Organizational Life Learning To Be Self Directed

Julia Sloan

Organizational Life Learning To Be Self Directed:

Organizational Life Edward Cell, 1998 Many managers learn to harden their hearts and to act against their integrity under the pressures of organizational life They find themselves treated more as means than as persons and learn to treat others in this way In *Organizational Life* Edward Cell endeavors to help managers understand their actions more fully and to determine how they can best learn to be more true to themselves in their work without unduly handicapping their chances for vocational success Cell's observations are grounded in a perspective on human nature that draws from humanism symbolic interactionism and existentialism *Organizational Life* will be of great interest to those who are concerned about the alienating aspects of their own organizational life as well as to those who anticipate facing these conditions in the future

Creating Sustainable Work Systems Peter Docherty, Jan Forslin, Abraham B. Shani, 2002 Considers how the balance between intensive and sustainable work can be achieved by looking at existing possibilities and emerging solutions exploring some alternatives to intensive work systems

Creating Sustainable Work Systems Jan Forslin, Peter Docherty, A.B. (Rami) Shani, 2005-07-05 Current trends reveal that increasing intensity at work has major consequences at individual organizational and societal levels New organizational approaches to work are needed so the balance between intensive and sustainable work can be achieved yet there are no guiding models theories or examples on how this can be done In exploring the development of sustainable work systems this book analyzes these problems and provides the basis for designing and implementing sustainable work systems based on the idea of regeneration and the development of human and social resources Shedding light on the emerging work systems this book describes existing problems and paradoxes The researchers from various academic disciplines and institutions in the US and Europe consider the existing possibilities and emerging solutions and explore alternatives to intensive work systems
