Sacred Scriptures of the World Religions Joan Price, 2010-02-17 Price examines religions across the world offering an insight into each tradition s views of the world through their scriptural texts and spiritual practices Sacred Texts of World Religions Edited by: Kisak, 2015-09-01 Religious texts also known as scripture scriptures holy writ or holy books are the texts which various religious traditions consider to be sacred or central to their religious tradition Many religions and spiritual movements believe that their sacred texts are divinely or supernaturally revealed or inspired Attitudes towards sacred texts differ widely between religions Some religions make written texts widely and freely available while others hold that sacred secrets must remain hidden from all but the loyal and the initiate Most religions promulgate policies defining the limits of the sacred texts and controlling or forbidding changes and additions Some religions view their sacred texts as the Word of God often contending that the texts are inspired by God and as such should never be altered Translations of texts may receive official sanction but an original sacred language often has defacto absolute or exclusive authority This book serves as a reference guide that lists the works that the corresponding religions are based upon The World's Wisdom Philip Novak, 2011-10-11 A world Bible for our time from Buddhist Hindu Confucian Taoist Jewish Christian Islamic and primal religion sources In this perfect companion to Huston Smith s bestselling The World s Wisdom Philip Novak distills the most powerful and elegant expressions of the wisdom of humankind Authentic poetic translations of key texts are coupled with insightful introductions and grace notes Sacred Word and Sacred Text Harold G. Coward, 1988 This fascinating study of the world s sacred texts explain how the value of written scripture over the oral aural experience is characteristic on recent Western history Even today it is atypical of how most believers experience scripture Sacred Word and Sacred Text demonstrates how scripture historically has partaken of both the oral and the written traditions and argues that of the two it is the oral world which has the greater power to transform lives from the back cover **Sacred Texts of the World** Ninian

Smart, Richard D. Hecht, 2007 For a contemporary world in which religious belief exercises a more potent some might say more dangerous influence on global events than many would have thought possible a generation ago the nature and interpretation of the core tenets of religious faith has become a matter of compelling and widespread interest both within and outside practising religious communities Each of the 14 chapters of *Sacred Texts* is devoted to one of the principal religious and other belief systems of humanity both defunct and extant The chapters follow a consistent pattern a short and accessible introduction to the faith in question followed by extracts that clearly illustrate its mythic narratives its spiritual and theological doctrines its central moral teachings its rituals and modes of worship and its mystical traditions Accompanying notes make clear the meanings of all the quoted passages Taken together the extracts provide a rounded and coherent picture of each religious tradition *Sacred Texts* covers not only Judaism Christianity Islam Hinduism Buddhism Jainism Taoism Confucianism Shintoism and Sikhism but also small scale traditional religions new religions and secular worldviews such as humanism It is an essential reference for those who wish to understand the nature and continuing appeal of religious belief in a globalised multi faith world Scriptures of the World's Religions James Fieser, John Powers, 2004 This anthology of scriptures from the world's living religions offers selections that vary in length from a few paragraphs to 10 pages accompanied by brief introductions that discuss the nature and scope of scripture within each religion as well as the history of each scripture presented The anthology is also available in two volumes *Scriptures of The East* contains sacred writings of Hinduism Jainism Buddhism Sikhism Confucianism Taoism Shinto and indigenous religions of the East *Scriptures of The West* contains sacred writings of Zoroastrianism Judaism Christianity Islam the Baha'i faith and indigenous religions of the West **Sacred Writings of World Religions** Fernand Comte, 1992 This book provides an insight into the texts of the greatest religions which have provided a basis of faith to millions including writings from wherever man has heard the divine word *World Scripture* Andrew Wilson, 1991 Demonstrating the commonality of the world's religions and our common humanity this rich and varied anthology of scripture offers a highly useful collection of religious quotations passages and excerpts from the holy texts representing a new holistic approach to the world's religions *Anthology of World Scriptures* Robert E. Van Voorst, 1997 This anthology includes the most notable and instructive scriptures of Hinduism Buddhism Jainism Sikhism Confucianism Taoism Shinto Zoroastrianism Judaism Christianity and Islam The context for applying these readings is also provided through a short introduction at the beginning of each chapter Sacred Texts of World Religions Edited by: Kisak, 2015-09-03 Religious texts also known as scripture scriptures holy writ or holy books are the texts which various religious traditions consider to be sacred or central to their religious tradition Many religions and spiritual movements believe that their sacred texts are divinely or supernaturally revealed or inspired Attitudes towards sacred texts differ widely between different religions Some religions make written texts widely and freely available while others hold that sacred secrets must remain hidden from all but the loyal and the initiate Most religions promulgate policies defining the

