Setting National Priorities The 1984 Budget

Henry J. Aaron, Joseph A. Pechman

Setting National Priorities The 1984 Budget:

Setting National Priorities Joseph A. Pechman, 1983 Stressing the importance of the federal budget as a reflection of American priorities a group of articles explains the President's budget for 1984 examines alternative policies and evaluates the economic implications of various options **Setting National Priorities** Henry J. Aaron, Robert D.

Reischauer, 2011-07-01 If the subject of influence in Washington interests you this series of books deserves your respectful attention it has changed the ways in which American politicians think about the budget The Washington Post For the first time in more than four decades the federal budget has registered two consecutive surpluses and the need to reduce the deficit is not casting a pall over the policy debate This new highly accessible book examines the policy options that are available in this new environment to address the new and recurring challenges that face the nation The book which continues the Brookings Institution's highly acclaimed and influential Setting National Priorities series will serve as a guide for understanding many of the complex issues that will be discussed during the presidential and congressional campaigns of 2000 The book centers around three themes providing opportunity in the domestic arena restoring confidence in government and adapting to the post Cold War international environment It tackles such critical issues as Medicare and social security tax reform and foreign policy spending as well as many areas not included in previous editions namely education urban problems the environment trade government renewal and reform crime and drugs and families In addition to the editors the contributors are Gary Burtless I M Destler John J DiIulio Jr William Gale Bruce Katz Donald F Kettl Paul C Light Thomas E Mann Michael O Hanlon Paul R Portney Diane Ravitch Isabel V Sawhill and James Sly *Changing the Course* , 1986

Budgeting and Financial Management in the Federal Government Jerry L. McCaffery, Lawrence R. Jones, 2002-02-01
Mission Statement The mission of the book series is to be consistent with the mission statement of the International Public Management Network IPMN that will sponsor the series The mission of IPMN and the book series is to provide a forum for sharing ideas concepts and results of research and practice in the field of public management and to stimulate critical thinking about alternative approaches to problem solving and decision making in the public sector The book series editors will seek to facilitate exchange and cooperative work among scholars interested in transformational change in the public sector in individual nations and around the world Our intent will be to create and sustain a dialogue on emerging management concepts methods and technology so that readers can learn about innovation and change in public sector organizations throughout the world IPMN presently includes members representing 70 different countries approximately 600 representatives from these nations As such we have a solid base of subscription support for the book series within IPMN For more information on IPMN see the website at <http://www.willamette.org/ipmn/about.html> In addition we want the series to appeal to members of the Public Sector section of the Academy of Management and to the members of the Association for Public Policy Analysis and Management Both editors belong to and participate actively in AOM and APPAM Legislatures

in the Policy Process David M. Olson, Michael L. Mezey, 1991-05-16 This book will be of interest to specialists and students of politics and economic policy making **Setting National Priorities** Henry J. Aaron, Joseph A. Pechman, 1971 **The Resurgence of Conservatism in Anglo-American Democracies** Barry Cooper, Allan Kornberg, William Mishler, 1988 This work presents analyses by experts on the rise of a new tide of conservative governments in the United States Canada and Great Britain in an attempt to find what if any common ideologies and programs unite them with what results in terms of institutional change and policy direction have been and what are the prospects for permanent change **Policymaking Under Adversity** Yehezkel Dror, 2017-09-29 This groundbreaking study systematically treats recent policymaking trends starting with a reconsideration of salient theoretical issues of policymaking and its study and culminating with a survey of current policy related predicaments in various countries Dror proposes that the task for social science research is to uncover underlying causes of policymaking inadequacies Standard research methods Dror states have been unable to uncover the realities of important decisions made inside governments In order to gain an understanding of pressing predicaments he believes that policymakers need to examine the foundations of contemporary practices of present assumptions and that they need a multiplicity of approaches to policymaking After prescribing a set of requirements that policymaking must satisfy in order to adequately respond to challenges Dror posits several improvements needed in education and in policy decision making The book concludes with an extensive bibliography including numerous important German works not found in other English language studies This book supplements the earlier basic theory and models propounded in Dror's Public Policymaking Reexamined by dealing with current trends As a guide to public policy literature and related works it will be invaluable to students and practitioners *Impact of tax reform and simplification proposals on small business* United States. Congress. Senate. Committee on Small Business, 1985 *The Air Force Comptroller*, 1985 Administrative Reform Comes of Age Gerald E. Caiden, 2014-07-24 No detailed description available for Administrative Reform Comes of Age **Oversight of the National Science Foundation** United States. Congress. House. Committee on Science, Space, and Technology, 1989 **Energy Abstracts for Policy Analysis**, 1975-07 **Constraining National Health Care Expenditures** United States. General Accounting Office, 1986 **Naval War College Review** Naval War College (U.S.), 1983 *Accessions List* Assessment and Information Services Center (U.S.). Library and Information Services Division, 1983 **Publishers' Trade List Annual, 1991** Bowker Editorial Staff, 1991-09 The Half War Robert P Haffa Jr, 2019-07-11 This book offers a strategic organizational and logistical analysis in a historical context of the planning of conventional forces to meet a limited contingency The central question is Why from 1960 to 1982 did the U S fail to construct a coherent limited contingency force Analysis of a series of comparative case studies reveals that the strategic concept to the half war or limited contingency was never articulated adequately enough to support specific force planning Organizations designed to oversee and command limited contingency forces fragmented by interservice rivalries and the absence of joint

doctrine lacked multiservice composition and a unified command structure A search for economy in limited contingency forces seemed justified by illusions about their capabilities Low budgetary priority and Congressional perceptions that enhanced U S rapid deployment capabilities would encourage U S global intervention contributed to the lack of logistical and mobility systems dedicated to them The wider intent of this study is to shed light on the general purpose force planning process and to suggest policy guidance as the United States once again embarks on a major conventional force planning initiative Rather than being trapped by the past new efforts to meet vital U S military interests below the nuclear threshold must identify half war planning contingencies structure unified commands capable of directing tailored conventional forces in specific theaters and provide adequate strategic mobility systems

The Limits of Social Policy Nathan Glazer, 1988

Many social policies of the 1960s and 1970s designed to overcome poverty and provide a decent minimum standard of living for all Americans ran into trouble in the 1980s with politicians with social scientists and with the American people Nathan Glazer has been a leading analyst and critic of those measures Here he looks back at what went wrong arguing that our social policies although targeted effectively on some problems ignored others that are equally important and contributed to the weakening of the structures family ethnic and neighborhood ties commitment to work that form the foundations of a healthy society What keeps society going after all is that most people feel they should work however well they might do without working and that they should take care of their families however attractive it might appear on occasion to desert them Glazer proposes new kinds of social policies that would strengthen social structures and traditional restraints Thus to reinforce the incentive to work he would attach to low income jobs the same kind of fringe benefits health insurance social security vacations with pay that now make higher paying jobs attractive and that paradoxically are already available in some form to those on welfare More generally he would reorient social policy to fit more comfortably with deep and abiding tendencies in American political culture toward volunteerism privatization and decentralization After a long period of quiescence social policy and welfare reform are once again becoming salient issues on the national political agenda Nathan Glazer s deep knowledge and considered judgment distilled in this book will be a source of advice ideas and inspiration for citizens and policymakers alike
