## **Rock A Tale Of Seventh Century Jerusalem:**

The Rock Kanan Makiya, 2002-08-27 The Rock of Jerusalem is one of the world's most spiritually resonant and politically contentious sites where Adam first stepped upon leaving Paradise Abraham attempted to sacrifice Isaac Jesus preached and Muhammad began his night journey to heaven Sorting through the rubble of the three competing faiths Kanan Makiya has woven a vivid tapestry from centuries of legend and belief to imagine the origins of Islam's first monument the Dome of the Rock A narrative of mythic power The Rock offers a grand tour of seventh century Jerusalem and by reminding us of how much Jews and Muslims once shared serves as a bracing talisman for our times The Rock Brandeis University.

**Figuring Jerusalem** Sidra DeKoven Ezrahi, 2022-04-22 Figuring Jerusalem explores how Hebrew writers have imagined Jerusalem both from the distance of exile and from within its sacred walls For two thousand years Hebrew writers used their exile from the Holy Land as a license for invention The question at the heart of Figuring Jerusalem is this how did these writers bring their imagination home in the Zionist century Sidra DeKoven Ezrahi finds that the same diasporic conventions that Hebrew writers practiced in exile were maintained throughout the first half of the twentieth century And even after 1948 when the state of Israel was founded but East Jerusalem and its holy sites remained under Arab control Jerusalem continued to figure in the Hebrew imagination as mediated space It was only in the aftermath of the Six Day War that the temptations and dilemmas of proximity to the sacred would become acute in every area of Hebrew politics and culture Figuring Jerusalem ranges from classical texts biblical and medieval to the post 1967 writings of S Y Agnon and Yehuda Amichai Ultimately DeKoven Ezrahi shows that the wisdom Jews acquired through two thousand years of exile as inscribed in their literary imagination must be rediscovered if the diverse inhabitants of Jerusalem are to coexist God's Crucible: Islam and the Making of Europe, 570-1215 David Levering Lewis, 2009-01-12 From the two time Pulitzer Prize winning author God's Crucible brings to life a furiously complex age New York Times Book Review Resonating as profoundly today as

**The Ten Lost Tribes** Zvi Ben-Dor Benite, 2009-09-04 The legendary story of the ten lost tribes of Israel has resonated among both Jews and Christians down through the centuries the compelling idea that some core group of humanity was lost and exiled to a secret place perhaps someday to return triumphant In *The Ten Lost Tribes* Zvi Ben Dor Benite shows for the first time the extent to which the search for the lost tribes of Israel became over two millennia an engine for global exploration and a key mechanism for understanding the world As the book reveals the quest for the missing tribes and the fervent belief that their restitution marked a necessary step toward global redemption have been threaded through countless historical moments from the formation of the first world empires to the age of discovery and from the spread of European imperialism to the rise of modern day evangelical apocalypticism More than a historical survey of an enduring myth *The Ten Lost Tribes* offers a unique prism through which to view the many facets of encounters between cultures the processes of colonization and the growth of geographical knowledge

Controlling the Past, Owning the Future Ran Boytner, Lynn Swartz Dodd, Bradley J. Parker, 2010-12-15 What are the political uses and misuses of archaeology in the Middle East In answering this question the contributors to this volume lend their regional expertise to a variety of case studies including the Taliban's destruction of Buddhas in Afghanistan the commercialization of archaeology in Israel the training of Egyptian archaeology inspectors and the debate over Turkish identity sparked by the film *Troy* among other provocative subjects Other chapters question the ethical justifications of archaeology in places that have alternative engagements with the material past In the process they form various views of the role of the archaeologist from steward of the historical record to agent of social change The diverse contributions to this volume share a common framework in which the political use of the past is viewed as a process of social discourse According to this model political appropriations are seen as acts of social communication designed to accrue benefits to particular groups Thus the contributors pay special attention to competing social visions and the filters these impose on archaeological data But they are also attentive to the potential consequences of their own work Indeed as the editors remind us people's lives may be affected sometimes dramatically because of the material remains that surround them Rounding out this important volume are critiques by two top scholars who summarize and synthesize the preceding chapters
