Nation Building, State Building, and Economic Development Sarah C.M. Paine,2015-01-28 Why do some countries remain poor and dysfunctional while others thrive and become affluent The expert contributors to this volume seek to identify reasons why prosperity has increased rapidly in some countries but not others by constructing and comparing cases The case studies focus on the processes of nation building state building and economic development in comparably situated countries over the past hundred years Part I considers the colonial legacy of India Algeria the Philippines and Manchuria In Part II the analysis shifts to the anticolonial development strategies of Soviet Russia Ataturk s Turkey Mao s China and Nasser s Egypt Part III is devoted to paired cases in which ostensibly similar environments yielded very different outcomes

Haiti and the Dominican Republic Jordan and Israel the Republic of the Congo and neighboring Gabon North Korea and South Korea and Papua New Guinea and Indonesia All the studies examine the combined constraints and opportunities facing policy makers their policy objectives and the effectiveness of their strategies The concluding chapter distills what these cases can tell us about successful development with findings that do not validate the conventional wisdom **State and**

Development Clark,Lemco,2021-11-01 A new phenomenon in the past several decades has been the steady growth of the role of the state in both political and economic life throughout the developing world This is largely the result of political leaders becoming increasingly involved in economic affairs and thereby using the state apparatus as an instrument to achieve politically defined economic objectives Stronge developmentalist states hence have come to be seen as playing a central role in promoting economic growth and socio cultural change This collection of essays however raises a series of caveats about the idea that strong states promote development by exploring several case studies including Algeria Malaysia South Korea Venezuela and Taiwan **Rethinking Development Economics** Ha-Joon Chang,2003 Impressive provides a very good compendium of what are usually classified as heterodox development economics an excellent volume Journal of International Development This important new collection tackles the failure of neoliberal reform to generate longterm growth and reduce poverty in many developing and transition economies As dramatically demonstrated in the collapse of the WTO s Seattle talks there is increasing dissatisfaction in both developing and developed countries with the emerging neoliberal global economic order The resignations of Joseph Stiglitz and Ravi Kanbur from the World Bank emphasize that this disillusionment with the orthodoxy now exists at the very heart of the establishment Yet the increasing demand for an alternative to this orthodoxy is not being met Over the last few decades the older generation of development economists have been edged out of most major universities particularly in the USA The situation in most developing countries is even worse although there is more demand for alternatives to orthodox development economics these countries have even less capability to generate such alternatives Rethinking Development Economics is intended to fill this gap It addresses key issues in development economics ranging from macroeconomics finance and governance to trade industry agriculture and poverty Bringing together some of the foremost names in the field this comprehensive and timely collection constitutes a critical staging post in the future of development economics **Economic Development Through State Planning** David K.

Hartley,1976 *Developmentalism, Dependency, and the State: Industrial Development and Economic Change in Namibia since 1900* Christopher Hope,2020-09-23 Why does Namibia s economy look the way it does today Was the reliance on raw materials for exports and on the service sector for employment an inevitability And for what reasons has the manufacturing sector the vehicle for economic development for many now high income countries throughout the 19th and 20th centuries seen its growth held back With these questions in mind this book offers an extensive analysis of industrial development and economic change in Namibia since 1900 exploring their causes trajectory vicissitudes context and politics Its focus is

particularly on the motivations behind the economic decisions of the state arguing that power relations both internationally and domestically have held firm a status quo that has resisted efforts towards profound economic change This work is the first in depth economic study covering both the colonial and independence eras of Namibia s history and provides the first history of the country s manufacturing sector
