

APPENDIX 1: THE SPANISH PRONOUN SYSTEM

One of the most complicated aspects of grammar for learners of Spanish is the pronoun system. Subject pronouns, direct object pronouns, indirect object pronouns, reflexives—students very often end up with a “mish mash” of pronouns, trying to use *se* to mean *he*, *me* as a subject pronoun, and so on. The special grammar supplements here are meant to help give students a greater understanding of pronouns than they would have with typical textbook presentations.

I. Subject pronouns

- A. The notion of “subject” is a grammatical notion and refers to the relationship between a noun (boy, John, dogs), or a noun “phrase” (the boy, the happy boy, all of those dogs), and a verb. Generally, the subject answers the question *Who or What VERBs?* or *Who or What is VERBing?* as in *Who or What eats?* *Who or What is looking?*

The man is smiling.

Who is smiling? The man. (So, *the man* = subject.)

The green houses are for sale.

What is for sale? The green houses.

(So, *The green houses* = subject.)

- B. A pronoun refers to a small word that stands in place of a noun or noun phrase, especially when the speakers already know who or what is being talked about. Let’s take the example, *John is a responsible student. He studies every day.* In the second sentence, *he* is a pronoun that stands for *John*, who is already mentioned in the sentence before. Pronouns are used to avoid redundancy. Look how awkward the following would be spoken aloud: *Jaime knows a lot about wines. Jaime drinks them all the time. Jaime lived in Napa and Jaime has also worked in a winery.* We use the subject pronoun *he* to avoid the repetition.

- C. The subject pronouns that stand for other nouns in English are *he*, *she*, *it*, and *they*.

SAMPLE SUBJECTS

John, the boy, the dog, Mr. Smith

Mary, my aunt, the ugly witch

the book, the time, the big white house

John and Mary, the kids, the big dogs

CORRESPONDING SUBJECT PRONOUN

he

she

it

they

We also call *I*, *you*, and *we* subject pronouns because they stand for us. For example, if your name is Bill you don’t say, *Bill went to the store yesterday.* You say, *I went to the store yesterday.* If you are talking to your friend Sally, you don’t say, *Does Sally want to come?* You say, *Do you want to come?* So, in a sense, these pronouns stand for names of people who are involved in the conversation. The entire set of subject pronouns in English then are the following, along with their Spanish equivalents.

I	yo	we	nosotros/as
you	tú	you	vosotros/as
you	usted (Ud.)	you	ustedes (Uds.)
he, she	él, ella	they	ellos/ellas

Role Of Theory In Linguistic Analysis Spanish Pronoun System

Linda R. Waugh, Stephen Rudy

Role Of Theory In Linguistic Analysis Spanish Pronoun System:

The Role of Theory in Linguistic Analysis Erica C. Garcia, 1975 The role of theory in linguistic analysis Erica C. Garcia, 1975 Grammatical Analyses in Basque and Romance Linguistics Jon A. Franco, Alazne Landa, Juan Martín, 1999-09-15 This volume contains fifteen articles on current theoretical issues in Basque and Romance linguistics. Even though Basque and Romance languages are typologically different and have different genetic origins, one thousand years of coexistence have shown certain parallelisms in their respective grammars. It is Mario Saltarelli that first offered a formal linguistic account of phonological and syntactic phenomena that occur in these two language groups. Thus, this compilation of articles in both Basque and Romance linguistics not only pays tribute to Saltarelli's work by acknowledging his formalization of this relational insight but also comprises state-of-the-art research on languages with strong geographical and historical kinship. Fifteen reviewed articles written by sixteen top scholars in the field provide fresh analyses of long-standing challenging phenomena in Romance and Basque linguistics such as geminates, the evolution of Basque plosives, clitic doubling, clitic clustering, directionality of cliticization, the role of agreement, focus, the interaction of voice and aspect, unaccusativity, semantic interpretation, and syntactic structure of Determiner Phrases, obviation, control, and anaphoric and pronominal binding. This variety of topics, however, is unified by limiting the contributions to the four major formal areas of linguistics and to one single framework: Generative Grammar, although in some of its many incarnations such as Minimalism, Optimality Theory, and Relational Grammar. All this, along with the number of languages covered by the authors (Aragonese, Basque, Catalan, French, Galician, Gascon, Italian, and many of its dialects, Ligurian, Piedmontese, Tuscan, Classical and Late Latin, Occitan, Brazilian and European Portuguese, Romanian, Old and Modern Spanish, among others), makes the book of great value to any linguist working in Romance or Basque linguistics.

Language: Communication and Human Behavior Alan Huffman, Joseph Davis, 2011-10-14 William Diver of Columbia University (1921-1995) critiqued the very roots of traditional and contemporary linguistics and founded a school of thought that aims for radical aposteriorism in accounting for the distribution of linguistic forms in authentic text. Grammatical and phonological analyses of Homeric Greek, Classical Latin, and Modern English reveal language to be an instrument whose structure is shaped by its communicative function and by the peculiarly human characteristics of its users. Diver's foundational works, many never before published, appear here newly edited and annotated with introductions by the editors. The volume presents for the first time to a wide audience the depth and originality of Diver's iconoclastic thought.

Papers from the XIIth Linguistic Symposium on Romance Languages Philip Baldi, 1984 This volume contains a selection of papers presented at the XII Linguistic Symposium on Romance Languages (LSRL) held in April 1982 at Penn State University. These papers reflect the general state of the art in Romance Linguistics. Some of the studies are theoretical papers that seek to establish general principles based on the analysis of a Romance language; others apply the principles of a particular theory to the solution of a problem in some Romance language or provide

Colloquium on Romance Linguistics which was held at Groningen University in September 1998. The theme of the colloquium was adverbial modification in Romance languages. Therefore adverbial modification is the common denominator of the works in this volume. However and interestingly enough the viewpoints taken by the various authors differ considerably. Some of the works deal with traditional adverbs. Ocampo, Kampers, Manhe, Bok, Bennema, Molendijk, others with elements such as mood, degree, negation, or negation. Degree modification is discussed by Cover and Doetjes. Modifying clauses are the topic of Le Draoulec's article and modifying nominals play a central role in Schroten's contribution. A special type of modification is the pragmatic one which is represented by Montolio's article. Also various theoretical approaches are represented in this volume such as the generative approach e.g. Kampers, Manhe, Bok, Bennema, formal semantics, Molendijk, De Swart, and functional cognitive linguistics, Ocampo, De Jonge, among other ones. Moreover the languages dealt with are Catalan, French, Rumanian, and Spanish. Thus this volume offers a wide perspective on adverbial modification in Romance languages both from a theoretical point of view as from the point of view of the different languages involved.
