## **Rogue Regimes:**

**Rogue Regimes** Raymond Tanter, 1999-02-15 Explores U S foreign policy with regard to nations such as Iran Iraq Syria and Libya uncovering the reasons why these countries are so menacing to the United States All Possible Wars? Sam J. Tangredi, 2000 This survey is a product of the Quadrennial Defense Review QDR 2001 Working Group a project of the Institute for National Strategic Studies at the National Defense University Sponsored by the Chairman of the Joint Chiefs of Staff the working group is an independent honest broker effort intended to build intellectual capital for the upcoming QDR More specifically it aims to frame issues develop options and provide insights for the Chairman the services and the next administration in three areas defense strategy criteria for sizing conventional forces and force structure for 2005 2010 One of the group s initial tasks was to assess the future security environment to the year 2025 This was pursued by surveying the available literature to identify areas of consensus and debate The goal was to conduct an assessment that would be far more comprehensive than any single research project or group effort could possibly produce This survey documents major areas of agreement and disagreement across a range of studies completed since the last QDR in 1997 Because it distills a variety of sources and organizes and compares divergent views this volume makes a unique contribution to the literature It also provides a particularly strong set of insights and assumptions on which both strategists and force planners can draw in the next Quadrennial Defense Review This survey does not claim to predict or illustrate all possible wars that America might face between now and the year 2025 Rather it attempts through analysis of representative and reputable sources to incorporate the most likely characteristics of the future security environment into a single scenario while heightening our awareness of dissenting viewpoints and plausible wild cards *Regime Change* Robert Litwak, 2007-01-30 The 9 11 terrorist attacks starkly recast the U S debate on rogue states In this new era of vulnerability should the United States counter the dangers of weapons proliferation and state sponsored terrorism by toppling regimes or by promoting change in the threatening behavior of their leaders *Regime Change* examines the contrasting precedents set with Iraq and Libya and provides incisive analysis of the pressing crises with North Korea and Iran A successor to the author s influential *Rogue States and U S Foreign Policy* 2000 this compelling book clarifies and critiques the terms in which today s vital foreign policy and security debate is being conducted *Multidimensional Diplomacy of Contemporary China* Jean-Marc F. Blanchard, Simon Shen, 2012-07-10 Since the end of the Cold War the new Chinese leadership generation has had to promulgate new guiding principles for handling global diplomacy which acknowledges China s new position Given the dramatic changes in the international system and its domestic economic success for the growing China s rise idea on the global stage China in the 21st century faces a mixture of old and new challenges including terrorism hegemonism and authoritarianism While Deng Xiaoping combined Taoism an ancient Chinese philosophy into Taoist diplomacy in response to the hostile international position after the Tiananmen Incident China s foreign policy keeps changing and the multidimensional diplomacy adopted by China can be seen as a

consistent theme in Chinese foreign policy in the 21st century Multidimensional Diplomacy of Contemporary China attempts to examine the origins guiding principles and sequential outcomes of China's multidimensional diplomacy in the 21st century working under the flag of peaceful development harmonious international order and global responsibility The contributions are grouped into three sections The first discusses the theoretical foundations of multidimensional diplomacy The second section turns the analytical focus to China's immediate neighbors in East Asia and at last the book will go beyond the immediate neighborhood of China to the global community These essays explore China's dealings with the countries of Africa the Gulf and the South Pacific and provide other in depth analyses on China's foreign policy towards Pakistan Russia and Japan This book seeks to significantly shape the knowledge and thinking about China's global interactions in the 21st century

Ordering Anarchy Rein Müllerson, 2021-10-01 The end of the Cold War has released some hitherto suppressed trends in international society that are reshaping international order such as globalization and its nemesis fragmentation This volume analyzes the current transformation of the character of the state as the principal actor of international society and related changes in the structure of international society International law especially its fundamental principles such as sovereign equality of states non use of force non interference respect for human rights and self determination of peoples reflect some basic characteristics of the state and the structure of international society Because of significant changes going on in the latter many crucial principles of international law have ceased to reflect the reality Moreover fundamental principles often come into conflict with each other since they reflect main characteristics of different international societies Westphalian and post Westphalian

