Myth And Its Making In The French Theatre:

French Theatre in the Neo-classical Era, 1550-1789 William D. Howarth, 1997-06-05 This 1997 book covers the period which saw the establishment in France of a centralized official theatre not only the Com die Fran aise the first national theatre but an Italian theatre and a state opera the often subversive independent theatres are also discussed Nearly 1 000 documents deal with censorship and other aspects of external control company management the acting profession dramatic theory and criticism theatre architecture settings and costumes audience composition and behaviour Over 120 pictorial documents architectural drawings technical engravings frontispieces portraits etc provide a visual dimension where relevant A full linking narrative and a copious bibliography help to make this an important reference work and a valuable research tool *The Limits of Performance in the French Romantic Theatre* Susan McCready, 2007 This volume analyzes major French plays of the 1830s focusing on their theatricality and on the ways in which they expose the workings of the theater rather than conceal them Through an examination of performance within these plays the study posits that the stage is a privileged site of demonstration a literal proving ground that lends a physical reality to abstract values announced in the text and shared or questioned by the audience Negotiating between the literary study of drama and performance theory this work breaks new ground in nineteenth century theater scholarship while proposing a fresh direction in the study of text and performance The Limits of Performance challenges conventional wisdom offering a novel take on the mal du si cle that thematic hardy perennial of French Romanticism and the nineteenth century in general combined with eminently readable and therefore compelling analysis of plays a thought provoking addition to work in the field Glyn Hambrook *Modern and Contemporary France* November 2008 **Myth and its Making in the French Theatre** E. Freeman, H. Mason, M. O'Regan, S. W. Taylor, 1988-08-26 The authors of the fifteen essays that make up this volume were invited to interpret Myth and its Making in the widest possible sense They were encouraged to re examine not only the time honoured ancient themes exploited in the French theatre from the Renaissance onwards but other literary historical or legendary subjects that have undergone a similar process of mythic enhancement and stylisation Thus they explored the ways in which existing literary myths renewed themselves as well as the process of creating new myths for the modern age Originally published in 1988 the text contains essays in both French and English written from a broad range of perspectives It will be of value to anyone with an interest in French theatre and literary theory **Historical Dictionary of French Theater** Edward Forman, 2010-04-27 The term French theater evokes most immediately the glories of the classical period and the peculiarities of the Theater of the Absurd It has given us the works of Corneille Racine and Moliere In the Romantic era there was Alexander Dumas and surrealist works of Alfred Jarry and then the Theater of the Absurd erupted in rationalistic France with Samuel Beckett Eugene Ionesco and Jean Paul Sartre The Historical Dictionary of French Theater relates the history of the French theater through a chronology introduction bibliography and over 400 cross referenced dictionary entries on authors trends genres

concepts and literary and historical developments that played a central role in the evolution of French theater

Plunka, 2009-04-02 The Holocaust the systematic attempted destruction of European Jewry and other threats to the Third Reich from 1933 to 1945 has been portrayed in fiction film memoirs and poetry Gene Plunka's study will add to this chronicle with an examination of the theatre of the Holocaust Including thorough critical analyses of more than thirty plays this book explores the seminal twentieth century Holocaust dramas from the United States Europe and Israel Biographical information about the playwrights production histories of the plays and pertinent historical information are provided placing the plays in their historical and cultural contexts **The Imagined Empire** Mi Gyung Kim, 2016-12-23 The hot air balloon invented by the Montgolfier brothers in 1783 launched for the second time just days before the Treaty of Paris would end the American Revolutionary War The ascent in Paris a technological marvel witnessed by a diverse crowd that included Benjamin Franklin highlighted celebrations

of French military victory against Britain and ignited a balloon mania that swept across Europe at the end of the Enlightenment. This popular frenzy for balloon experiments, which attracted hundreds of thousands of spectators, fundamentally altered the once elite audience for science by bringing aristocrats and commoners together. The Imagined Empire explores how this material artifact, the flying machine, not only expanded the public for science and spectacle but inspired utopian dreams of a republican monarchy that would obliterate social boundaries. The balloon, Mi Gyung Kim argues, was a people machine, a cultural performance that unified and mobilized the people of France who imagined an aerial empire that would bring glory to the French nation. This critical history of ballooning considers how a relatively simple mechanical gadget became an explosive cultural and political phenomenon on the eve of the French Revolution.
