The Myth of Freedom and the Way of Meditation Chögyam Trungpa, 2002-02-12 Featuring a new foreword by Pema Chödrön this Tibetan Buddhist classic explores the meaning of freedom and how we can attain it through meditation Freedom is generally thought of as the ability to achieve goals and satisfy desires But what are the sources of these goals and desires If they arise from ignorance habitual patterns and negative emotions is the freedom to pursue these goals true freedom or is it just a myth In *The Myth of Freedom and the Way of Meditation* Chögyam Trungpa explores the true meaning of freedom showing us how our attitudes preconceptions and even our spiritual practices can become chains that bind us to repetitive patterns of frustration and despair He also explains how meditation can bring into focus the causes of frustration and how these negative forces can aid us in advancing toward true freedom Trungpa's unique ability to express the essence of Buddhist teachings in the language and imagery of contemporary American culture makes this book one of the best most accessible sources of the Buddhist doctrine ever written *The Myth Of Freedom And The Way Of Meditation* Chogyam Trungpa, 1999 **The Myth of Freedom and the Way of Meditation. *We Are the Economy* Kai Romhardt, 2020-07-14 A no nonsense Zen approach to our economic realities can change everything and help us regain our freedom. Is it possible to be personally fulfilled and also make a difference within our current financial system? If you're skeptical, business coach and Zen practitioner Kai Romhardt proposes a minimalist awareness based strategy that totally reconfigures our core economic relationships, work, consumption, and money. How do we do that? We need to pause, breathe, and get in touch with our true intentions. Too often we think of the economy as something outside of us, as beyond the scope of our individual choices. We're unhappy with how things are going with unthinking growth that polarizes our world and condenses wealth at the top, but we don't know what to do. Romhardt argues that individuals who wield a sharp Buddhist mindset can in fact create change through personal decisions when we can see in to society and in to our constructs, we become empowered to choose deeply real and purposeful lives.

**CONFLUENCES: Intercultural Journeying in Research and Teaching** David Geoffrey Smith, 2020-03-01 In this book Canadian scholar David Geoffrey Smith reflects on over thirty years of research and teaching in the human sciences including education. Written between 1986 and 2018, the essays are organized around four themes: Hermeneutics and the Human Sciences, The Poststructuralist Turn, Globalization and Its Discontents, East West Encounters, and the Search for Wisdom. As a historical guide through the defining discourses in the human sciences, this volume could well serve as an introductory text for graduate students in education and other cognate disciplines like nursing, recreation, and cultural studies. The writing can be described as a form of meditative praxis while the emphasis on interculturality addresses issues in literacy, pedagogy, politics, critical thinking, teacher education, and cultural healing from a geopolitical perspective, drawing on insights from both Western and Eastern traditions and the author's personal experience of being born in China and raised in Central Africa, Northern Rhodesia, Zambia. Praise for CONFLUENCES: Careful study of the essays in this collection has been an inspiration, primarily because of Professor David Geoffrey Smith's deep commitments to the organic interpretability of life and living in the interests of generativity, hope, and good faith. In curricular and pedagogical terms, these commitments arise from sustained study of the various inheritances, philosophical and otherwise, that circulate around deliberations concerning children, education, and knowledge, deemed of most value. As an Indigenous scholar and someone committed to uncovering the unnamed colonial logics that continue to govern and structure formal education, I find especially helpful Professor Smith's untangling of the roots of the Euro-American power nexus and its ongoing difficulties in creatively engaging traditions outside of its own self-determinations. As Professor Smith teaches through this work, it is in the

careful hermeneutic practice of tracing out the lineages of the past and revealing their potential for openness in the present that the possibility of saying something hopeful about the future emerges

Dwayne Donald Ph D Associate Professor Curriculum Studies and Indigenous Wisdom Traditions Department of Secondary Education University of Alberta Canada

Now and then a clear and authentic voice emerges from the surrounding cacophony as the machinery of the education establishment relentlessly grinds away a voice of conscience and wisdom rising above the babble of technocratic bureaucratic ideological and market driven survivalism that permeates educational discourse today I recognize such a voice in this newest book by Canadian educator Professor David Geoffrey Smith Smith's reading the world to use Paulo Freire's expression is particularly helpful to us in today's world teeter tottering between denial and panic I firmly believe that any hope for sanity in our time rests in our collectively and individually investigating how we have gotten ourselves into this current material and existential predicament Smith's investigation shows an incredible intellectual depth of understanding gained through plumbing Western and Eastern philosophical traditions in an intercultural life journey on three continents through forty years of teaching and research I delight in hearing his voice of wisdom that insists for instance that the nature of reality cannot be reduced to any human construct scientific or otherwise and that we must die into a new human freedom found in the joy of a new shared reality Ultimately his is a voice of unwavering hopefulness and a gaze that courageously faces a challenging world I value his work more than any others in the contemporary curriculum theory field

Heesoon Bai Professor Philosophy of Education Simon Fraser University Canada

**Teaching as the Practice of Wisdom** David Smith, 2014-05-22

In the spirit of Paulo Freire this inspiring book deconstructs many of the gods that define contemporary life then offers hope through sources of traditional wisdom It addresses important contemporary discourses in the political and social sciences in ways that are relevant to the personal and professional lives of teachers at all levels of educational practice David G Smith discusses the impacts on teachers' lives of neoconservatism neoliberalism the New Marxism the emerging paradigm of Deep Politics global Wisdom traditions and more and he reveals how teachers can creatively stand with or against these streams of influence By clearly relating larger theoretical discussions in the social sciences to the policies and practices of teaching Smith builds upon Freire's legacy He also reaches beyond debates in Western scholarship and accesses new theory from the global South from Buddhist and NeoConfucian traditions as well as the new African Renaissance stream known as Unhu Ubuntu This is a powerful work of educational theory and philosophy that contains useful advice for educators wishing to push back against conformity