Terrorists in Our Midst Yonah Alexander, 2010-04-09 This unique work analyzes for the first time how foreign affinity terrorism works in a major democratic nation like the United States and what this country must do to survive the terror challenge on both conventional and unconventional levels To date no definitive study has dealt specifically with the role of American citizens in supporting a foreign political ideological and religious illegal agenda Terrorists in Our Midst Combating Foreign Affinity Terrorism in America remedies that as six expert authors discuss the threats of Americans to security interests in the United States and elsewhere exploring what can and should be done to reduce a risk that may threaten the very survival of the free world Terrorists in Our Midst focuses not only on foreign nationals operating in the United States but also on American citizens participating in terror networks at home and abroad The book presents an overview of both conventional and unconventional terrorism surveys the terrorist threat in the United States by state and nonstate actors and analyzes the foreign affinity links of American operatives in this country and abroad Most important for the safety and security of the United States it offers an assessment of what policies worked and what did not work specifying a best practices agenda of recommendations that should be adopted by the United States and the international community

**Threat of Ballistic Missiles in the Middle East** Arie Stav, 2004-06-01 This addresses the complex issue of defence against ballistic missiles by intercepting them at various stages of their trajectory The book poses both technical and

conceptual questions regarding the issue of missile to missile interception and other options      **Nuclear Transformation** J. Wirtz, J. Larsen, 2016-04-30 As part of its general rethinking of America's global strategy the Bush Administration initiated a re-examination of America's nuclear doctrine that has generated considerable controversy with its focus on maintaining a reliance on nuclear weapons and potentially increasing willingness to use them Here a group of leading strategic analysts examine the background to the re-evaluation issues of implementation and potential implications internationally

**Resistance and Change in World Politics** Svenja Gertheiss, Stefanie Herr, Klaus Dieter Wolf, Carmen Wunderlich, 2017-03-07 This edited volume analyses different forms of resistance against international institutions and charts their success or failure in changing the normative orders embodied in these institutions Non-state groups and specific states alike advocate alternative global politics at the same time finding themselves demonized as pariahs and outlaws who disturb established systems of governance However over time some of these actors not only manage to shake off such allegations but even find their normative convictions accepted by international institutions This book develops an innovative conceptual framework to understand and explain these processes using seven case studies in diverse policy fields including international security health migration religion and internet politics This framework demonstrates the importance of coalition building and strategic framing in order to form a successful resistance and bring change in world politics      *Weapons of Mass Destruction* E. Spiers, 2000-02-24 The proliferation of weapons of mass destruction has continued to give cause for concern even after the end of the Cold War This book analyses how the prospects for proliferation have changed since the 1990s particularly in light of the Gulf War and the UN inspections of Iraq It will examine the new pattern of incentives and disincentives for proliferation the utility of these weapons at state and sub-state levels and their implications for arms control and international security      Biological Warfare and Disarmament Susan Wright, 2002 This book proposes fresh approaches and concrete proposals to overcome one of the most intractable security problems of the twenty-first century Visit our website for sample chapters      **Terror by Consent** Lori J. Underwood, 2007 Terror by Consent is an analysis of social contract theory as it is applied to problems in the modern world including poverty terrorism ideological warfare and political cynicism The initial chapters of this book summarize and critique major social contract theories including those of Hobbes Locke Rousseau Kant and Rawls Subsequent chapters address modern political issues such as governmental legitimacy allocation of scarce resources ideological crises and the rise of terrorism      Democratic Wars A. Geis, L. Brock, H. Mueller, 2006-02-28 The book turns the democratic peace theme on its head rather than investigating the reasons for the supposed pacifism of democracies it looks for the causes of their militancy In order to solve this puzzle the authors look across International Relations political theory political philosophy and sociology      *The Future of Christian Realism* Dallas Gingles, Joshua Mauldin, Rebekah L. Miles, 2023-04-15 In the world's most developed democracies anxiety about the future of democracy is palpable The tension between moral aspiration and moral despair has reached a point of crisis Christian

