Bermuda Triangle Mystery - Solved Larry Kusche, 1995-04-01. The mystery of the Bermuda Triangle had been told and retold in books, magazine articles, and on television and radio talk shows for several years when in 1972 Larry Kusche, then a reference librarian, decided to collect all the information he could find on each incident. He made contact with the Coast Guard, the Air Force, Lloyd's of London, and many other agencies. He obtained microfilm copies of newspapers from cities where various incidents had been reported. This exhaustive research had an unexpected result: it solved the mystery. It also resulted in the publication of *The Bermuda Triangle Mystery Solved*, which is now back in print. Larry Kusche's book is more than an investigation of a mystery; it is a fascinating case history of a manufactured mystery in the making. It shows how over the years the raw materials of official accident reports, newspaper accounts, articles in the mainstream press, and word of mouth have been assimilated into a false mystery.

What's more, how could they endure this numerous year? Does it have something to do with the time pass? What's more, the Juan de la Corte was the observer of the inexplicable occurrence. The telephonic correspondence that occurred between the pilot and the laborers has been recorded. He portrays the episode saying it was something stunning, unordinary of the visual he has seen. He said that the plane landed, looked rough, and obsolete; that it was not ready to catch in their radar framework. As though this was an innovation made long years back, Corte, when gotten some information about the subtleties of the plane, he stated that from his terrified voice, he could figure something wasn't right. The pilot answered that it is a sanction plane, Flight 914, with four team individuals and 57 travelers. What's more, was implied to achieve the goal of Miami from New York. What's more, this leaves everybody shocked in the control room.
