The questions are straightforward multiple-choice questions with four choices and one best answer. Part I of this book contains the ten sample exams with a total of 1,250 questions. Each 125-question practice test is followed by the answer key. After the answer key, each practice exam is repeated with the answers shown and the formulas for the math questions. Part II of this book has a study guide in outline form. There is a section for each topic covered on the Series 7 exam, including regulatory requirements, customer's profile, customer accounts, business conduct, orders and transactions, ethics, the primary marketplace, the secondary market, economics, analysis, equity, securities, debt, securities, packaged securities, options, retirement plans, and savings accounts. The study outline includes details on the math formulas needed for the test. The study outline is based on the exam syllabus and contains the information on the required knowledge areas that could most likely be asked in the form of a multiple-choice question. **Series 7, General Securities Representative Exam**, 2005. **Pass the 63** Robert Mark Walker, 2004.
