**Sacred Spaces** Margaret Silf, 2013-05 There are many books that explore actual physical sacred space and pilgrimage sites This is a different kind of book It introduces seven traditional sacred spaces but then leads readers into a deeper reflection on what such sacred space means in our own lives and experience The various sacred spaces explored are the Celtic Cross the infinite knot hilltops wells and springs causeways and bridges thresholds and burial grounds and boundaries In each chapter the author introduces a sacred space as the main theme and then illustrates this by associating it with a particular stage of life and a particular sacramental experience The ideas are then brought together by means of a scripture story

Landscape as Sacred Space Steven Lewis, 2005-07-15 Steven Lewis's *Landscape as Sacred Space* Metaphors for the Spiritual Journey invites new discussions about our spiritual journeys and allows seekers to rethink approaches to Christian spirituality and theology in light of postmodernity Landscape metaphors provide a common and accessible language to articulate one's spiritual journey Spiritual mountains deserts and valleys are dominant landscapes on our journey through life Most people have experienced the joy of a mountaintop spiritual experience the pain of spiritual deserts or perhaps the dreariness too often associated with spiritual valleys There is a tendency however to highlight spiritual mountaintops while avoiding spiritual deserts and ignoring spiritual valleys This leaves many Christians ill equipped either to deal with crises or to integrate God into ordinary life Each landscape offers rich lessons that when combined together lead us toward a maturing faith and into a deeper relationship with God *Landscape as Sacred Space* is intended to aid those who search for more meaningful ways to articulate their faith journey The book grants permission to struggle with life's landscapes provides safe spaces to reflect on the journey and introduces language that enables exploration and discovery

*Sacred Space for the Missional Church* William R. McAlpine, 2011-02-14 *Sacred Space for the Missional Church* examines the strong link between the theology and mission of the Church and the spaces in which and from which that theology and mission are lived out The author demonstrates that the built environment is not incidental or even subservient to mission Rather it is a key player in the fulfillment and the communication of that mission The book begins with a working definition of the missional church underscoring the connection between God's mission *missio Dei* and the Church's mission

The reader is presented with historical and theological frameworks for sacred space and reminded of the pivotal role of the built environment in the fulfillment of the mission of the Church. The design and construction of sacred spaces are shown to be fundamentally a theological exercise and not solely a matter of function, pragmatics, and fiscal astuteness. The author questions the uncritical application of blanket statements such as form must follow function and challenges the conviction that it does not matter where worship occurs only that it occurs. The book addresses genuine concerns such as legitimizing the cost of church buildings and concludes with practical suggestions and essential questions that must be considered in posturing the built environment within the missional praxis of the Church.

Teaching Interreligious Encounters Marc A. Pugliese, Alexander Y. Hwang, 2017. *Beloved's Gift* Isaura Barrera, 2016-01-18. Yet one day unexpected and un hoped for the world we had thought irretrievably lost may be returned to us. In a moment of insight a sudden opening of the heart we may glimpse again the mysterious reality we took for granted as children. We may once again experience its wonder and delight.

I Zalewski *Who Is God*. This book tells of the author's unexpected return into that reality believed to be irretrievably lost as childhood was left behind. It was written in real time as each step of that return unfolded its challenges and gifts. Its message of making believing more than making believe is shared for all who remember or hunger to remember and relive that same reality in their own lives that it might inspire them to listen for and live into the love, hope, and faith at its core.

Collage Quest Donna L. Thompson, 2015-11-13. Come voyage through lost roots of the multi dimensional artistry of collage. This seemingly simple method leads you on an adventure of self discovery developing your innate abilities for shapes shifting using paper scissors and glue. Author and artist Donna Thompson shares her wisdom and stories as she leads you on a journey through time. From caves of old to collaging in your own home, this colorful adventure is an in depth exploration of humanity's ancient connections to making art. This triple layered approach is actually three books in one. It begins by guiding you through the mystical Doorway of Color where you learn the Celtic ways of sensing, gathering, and envisioning with images. Next comes the Doorway of Ceremonies where you unearth indigenous ways of communing with collage. And finally the Doorway of Dreams leading to the most ancient ways of remembering who you truly are. Learning to quest with collage is all about playing with colors, signs, and synchronicity. It is also a metaphor for the ongoing journey of each human life. You are invited to come along in search of multi hued elements to weave into an ever unfolding landscape of your own design. *Collage Quest* is a guide for tracing these deep roots and translating them into modern day materials and language.
