Personal Property Law Sarah Worthington, 2000-08 This casebook covers the philosophy and concepts of personal property law and the impact of evolving business practices on the development of the law **The Principles of Personal Property Law** Duncan Sheehan, 2017-05-18 The law of personal property covers a very wide spectrum of scenarios and unfortunately has had little detailed scrutiny of its overarching structure over the years It is a system and can best be understood as a system Indeed without understanding it as a system it becomes much more difficult to comprehend The second edition of this acclaimed textbook continues to provide a comprehensive yet detailed coverage of the law of personal property in England and Wales It includes transfer of legal title to chattels the nemo dat rule negotiable instruments and assignment of choses in action It also looks at defective transfers of property and the resulting proprietary claims including those contingent on tracing the tort of conversion bailment and security interests By bringing together areas often scattered throughout company law commercial law trusts and tort textbooks it enables readers to see common themes and issues and to make otherwise impossible generalisations across different contexts about the nature of the concepts English law applies Throughout the book concepts are explained rigorously with reference to how they are used in commercial practice and everyday life The new edition also includes a new chapter on secured transactions law reform and introduces new material on the Cape Town Convention IP rights and other intangible property The book will be of primary interest to academics and practitioners in the area However it will also be of use to students studying commercial or personal property law

Property and Trust Law in England and Wales Peter Sparkes, 2019-05-15 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of the law of property in England and Wales deals with the issues related to rights and interests in all kinds of property and assets immovable movable and personal property how property rights are acquired fiduciary mechanisms and security considerations Lawyers who handle transnational disputes and other matters concerning property will appreciate the explanation of specific terminology application and procedure An introduction outlining the essential legal cultural and historical considerations affecting property is followed by a discussion of the various types of property Further analysis describes how and to what extent legal subjects can have or obtain rights and interests in each type The coverage includes tangible and intangible property varying degrees of interest and the various ways in which property is transferred including the ramifications of appropriation expropriation and insolvency Facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance The book includes ample references to doctrine and cases as well as to relevant international treaties and conventions Its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable time saving tool for any practitioner faced with a property related matter Lawyers representing parties with interests in England and Wales will welcome this very useful guide and academics and researchers will appreciate its

value in the study of comparative property law **Property Law in Hong Kong** Stephen D. Mau, 2014-03-11 This book focuses on the rules regulating property and conveyancing which apply in the territory and is intended for use by the non lawyer The organizational structure and concise text reflect this goal For readers desiring additional information an extensive notes section provides more comprehensive and detailed explanations as well as Chinese translations of key legal terms As a survey this text is appropriate for students of law non law professionals who need an overview of the subject and general readers **Boundaries of Personal Property** Arianna Pretto-Sakmann, 2005-08-15 This study of the boundaries of personal property has an inward and an outward perspective with the intellectual emphasis on the latter The inward looking inquiry considers shares as items of personal property Nowadays those who think of themselves as shareholders often stand one step removed from the share itself They hold what this book christens a sub share This part of the book asks in what sense shares and sub shares can be conceived to be things how those things are alienated and how they are protected in litigation The outward looking inquiry then asks whether personal property can be contemplated as a sub category of the law of things and more particularly as the law of all things locatable in space alienable or vindicable in court The outward inquiry considers three boundaries Within the law of property the line between realty and personalty proves relatively uncontroversial the second boundary lies between property and obligations the third between wealth and non wealth The second boundary is the main concern Respect for it necessitates a differentiation between the law of property in the strict sense and the all encompassing law of wealth even where the consequence might be to exclude shares and sub shares from the law of property In maintaining the value of careful proprietary taxonomy and in reviving the underlying concepts on which it depends this book opposes modern scepticism as to the possibility and desirability of precision in legal classification In these commitments it could fairly be styled a post modern study of personal property Winner of the SLS Birks Prize for Outstanding Legal Scholarship 2006 Second Prize , Commercial Law Eric Baskind, Greg Osborne, Lee Roach, 2016 Commercial Law offers a fresh and stimulating account of the subject thereby helping students better understand this important area of law It provides thorough coverage of all key aspects of the syllabus including the law of agency the sale of goods international trade methods of payment finance and security *Environmental Law: Text, Cases & Materials* Elizabeth Fisher, Bettina Lange, Eloise Scotford, 2013-04-25 This new title offers a compact and complete resource for students featuring extracts from leading cases and articles alongside clear explanations and insightful analysis from an experienced author team This unique approach places environmental law in context enabling you to develop a clear and sophisticated understanding of this dynamic area **Foundations of Property Law** Christian von Bar, Jason Grant Allen, 2023 An abridged translation of Christian von Bar's *Gemeineuropäisches Sachenrecht I* this book outlines the conceptual framework of property law as a domain of erga omnes monopoly rights In this book the dynamics of interaction between the objects contents and holders of property are examined in a comprehensive analysis **Commercial Law** Le
