Playing with Teaching ,2020-02-10 The possibilities of gaming for transformative and equity driven instructional teaching practice are more robust than ever before And yet support for designing playful learning opportunities are too often not addressed or taught in professional development or teacher education programs Considering the complex demands in public schools today and the niche pockets of extracurricular engagement in which youth find themselves Playing with Teaching serves as a hands on resource for teachers and teacher educators Particularly focused on how games both digital and non digital can shape unique learning and literacy experiences for young people today this book s chapters look at numerous examples that educators can bring into their classrooms today By exploring how teachers can support literacy practices through gaming this volume provides specific strategies for heightening literacy learning and playful experiences in classrooms The classroom examples of gameful teaching described in each chapter not only provide practical examples of games and learning but offer critical perspectives on why games in literacy classrooms matter today Through depictions of cutting edge of powerful and playful pedagogy this book is not a how to manual Rather Playing with Teaching fills a much needed space demonstrating how games are applied in classrooms today It is an invitation to reimagine classrooms as spaces to newly investigate playful approaches to teaching and learning with adolescents Roll the dice and give playful literacy instruction a try Contributors are Jill Bidenwald Jennifer S Dail Elizabeth DeBoeser Antero Garcia Kip Glazer Emily Howell Lindy L Johnson Rachel Kaminski Sanders Jon Ostenson Chad Sansing and Shelbie Witte
