

THE NEW DEAL

In this POC, we have a
 class that represents a
 person. It has attributes
 for name, age, and gender.
 We have a constructor
 that takes these values as
 arguments and creates a
 new person object.
 We also have a method
 called `greet` that prints
 out a message.

Rewriting Composition Bruce Horner,2016-02-22 Bruce Horner's Rewriting Composition Terms of Exchange shows how dominant inflections of key terms in composition language labor value evaluation discipline and composition itself reinforce composition's low institutional status and the poor working conditions of many of its instructors and tutors Placing the circulation of these terms in multiple contemporary contexts including globalization world Englishes the diminishing role of labor and the professions the information economy and the privatization of higher education Horner demonstrates ways to challenge debilitating definitions of these terms and to rework them and their relations to one another Each chapter of Rewriting Composition focuses on one key term discussing how limitations set by dominant definitions shape and direct what compositionists do and how they think about their work The first chapter Composition critiques a discourse of composition as lacking and therefore as in need of being either put to an end renamed aligned with other fields or supplemented with work in other disciplines or other forms of composition Rather than seeing composition as something to be abandoned replaced or supplemented Horner suggests ways of productively engaging with the ordinary work of composition whose ostensible lack is assumed in the dominant discourse Subsequent chapters apply this reconsideration to other key terms critiquing dominant conceptions of language and English as stable examining how labor in composition is divorced from the productive force of social relations to which language work contributes rethinking the terms of value by which the labor of composition teachers

administrators and students is measured and questioning the application of conventional definitions of professional academic disciplinarity to composition By exposing limitations in dominant conceptions of the work of composition and by modeling and opening up space for new conceptions of key terms *Rewriting Composition* offers teachers of composition and rhetoric writing scholars and writing program administrators the critical tools necessary for charting the future of composition studies Teaching Adolescent Writers Kelly Gallagher, 2006 Describes strategies for teaching writing to adolescents including teaching the reasons writing is important meeting student needs in learning writing modeling good writing by the teacher using real world models of writing giving students choice writing for authentic real world purposes and assessing student writing Provided by publisher **The Athenaeum** ,1890 The Bookseller and the Stationery Trades' Journal ,1893 Official organ of the book trade of the United Kingdom **The Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1891 **Research in Education** ,1974 **Bookseller and the Stationery Trades' Journal** ,1891 *Journal of Education and School World* ,1888 *The Journal of Education* ,1902 *Educational Times* ,1887 The Publishers' Circular and General Record of British and Foreign Literature ,1889
