pioneers and entrepreneurs alike arrived in Kansas City with a thirst for progress and beer. Breweries both small and mighty seized opportunity in a climate of ceaseless social change and fierce regional competition. Muehlebach Brewing Company commanded the market operating in Kansas City for more than eighty years. Built in 1902, the iconic brick warehouse of Imperial Brewing still stands today. Prohibition made times tough for brewers and citizens in the Paris of the Plains, but political boss Tom Pendergast kept the taps running. In 1989, Boulevard Brewing kicked off the local craft beer renaissance, and a bevy of breweries soon formed a flourishing community. Food and beer writer Pete Dulin explores Kansas City's hop-infused history and more than sixty breweries from the frontier era to the twenty-first century. **Rock 'n' Roll High**

School, 2009 **The American Mercury** Henry Louis Mencken, 1928 **American Indian Constitutional Reform and the Rebuilding of Native Nations** Eric D. Lemont, 2009-08-17 Since 1975, when the U.S. government adopted a policy of self-determination for American Indian nations, a large number of the 562 federally recognized nations have seized the opportunity to govern themselves and determine their own economic, political, and cultural futures. As a first and crucial step in this process, many nations are revising constitutions originally developed by the U.S. government to create governmental structures more attuned to native people's unique cultural and political values. These new constitutions and the governing institutions they create are fostering greater governmental stability and accountability, increasing citizen support of government, and providing a firmer foundation for economic and political development. This book brings together for the first time the writings of tribal reform leaders, academics, and legal practitioners to offer a comprehensive overview of American Indian nations' constitutional reform processes and the rebuilding of native nations. The book is organized in three sections. The first part investigates the historical, cultural, economic, and political motivations behind American Indian nations' recent reform efforts. The second part examines the most significant areas of reform, including criteria for tribal membership, citizenship, and the reform of governmental institutions. The book concludes with a discussion of how American Indian nations are navigating the process of reform, including overcoming the politics of reform, maximizing citizen participation, and developing short-term and long-term programs of civic education.
