My Years With Xerox The Billions Nobody Wanted:

My Years with Xerox John H. Dessauer,1972 **The Ignorance Explosion** J. Lukasiewicz,1994 The author reveals the darker side of Western society's adoption of and adaptation to modern technology Despite his portrayal of an increasingly complex artificial and dehumanized technological environment Lukasiewicz writes with humour and humanism and makes an enlightening contribution to the habitually grim literature on this subject *Memorial Tributes* National Academy of Engineering,1994-02-01 This series presents biographies of deceased members of the National Academy of Engineering

Copies in Seconds David Owen,2008-06-30 The first plain paper office copier which was introduced in 1960 and has been called the most successful product ever marketed in America is unusual among major high technology inventions in that its central process was conceived by a single person David Owen's fascinating narrative tells the story of the machine nobody thought we needed but now we can't live without Chester Carlson grew up in unspeakable poverty worked his way through junior college and the California Institute of Technology and made his discovery in solitude in the depths of the Great Depression He offered his big idea to two dozen major corporations among them IBM RCA and General Electric all of which turned him down So persistent was this failure of capitalist vision that by the time the Xerox 914 was manufactured by an obscure photographic supply company in Rochester New York Carlson's original patent had expired Xerography was so unusual and nonintuitive that it conceivably could have been overlooked entirely Scientists who visited the drafty warehouses where the first machines were built sometimes doubted that Carlson's invention was even theoretically feasible Drawing on interviews Xerox company archives and the private papers of the Carlson family David Owen has woven together a fascinating and instructive story about persistence courage and technological innovation a story that has never before been fully told *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office,1973 The Art of Invention Steven J. Paley,2011-03 Chinese edition of The art of invention The Creative Process of Discovery and Design by Steven J Paley In Traditional Chinese Distributed by Tsai Fong Books Inc Forensic Document Examination in the 21st Century Miriam Angel,Jan Seaman Kelly,2020-12-21 Forensic Document Examination in the 21st Century covers the latest technology and techniques providing a complete resource on contemporary issues and methods in forensic document examination Forensic document examiners provide their findings as expert testimony in court Due to rapid changes in technology including digital documents printing and photocopying capabilities and more there is a great need for this up to date reference The examination of documents can include comparison of handwriting or hand printing detection of alterations or photocopier and computer manipulation restoration or decipherment of erased and obliterated writing visualization of latent impressions the identification of printing processes and differentiation of inks Computer generated documents are prevalent and electronically captured signatures are becoming more widespread meaning the knowledge of advances in technology and adoption of new validated techniques and methods of document examination are crucial to the reliability of forensic opinions

Forensic Document Examination in the 21st Century includes the latest research on the subject and with contributions from leading experts on their various areas of expertise The book will be a welcome addition to the literature and support the foundational basis for methods and procedures for use it expert testimony in court serving as a resource for forensic document examiners trainees and those in the criminal and legal communities who use the services of expert document examiners and witnesses

The Valuation Treadmill James J. Park, 2022-07-28 Public companies now face constant pressure to meet investor expectations A company must continually deliver strong short term performance every quarter to maintain its stock price This valuation treadmill creates incentives for corporations to deceive investors Published more than twenty years after the passage of Sarbanes Oxley which requires all public companies to invest in measures to ensure the accuracy of their disclosures The Valuation Treadmill shows how securities fraud became a major regulatory concern Drawing on case studies of paradigmatic securities enforcement actions involving Xerox Penn Central Apple Enron Citigroup and General Electric the book argues that corporate securities fraud emerged as investors increasingly valued companies based on their future performance Corporations now have an incentive to issue unrealistically optimistic disclosure to convince markets that their success will continue Securities regulation must do more to protect the integrity of public companies from the pressure of the valuation treadmill
