

Common Brain Myths

MYTH

Bigger brains are smarter

We only use 10% of the brain

Some of us use one side of the brain more than the other

We've got 100 billion brain cells in there

Drug use will put holes in your brain

We have 5 senses

FACT

Many species have larger brain than us- but not smarter

Most of the brain is under constant use

Most of us use whole brain equally

We've got only around 86 billion

Drugs can interfere with connections between brain cells- but can never actually put a hole in it

We have many more senses than that!