realism arose during a similar time of crisis when Reinhold Niebuhr used the insights of the Christian tradition to interpret the clash between democracy and totalitarianism Beginning with Robin Lovin s account of Christian realism as a nuanced blend of theological moral and political realisms *The Future of Christian Realism* addresses fundamental topics in theology ethics and politics The contributors come from different traditions span five continents and together present a case for the continuing relevance of Christian realism By paying close attention to many of the most pressing moral challenges facing societies today the authors illustrate and evaluate the enduring relevance of Christian realism *The Price of Peace* Charles Reed,David Ryall,2007-02-15 Lively political and public debates on war and morality have been a feature of the post Cold War world *The Price of Peace* argues that a re examination of the just war tradition is therefore required The authors suggest that despite fluctuations and transformations in international politics the just war tradition continues to be relevant However they argue that it needs to be reworked to respond to the new challenges to international security represented by the end of the Cold War and the impact of terrorism With an interdisciplinary and transatlantic approach this volume provides a dialogue between theological political military and public actors By articulating what a reconstituted just war tradition might mean in practice it also aims to assist policy makers and citizens in dealing with the ethical dilemmas of war *Theater Missile Defense (TMD) in East Asia* Lars Assmann,2007 As East Asia is entering the 21st Century Japan in reassessing its security environment and thus its strategic calculus is on the verge of deploying latest jointly researched theater missile defenses TMD to counter the threat of ballistic and cruise missiles In parallel the People s Republic of China is constantly modernizing its ballistic missile forces and is gearing up for a possible contingency with its self proclaimed high tech adversaries This work shows what drives Japan to deploy theater missile defenses and how the People s Republic of China is poised to be reacting to it **The Air Force Law Review** ,2016 *North Korea and Northeast Asia* Samuel S. Kim,Tai Hwan Lee,2002 North Korea s regime has managed to survive in the face of serious internal and external challenges Kim political science Columbia U US and Lee foreign policy and security studies Sejong Institute South Korea present eight essays that address North Korea s system survival strategies in the context of these challenges from a variety of theoretical perspectives including asymmetrical conflict theory mercantile neorealism and prospect theory The papers are organized into three sections that explore the broad theoretical and practical aspects of North Korean Northeast Asian relations Japan Russia South Korea and the United States are the Northeast Asian powers for the purposes of this discussion the global regional and national forces that have shaped patterns of conflict and cooperation with the Northeast Asian powers and the effects of the security and economic domains on system survival strategies Annotation copyrighted by Book News Inc Portland OR *The Evolving U.S. Nuclear Narrative* Rebecca K.C. Hersman,Clark Murdock,Shanelle Van,2016-10-28 In recent years it has become increasingly clear to many observers that the Department of Defense must better communicate to the officers at the tactical end of the nuclear mission a rationale for nuclear weapons and deterrence the critical role that

they play in the post Cold War strategy of the United States and the value of nuclear weapons to the security of the American people This report tracks the changing conceptual and political landscape of U S nuclear deterrence to illuminate the gap in prioritizing the nuclear arsenal and to build a compelling rationale for tactical personnel explaining the role and value of U S nuclear weapons

**The Shi`i Islamist Regime's Footprints in North America** Majid Mohammadi, 2021-06-29 Exporting the Shi i Islamist revolution to the West and conquering the White House have been inseparable parts of the Iranian regime s agenda since the establishment of the Islamic Republic of Iran in 1979 The IRI officials have not been shy to express their desire for Shi i domination imperialism in the whole world Wherever there is a Shi i community in the world this community is a tool for pressure towards Islamists agenda and a base for militia building for the rulers of the Islamic Republic of Iran

Thank you very much for downloading **Rogue Regimes**. Maybe you have knowledge that, people have look numerous times for their favorite books in the same way as this Rogue Regimes, but stop stirring in harmful downloads.

Rather than enjoying a fine PDF gone a mug of coffee in the afternoon, otherwise they juggled when some harmful virus inside their computer. **Rogue Regimes** is open in our digital library an online admission to it is set as public therefore you can download it instantly. Our digital library saves in fused countries, allowing you to get the most less latency time to download any of our books with this one. Merely said, the Rogue Regimes is universally compatible considering any devices to read.
