## **Myth And History In The Of Revelation:**

**Myth and History in the Book of Revelation** John M. Court, 1979      **The Book of Revelation** Leonard L. Thompson, 1997-02-13 About seventy years after the death of Jesus John of Patmos sent visionary messages to Christians in seven cities of western Asia Minor These messages would eventually become part of the New Testament canon as The Book of Revelation What was John s message What was its literary form Did he write to a persecuted minority or to Christians enjoying the social and material benefits of the Roman Empire In search of answers to these penetrating questions Thompson critically examines the language literature history and social setting of the Book of the Apocalypse Following a discussion of the importance of the genre apocalypse he closely analyzes the form and structure of the Revelation its narrative and metaphoric unity the world created through John s visions and the social conditions of the empire in which John wrote He offers an unprecedented interpretation of the role of boundaries in Revelation a reassessment of the reign of the Emperor Domitian and a view of tribulation that integrates the literary vision of Revelation with the reality of the lives of ordinary people in a Roman province Throughout his study Thompson argues that the language of Revelation joins the ordinary to the extra ordinary earth to heaven and local conditions to supra human processes      **Myth, History, and Metaphor in the Hebrew Bible** Paul K.-K. Cho, 2019-02-07 Explores the influence of the sea myth at the structural and conceptual foundations of the Hebrew Bible      **Myth, History, and the Resurrection in German Protestant Theology** Brent A. R. Hege, 2017-10-13 The Christian faith stands or falls with the confession that Jesus Christ is risen While that assertion itself is perhaps uncontroversial precisely what this confession means has been a subject of profound significance and immense controversy for centuries Central to this discussion is the role of myth and history in the biblical witness and in the church s theological engagement with the confession that Jesus Christ is risen This book traces key trajectories of German Protestant discussions of myth history and the resurrection from its earliest critical analysis in the work of Hermann Samuel Reimarus and David Friedrich Strauss to contemporary appraisals by Eberhard Jungel and Ingolf Ulrich Dalferth At the center of this discussion stands Rudolf Bultmann whose work on the resurrection sparked fierce debates that left a lasting impact on Protestant theology in Germany and beyond The questions raised by these theologians continue to resonate in contemporary discussions of the nature and status of biblical texts the integrity and truth of the Christian confession and the meaning and significance of the resurrection of Jesus Christ for Christian faith and life at the beginning of the twenty first century      **Myth and History** Jean Holm, John Bowker, 1994 Considerable work has been done on the European exploration of myth first in the Renaissance and then in the nineteenth century This book covers an area that is new territory by looking at ways in which this work can contribute to an understanding of the primacy of myth in religious life The authors examine the idea of mythistory the complex relationship in religions between myth and history and explore the different ways in which religious storytelling is related to the particular enterprise of storytelling that is called history      *Jung as a Writer* Susan

Rowland,2013-12-16 Jung as a Writer traces a relationship between Jung and literature by analysing his texts using the methodology of literary theory This investigation serves to illuminate the literary nature of Jung s writing in order to shed new light on his psychology and its relationship with literature as a cultural practice Jung employed literary devices throughout his writing including direct and indirect argument anecdote fantasy myth epic textual analysis and metaphor Susan Rowland examines Jung s use of literary techniques in several of his works including Anima and Animus On the Nature of the Psyche Psychology and Alchemy and Synchronicity and describes Jung s need for literature in order to capture in writing his ideas about the unconscious Jung as a Writer succeeds in demonstrating Jung s contribution to literary and cultural theory in autobiography gender studies postmodernism feminism deconstruction and hermeneutics and concludes by giving a new culturally orientated Jungian criticism The application of literary theory to Jung s works provides a new perspective on Jungian Psychology that will be of interest to anyone involved in the study of Jung Psychoanalysis literary theory and cultural studies      **The Divine Revelation** Karl August Auberlen,1874      **History as a Theological Issue**

Nico T. Bakker,2019-05-21 These days no one believes in the redemptive essence of history Lyotard The individual of today lives without culture history social engagement and moral norms Lasch It is in this intellectual climate that History as a Theological Issue has been written Nico Bakker analyses seminal conceptions of history from the past and from our day and compares them with the newest notions of history in biblical and systematic theology In so doing he engages in conversation with thinkers from Augustine to Popper along with many others His thinking is informed in particular by the work of Barth Pannenberg and the Dutch reformed theologians Miskotte and Breukelman Of central significance is his ability to apply basic theological notions to culture In this way he connects the present day crisis of culture with the permanent alienation of church and Christianity from its own origins in the scriptures Now that since the 1950s a new awareness structure is beginning to emerge Gebser the author considers that theology is in need of a radical rethink History as a Theological Issue is written primarily for theologians historians biblical critics and philosophers of religion and is recommended reading for all who are seriously interested in the present day crisis of culture and in the widespread alienation from the Bible Church and Christianity      Myth and Religion in Mircea Eliade Douglas Allen,2002 This is an interesting study with a great deal of

information on Eliade s main themes and a detailed account of his understanding of myth      **Christology and Myth in the New Testament** Geraint Vaughan Jones,2025-03-01 Christology and Myth in the New Testament 1956 enquires into the extent and origin of the mythological language and ideas underlying the Christology of the New Testament It examines the demythologizing principles and refers to the existential method of reinterpreting those New Testament concepts which are bound up with Hellenistic thought forms and the cosmology of the ancient world while also exploring other philosophical and theological interpretations It considers that the mythical Christology of the New Testament writers should be understood poetically and metaphorically rather than as consisting of objective statements about Jesus and his place in creation The final

section of the book is a defence of the retention of mythical concepts and language as psychologically and theologically necessary expressions of a religious faith which cannot be adequately expressed in merely propositional form
