Mythic Life:

Fields of Dreams Jean Houston, 1996 In *A Mythic Life* Jean Houston shows how we can discover the mythic elements in our lives and explains how our mythology fits into the emerging global consciousness Drawing from her own life experiences as well as from the astounding wealth of cultural knowledge she has acquired while working with indigenous peoples all over the world Houston shows how the mythic patterns that underlie each of our lives are repeated again and again across cultures and across time like the patterns that emerge from the seeming chaos in fractal images Houston uses the story of her life to explain how our recent history is a story of convergence Thanks to the communications revolution everything the human race has ever done or thought is suddenly becoming available to each of us And out of this wealth of cultural knowledge a new mythology is being born a mythology that will change the world as it embraces the mythic elements in each of our lives

The Art of Life Mutlu Konuk Blasing, 2014-06-23 Autobiographical literature especially reveals the processes by which writers convert their own historical experience into fictional form and suggests how literary forms function in life This volume defines an original theory of autobiographical writing and provides intriguing analyses of major American works of literature *The Art of Life* examines the transformation of history into literature in *Walden* *Song of Myself* Henry James's Prefaces *The Education of Henry Adams* Paterson and the poetry of Frank O'Hara These works are approached as events in themselves and are analyzed as conversions of form and history fiction and fact and even aesthetics and politics Thus the work of literature is set in the total experience of living and the writer is seen not only as an artist but also as a person in a historical political and cultural environment As well as a creator of literature the writer is viewed as a social psychological and biological being Chapters on the narcissistic economy of *Walden* the mythicizing of history and personality in *Song of Myself* the self-conscious relation that makes the Prefaces of Henry James the autobiography of an artist the comic perspective of *The Education of Henry Adams* and the radical innovation of Paterson and O'Hara's poetry provide new readings of major American works Each chapter contains some distinct critical insight which not only contributes to but can be relished apart from the book's overarching theoretical argument *The Art of Life* is a sophisticated theoretical discussion of autobiography with rich psychological philosophical and cultural ramifications

The Sports Immortals Peter Williams, 1994 Explores the psychology of hero worship in sports covering the period from the late 19th century to the present Offers an overview of the classic theorists and demonstrates how the public creates heroes and villains in the same way the Greeks created archetypal deities Topics include the archetypes of human myth localized sports archetypes origins of the baseball myth the archetypes of baseball and the sports press Paper edition unseen 17 95 Annotation copyright by Book News Inc Portland OR

Living Your Unlived Life Robert A. Johnson, Jerry M. Ruhl, 2007 The esteemed Jungian psychologist counsels on how to cope with feelings of failure or regret in the latter half of life and how to open to a more meaningful existence even if outer circumstances cannot be changed

Relentless Love Edwin Carl Smith, 2004 Ed Smith defines

enchantment as that place where our life and our deepest dreams merge and he maintains that it is our true nature In Relentless Love he proposes that we can live lives of enchantment through the practice of relentless love He inspires us to create a world based on our intention to love and our faith in life and contends that evolution is propelling us to do so He defines evolution as events you do not like that converge to create a possibility you could not anticipate This is an original lucid voice with something very compelling and vital to say that can change all of our lives **Health of the Human Spirit**

Brian Luke Seaward,2012-02-15 [The Soul of Place](#) Michael Jones,2014-07-08 In The Soul of Place Michael Jones explores how our relationship with place aligns us with the underlying patterns of life He does so through stories that ask what is our experience of homecoming and how do we find our way there What is our pattern of belonging including our relationship with people and places that we hold sacred What are the conditions of regenerativity and craft that enable us to give birth to something new How can our stewardship of what is alive within and around us awaken the mythic imagination And how does this open a path for gathering together in a spirit of transformative celebration **Towards the Critique of Violence**

Brendan Moran,Carlo Salzani,2015-08-27 In the past two and a half decades Walter Benjamin s early essay Towards the Critique of Violence 1921 has taken a central place in politico philosophic debates The complexity and perhaps even the occasional obscurity of Benjamin s text have undoubtedly contributed to the diversity conflict and richness of contemporary readings Interest has heightened following the attention that philosophers such as Jacques Derrida and Giorgio Agamben have devoted to it Agamben s own interest started early in his career with his 1970 essay On the Limits of Violence and Benjamin s essay continues to be a fundamental reference in Agamben s work Written by internationally recognized scholars Towards the Critique of Violence is the first book to explore politico philosophic implications of Benjamin s Critique of Violence and correlative implications of Benjamin s resonance in Agamben s writings Topics of this collection include mythic violence the techniques of non violent conflict resolution ambiguity destiny or fate decision and nature and the relation between justice and thinking The volume explores Agamben s usage of certain Benjaminian themes such as Judaism and law bare life sacrifice and Kantian experience culminating with the English translation of Agamben s On the Limits of Violence

Pieces of Resistance Eugene Goodheart,1987 Pieces of Resistance is a 1988 collection of Eugene Goodheart s essays and reviews written between 1960 and 1985 The book responds to the political cultural and literary changes expressed during this period by novelists critics and journalists Goodheart s book is divided into three parts The first section discusses critics Trilling Rahv Leslie Fiedler Geoffrey Hartman David Bleich and Susan Sontag to name a few The second part devotes itself to contemporary culture and includes essays on journals such as The New York Review of Books Commentary and The Evergreen Review which in the 1960s and early 1970s provided a well lit playground for various political cultural and literary themes Finally Goodheart examines the work of many modern writers with essays on Isaac Bashevis Singer Daniel Fuchs Ralph Ellison Nadine Gordimer V S Naipaul Bernard Malamud William Styron Donald Barthelme Raymond Carver and Saul

Bellow Goodheart does not pretend to impersonal objectivity his commitment to evaluative criticism is a deliberate response to increasingly specialized forms of criticism **Recurring Dream Symbols** Kathleen Sullivan,2004 Do you ever wonder why your dreams often contain recurring symbol or themes Have you been haunted by recurring dreams of being chased being naked in public or having your teeth fall out Based on her work with dreamers analyzing their own recurring dream symbols Kathleen Sullivan explains that working recurrent dreams as a series is the key to unleashing the healing force of these symbols Fourteen dreamers participate in the study illustrating the process of uncovering the profound meaning within each recurring symbol These are transformational stories of dreamers engaging their own recurring symbols leading to a new wholeness and deep level of growth and understanding
