-law's small rural religious following into a massive movement eclectic in content and international in scope Through a potent blend of traditional folk beliefs and practices like divination exorcism and millenarianism an ambitious political agenda and skillful use of new forms of visual and mass media he attracted millions to Oomoto his Shintoist new religion Despite its condemnation as a heterodox sect by state authorities and the mainstream media Oomoto quickly became the fastest growing religion in Japan of the time In telling the story of Onisabur and Oomoto Nancy Stalker not only gives us the first full account in English of the rise of a heterodox movement in imperial Japan but also provides new perspectives on the importance of charismatic entrepreneurship in the success of new religions around the world She makes the case that these religions often respond to global developments and tensions imperialism urbanization consumerism the diffusion of mass media in similar ways They require entrepreneurial marketing and management skills alongside their spiritual authority if their groups are to survive encroachments by the state and achieve national international stature Their drive to realize and extend their religious view of the world ideally stems from a prophet rather than profit motive but their activity nevertheless relies on success in the modern capitalist commercial world Unlike many studies of Japanese religion during this period Prophet Motive works to dispel the notion that prewar Shinto was monolithically supportive of state initiatives and ideology **The Camino de Santiago in the 21st Century** Samuel Sánchez y Sánchez, Annie Hesp, 2015-08-11 The Spanish Camino de Santiago a pilgrimage rooted in the Medieval period and increasingly active today has attracted a growing amount of both scholarly and popular attention With its multiple points of departure in Spain and other European countries its simultaneously secular and religious nature and its international and transhistorical population of pilgrims this particular pilgrimage naturally invites a wide range of intellectual inquiry and scholarly perspectives This volume fills a gap in current pilgrimage studies focusing on contemporary representations of the Camino de Santiago Complementing existing studies of the Camino's medieval origins it situates the Camino as a modern experience and engages interdisciplinary perspectives to present a theoretical framework for exploring the most central issues that concern scholars of pilgrimage studies today Contributors explore the contemporary meaning of the Camino through an interdisciplinary lens that reflects the increasing permeability between academic disciplines and fields bringing together a wide range of
