A STROKE OF GENIUS Sandy Simon, 2014-05-28 This book's first edition was written after my six year odyssey following my stroke. The doctors said if I did not die I would be completely incapacitated physically, mentally, and emotionally. They said I had lost 45% of my brain and was declared 100% disabled for life. Somehow I found a way to healing and thriving as a human being. This extended second edition has added information on my eleven additional years of successful therapies which have helped me fulfill my life beyond my dreams. This edition includes my mentoring with other stroke survivors who have contacted me after they read the first edition. **With One Hand Tied behind My Brain** Avrel Seale, 2020-11-17

Most would not expect a book about a stroke to be entertaining, but this memoir will force you to laugh through a tragedy, then cry, then laugh again. Avrel Seale was fifty, did not smoke or drink, had low blood pressure, and had hiked more than two hundred miles the year a stroke nearly ended his life. In an instant, he was teleported into the body of an old man, unbalanced, shaky, spastic, and half paralyzed. Overnight, he was plunged into a world of brain surgeons, nurses, insurance case managers, and an abundance of therapists. Beginning three weeks before his stroke, to set the stage, Seale leads us through the harrowing day of his stroke and emergency brain surgery with minute by minute intensity. We then follow him through ICU, a rehab hospital, and a neuro recovery group living center where we meet a memorable cast of other stroke survivors and also those recovering from auto accidents and gunshots. Finally home, Seale leads us through a new life of firsts, including returning to work, to driving, to playing guitar, to camping, and even to writing a book, all with one hand. What emerges from his humor, elegant but devastating, is a revealing critique of the hospital experience, the insurance industry, and rehab culture. And his nothing off the table quest for recovery shows both the sobering struggles and inspiring possibilities of life after a stroke in twenty-first century America. **After a Stroke** Cleo Hutton, 2016-08-10

Identity Theft, Second Edition Debra E. Meyerson, Steve Zuckerman, 2025-09-16 *Identity Theft Second Edition* is an award-winning book that follows Stanford professor Debra Meyerson's journey to recover from a severe stroke that initially left her physically incapacitated and unable to speak. In addition to providing realistic expectations for the hard work needed

to regain everyday capabilities Meyerson and Zuckerman focus on the less frequently documented emotional journey as she and her family rebuild identity in recovery Virtually every stroke survivor is haunted by questions like Who am I now and How do I rebuild a meaningful and rewarding life after losing so much of what they had before capabilities careers and jobs relationships and more This is a book full of hope for survivors from stroke or other life changing injuries or illnesses as well as their care partners families and communities The first edition of Identity Theft centers on Debra s experience her stroke her extraordinary efforts to recover and her journey to redefine herself But she also draws on her skills as a social scientist sharing stories from several dozen fellow survivors family members friends colleagues therapists and doctors she has met and interviewed By sharing this diversity of experiences Debra highlights how every stroke is different and every recovery is different She provides a valuable look at the broad possibilities for successfully navigating the challenging physical recovery and the equally difficult and frequently unspoken emotional journey toward rebuilding one s identity and a rewarding life after a trauma like stroke This second edition is written by Debra and her husband Steve Zuckerman As they have shared in countless talks Just as the original book was headed to the printers we decided that the finish line had become a new starting line They co founded the nonprofit Stroke Onward where they have been working side by side to build an organization that can catalyze change in the healthcare system to better integrate the emotional journey of rebuilding identity into a lifelong recovery process This edition draws on five more years of experience as a post stroke couple and what they ve learned from thousands more survivors family members and healthcare professionals They ve added new insights about the long term recovery process and how we can change the stroke system of care to better support all survivors and their families Their 4 500 mile bike ride called Stroke Across America in 2021 helped raise awareness for Stroke Onward and stroke survivorship care
