the era of bold plans but unfulfilled aspirations in Indonesian public health Based on extensive archival research and a close reading of Indonesian primary sources this book provides a nuanced account of the inner tensions in Indonesian public health during the twentieth century between a narrow biomedical approach that emphasised disease eradication and a holistic approach that linked public health to practical concerns of nation building **Native on the Net** Kyra Landzelius, 2004-11 The Internet is increasingly being used by marginalized ethnic groups to create a form of community and unified political voice This book explores the lives and agendas of these web users and the political effects of their online activity *Native Nations* Nancy Bonvillain, 2024-03-27 Combining historical background with discussion of contemporary Native nations and their living cultures this comprehensive text introduces students to the many Indigenous peoples in North America Organized by region to highlight cultural practices each part covers the topography climate and natural resources in the area and describes the range of cultural practices and beliefs among groups Subsequent tribe specific chapters are devoted to different Native communities addressing both their history and contemporary lives New to the Third Edition New Chapter 26 Contemporary Challenges explores the issues facing Native communities today including environmental crises voting rights residential school investigations New Chapter 27 The Arts Pop Culture and Representation examines contemporary Indigenous writers musicians and film makers as well as the challenges Indigenous peoples face with misrepresentation Fully revised art program with a wealth of images and maps explores different Native cultures Updated statistics on social and economic data as well as demographic profiles
