Four Steps to the Epiphany is one of the most influential and practical business books of all time. The Four Steps to the Epiphany launched the Lean Startup approach to new ventures. Startups search for business models while existing companies execute them. The book offers the practical and proven four-step Customer Development process for search and offers insight into what makes some startups successful and leaves others selling off their furniture. Rather than blindly execute a plan, The Four Steps helps uncover flaws in product and business plans and correct them before they become costly. Rapid iteration, customer feedback, testing your assumptions are all explained in this book. Packed with concrete examples of what to do, how to do it, and when to do it, the book will leave you with new skills to organize sales, marketing, and your business for success. If your organization is starting a new venture and you're thinking how to successfully organize sales, marketing, and business development, you need The Four Steps to the Epiphany. Language of Influence Dan Seidman, 2012-04-11. Spanning the use of storytelling, humor, emotion-evoking language, and questions that advance the sale, this entertaining and practical book demonstrates the power of words to break down resistance and incline buyers toward purchase. A few simple words, the right words, can transform an awkward sales call into a comfortable conversation and a resistant prospect into a happy customer, which is why author Dan Seidman teaches you to think of influence as something occurring at a level just below the buyer's awareness. The Secret Language of Influence does this by explaining not only how to identify the right words and which to avoid, but how to use strategic key words and phrases with different potential buyers. You'll learn the best ways to approach buyers who are motivated by benefits vs. problems, i.e. wanting to hear about the money they'll save rather than the pain they'll avoid, proactive vs. reactive, big picture vs. detail-oriented, systems thinkers vs. creative minds, and those who are influenced by external feedback, testimonials, evidence, vs.

internal factors feelings personal experiences beliefs Today's buyer is savvy and all too familiar with traditional selling techniques but great selling is invisible By identifying different ways buyers are motivated salespeople can quickly customize their conversations and lead prospects to a yes
