Original Magic Stephen E. Flowers, 2017-10-17 A complete guide to the theory practice and history of Mazdan magic the first organized system of magic Provides a complete curriculum of magical study and initiation centered on exercises keyed to the sacred Zoroastrian calendar Details advanced magical rituals and practices based on archaic Persian formulas including fire rituals and divine invocations Explores the history and lore of Persian magic explaining how the author reconstructed the original Mazdan system of magic Stephen Flowers explores the history theory practice rituals and initiations of the Mazdan magical system practiced by the Magi of ancient Persia who were so skilled and famed for their effectiveness that their name came to mean what we today call magic The prestige and reputation of the Magian priests of

Mazda is perhaps most iconically recorded in the Christian story of the Three Wise Men who visited newborn Jesus. The author explains how the religious branch of the Mazdan magical system founded by the Prophet Zarathustra is known in the West under the name Zoroastrianism. He reveals how the Zoroastrian religion which acts as a matrix for the symbols and formulas of the original form of magic has existed for almost four thousand years with roots going back even deeper into the Indo-European past. The author reveals how all other known systems of magic have borrowed from this tradition providing the clues that enabled him to reformulate the original Mazdan system. He reviews what the Greeks, Romans, Hebrews, Christians, and Chinese said about the Iranian/Persian tradition of the Mazdans and their invention of a magical technology. He explains how the ultimate aim of the original form of magic was not only individual wisdom, self-development, and empowerment but also the overall betterment of the world. Outlining the theoretical principles of this method which can be applied in practical ways to deepen the effectiveness of these magical operations, the author details a complete curriculum of magical study and initiation based on a series of graded exercises keyed to the sacred Zoroastrian calendar. He then offers a series of more advanced magical rituals and practices based on archaic Persian formulas including fire rituals and divine invocations. Providing a manual for the original magical system used by the members of the Great Fellowship, this book guides you toward the comprehensive practice of the Mazdan philosophy, the ultimate outcome of which is *ushta* (Happiness).

Persian Authorship and Canonicity in Late Mughal Delhi Prashant Keshavmurthy, 2016-01-29. Writing in the eighteenth century, the Persian language litterateurs of late Mughal Delhi were aware that they could no longer take for granted the relations of Persian with Islamic imperial power relations that had enabled Persian literary life to flourish in India since the tenth century C.E. *Persian Authorship and Canonicity in Late Mughal Delhi* situates the diverse textual projects of Abd al Qadir Badi and his students within the context of politically threatened but poetically prestigious Delhi, exploring the writers' use of the Perso-Arabic and Hindavi literary canons to fashion their authorship. Breaking with the tendency to categorize and characterize Persian literature according to the dynasty in power, this book argues for the indirectness and complexity of the relations between poetics and politics. Among its original contributions is an interpretation of Badi's Sufi adaptation of a Braj Avadhi tale of utopian Hindu kingship, a novel hypothesis on the historicism of Siraj al-Din al-Kharrazi's oeuvre, and a study of how Bindrab Das Khvushg entwined the contrasting models of authorship in Badi and Razi to formulate his voice as a Sufi historian of the Persian poetic tradition. The first book-length work in English on Abd al Qadir Badi and his circle of Persian literati, this is a valuable resource for students and scholars of both South Asian and Iranian studies as well as Persian literature and Sufism.