limits of the sacred texts and controlling or forbidding changes and additions Some religions view their sacred texts as the Word of God often contending that the texts are inspired by God and as such should never be altered Translations of texts may receive official blessing but an original sacred language often has defacto absolute or exclusive authority This book serves as a reference guide that lists the works that the corresponding religions are based upon **Sacred Scriptures of World-religion** ,1914 *Sacred Word and Sacred Text* Harold Coward,1992-06 *Scriptures* Arturo Pascual, *Sacred Scriptures of the World Religions* Joan A. Price,2010 **The Sacred Writings of the World's Great Religions** S. E. Frost (Jr.),1951 **Who Are the Authoritative Interpreters of Sacred Writings?** Reynaldo Pareja,2019-03-09 Authentic sacred books possess a compelling interior force that seems to open a channel of communication between this dimension of human existence and the transcendent They have been for thousands of years the depositories of a divine wisdom and language that is not found in other type of literature Their imperishable richness is not void of an individual and collective effort of interpretation of what those texts authentically mean How much of the literal text is a historical account of events that happened beyond recorded time How much of it is symbolic language that defies literal interpretation What ethical and moral foundation do they offer as guidance for humanity s spiritual development The ultimate question to find answers to these questions is Who has an authoritative interpretation of those sacred texts that is truthful and accurate This is the objective of this book an exploration on who has such authority and how it has been manifested in past religions *Essays on World Religions* Domenic Marbaniang,2012-12-21 This book contains essays by Domenic Marbaniang on topics such as the Origins of Religions the Need of Studying World Religions the Main Teachings of Hinduism Islam and Buddhism the problem of Religious Violence and other essays The essays were written between the years 2002 and 2012 *Approaching the World's Religions, Volume 1* Robert Boyd,2017-05-04 Philosophically Thinking about World Religions is different from other works in the discipline today It deviates from the typical approaches used for the study of world religions Its goal is to engage readers in thinking hard about world religions not about the data surrounding those traditions By focusing on philosophical questions each reader should be challenged to do their own investigations that may reveal the heart of these traditions Another stance that this project takes that distinguishes it from other texts in the discipline is that it advocates an inclusivist perspective regarding the world religions Pluralism which is the predominate assumption today ends either in contradiction or in the development of a metatheory that dismisses crucial distinctions between the various traditions or eliminates some ancient religions because they do not fit the metatheory By taking an open inclusivist approach all religious traditions may engage at the table of dialogue The final essay is about justice and social affairs While that discussion is couched within the context of a particular tradition each religious tradition must have the discussion But it must be more than an intrareligious dialogue it must become an interreligious dialogue **The World's Religions** Peter B. Clarke,Peter Beyer,2009-05-07 This comprehensive volume focuses on the world s religions and the changes they have undergone as they

become more global and diverse in form It explores the religions of the world not only in the regions with which they have been historically associated but also looks at the new cultural and religious contexts in which they are developing It considers the role of migration in the spread of religions by examining the issues raised for modern societies by the increasing interaction of different religions The volume also addresses such central questions as the dynamics of religious innovation which is evidenced in the rise and impact of new religious and new spirituality movements in every continent
