Russia's Visionaries Alexander Burak,2020-11-25 This book examines the latest thinking regarding Russia's present position and its anticipated future by leading Russian philosophers political scientists economists and cultural figures to whom the author refers as visionaries These thinkers position Russia as a global protector of fairness and a safeguard against any single nation's world hegemony Despite Russians abiding tendency to underestimate and undervalue their achievements they are increasingly coming to realize that Russia's historical record is on the whole outstanding The book's 17 chapters including many original translations of spoken discussions argue that Russia has all the prerequisites for and is in fact already well on the way toward becoming a global Noah's Ark of Western civilization Russia Under Putin Andrew

Natsios,2025-07-08 Compelling essays reveal Russia as a declining fragile power that still harbors imperialist ambitions In Russia Under Putin editor Andrew S Natsios brings together an esteemed group of scholars to explore the complex duality of Vladimir Putin's Russia As they track Putin's rise from a former KGB officer to one of the world's most powerful leaders these essays confront an urgent global question Is Russia a declining state on an unstable foundation or is it a dangerous revisionist power The book's contributors reveal how Russia despite internal weaknesses that include a shrinking population corruption and economic dependency on volatile oil revenues has become a well armed state intent on undermining the international order Through an examination of Russia's military invasions of Ukraine its increasing reliance on cyber warfare and its internal suppression of civil liberties the authors argue that Russia's trajectory under Putin is both destabilizing and ominous Putin has tried to increase the size of the population through pronatalist policies that failed and so has resorted to annexing neighboring states like Ukraine as a solution to the demographic emergency Meanwhile Moscow has adopted an extreme right wing ultra nationalist ideology that dominates discourse among the elites As the world watches Russia's aggressive foreign policies unfold Natsios and the book's contributors illustrate how the decline of this nuclear armed state presents profound risks to global stability The essays draw comparisons to past authoritarian regimes while offering a stark warning Even a fragile power can wreak global havoc Engaging timely and thought provoking Russia Under Putin provides a nuanced view of a country whose ambitions will shape the twenty first century for better or worse Contributors Anders slund Alexandra Chinchilla James S Corum Lynn Corum Nicholas Eberstadt Raymond C Finch III Paul Gregory Scott Jasper Todd Lefko Andrew S Natsios Serhii Plokhyy Roger R Reese Raymond Robertson Kathryn Stoner **Russia** ,1918 **Political**

Soviet Russia Today ,1949-05 *Soviet Russia* ,1922 *Soviet Russia Pictorial* ,1924 Ending Today's Chaos And Repairing America Roger Cole,2024-02-02 In our modern American society we find ourselves amidst a disheartening breakdown where chaos prevails The dominance of a few corporations stifles diversity across numerous sectors of our economy Complex and biased laws and tax systems cater to special interests while the upbringing of many children and the quality of education are skewed towards wealthy areas Moreover our online platforms inundate us with fraudulent schemes adding to the societal disarray This thought provoking book offers a fresh perspective on historical change presenting the idea that the Western world has undergone three distinct civilizations the Greco Roman the Medieval and the Enlightenment With the passing of each civilization we have witnessed a gradual deterioration of institutions and the erosion of social consensus Examining the challenges we face today the book delves into the concept of Justice and questions what truly constitutes a fair society It then presents a range of potential improvements to our current institutions serving as a temporary measure until a new civilization emerges Additionally the book explores America s place in the global context and delves into the complexities faced by other civilizations experiencing their own periods of institutional breakdown By offering a critical analysis of our present state and proposing alternative perspectives this book provides a guiding light for navigating the turbulent waters of societal transformation It inspires hope for a future where our institutions can be reimaged fostering a more just and harmonious society **Nation-Building and Common Values in Russia** Pål Kolstø,Helge Blakkisrud,2005-11 Vladimir Putin has explicitly based his nation building initiatives on the assumption that there exists a vast pool of common values in Russia that cut across ethnic and regional divides Nation Building and Common Values in Russia explores whether Putin is correct in his assumption and to what degree a commonality of values among the citizens of a country is a crucial element in the establishment of a common identity among them The study raises two basic questions Which values are actually common among various groups in Russia s population And which nation building strategies are the Russian authorities actually pursuing centrally and locally Sociological and political approaches to the study of nation building and national cohesion in Russia are employed to answer these questions and the findings contribute to a better understanding of nation building processes in post Communist Russia in general and of Putin s strategies in particular

Russia's Imperial Revival David E. McNabb, 2017-07-05 Discerning the early stages of the rebirth of a new Russian empire from the ashes of the Soviet Union Vladimir Putin and Russia's Imperial Revival argues that Russia's recent overtly aggressive actions and foreign policy doctrines have signaled a renewal of the Cold War At the least Russia's actions represent the potential for renewal This book explains these developments in a historical context The book begins by describing Russia's initial policy of rapprochement after the collapse of the Soviet Union and its development into a foreign policy of threatened or actual armed aggression It identifies today's Russia as a nation determined to re-establish itself as a political and military force As a prominent figure in the development and continuation of its current foreign policy Vladimir Putin plays a central role in the topics covered Previous literature often treats Putin as an individual phenomenon examining his connections to corruption or the secret police but here David E McNabb examines him as the latest in a long history of Russian despots who followed similar expansionist policies He details some of the tactics Putin uses to instill fear and dominate political policies of republics newly independent from Russia These tactics include the use of energy as a weapon cyber terrorism and military support for ethnic Russian separatists in other sovereign nations most recently exemplified by Russia's annexation of Crimea from Ukraine via armed invasion In an attempt to demystify Russia's re-emergence as an international political force Vladimir Putin and Russia's Imperial Revival grounds its analyses in history It explores as far back as the establishment of the first Russian empire and regards Putin as a leader determined to establish a fifth imperial incarnation It provides a nuanced understanding of how Russia arrived at its current position through recent and distant internal and international events *Geography of Russia and Its Neighbors, Second Edition* Mikhail S.
