battling with Alexander The sounds and smells of the period seem to waft from the pages of his books Doherty has a gift for bringing distant ages alive and for populating his books with endearing believable characters *The Discovery of Tutankhamun's Tomb* Omar Khalil, The search for Tutankhamun's tomb was one of the most ambitious archaeological pursuits of the early 20th century For years Egyptologists and explorers had scoured the Valley of the Kings believing that the burial site of the young pharaoh remained hidden beneath the desert sands Despite previous excavations yielding little success one man remained convinced that the tomb had yet to be discovered Howard Carter a British archaeologist had spent decades working in Egypt developing an unmatched expertise in excavation His belief in the existence of Tutankhamun's tomb was fueled by fragments of artifacts bearing the young pharaoh's name suggesting that his final resting place was still untouched However funding such an extensive search required a patron and it was Lord Carnarvon a wealthy British aristocrat who provided the financial backing In 1917 Carter's systematic excavation of the Valley of the Kings began but after several years of fruitless digging Carnarvon grew impatient By 1922 with resources nearly depleted Carter convinced Carnarvon to allow him one final season of excavation It was in November of that year that Carter's persistence paid off While investigating an area near the tomb of Ramses VI workers uncovered a set of steps leading down into the earth Clearing away the debris Carter discovered a sealed doorway marked with the insignia of Tutankhamun Excitement and caution filled the air as he realized that the tomb had remained undisturbed for centuries The Mystery of the Copper Scroll of Qumran Robert Feather, 2003-06-23 Introduces a radical new perspective on the historical foundations of monotheism based on the enigma of the Copper Scroll of the Essenes Confirms the link between ancient Judaism and the pharaoh Akhenaten Decodes the system of measurements encrypted on the Copper Scroll that has confounded scholars for over 50 years leading to the identification of fabulous lost treasures Points to a radical new understanding of the origins of monotheism The famous Dead Sea Scrolls comprise the oldest collection of Biblical documents ever discovered Of the Dead Sea Scrolls none has baffled experts more than the 2 000 year old Copper Scroll discovered in 1952 by a team of Bedouin led by Henri de Contenson of the Ecole Biblique in East Jerusalem Appearing to be a list of buried treasure engraved on copper pieces the Copper Scroll is considered to be the work of a secretive Jewish sect of devout Essenes who lived by the Dead Sea around the time of Jesus No one has been able to explain its meaning or discover any of the 64 locations where the Biblical treasures it lists were buried Robert Feather combining his background as a metallurgist with his journalistic expertise has unraveled the enigma of the Copper Scroll in a fascinating study that takes the reader on a journey from ancient Mesopotamia through Canaan into Egypt and back to the shores of the Dead Sea His exploration links the scroll to the ancient Egyptian king Akhenaten confirming a long suspected influence of this pharaoh's religious beliefs on those of the Hebrews The author's findings not only reveal the locations of most of the treasures listed on the Copper Scroll but they also point to a radical new understanding of the origins of monotheism the basis of the three great religions of Judaism Islam and
