Lost Butler:

Lost Freedmen's Town of Hamburg, South Carolina, The Michael S. Smith, 2021 Hamburg is perhaps South Carolina's most famous ghost town. Founded in 1821, it grew to four thousand residents before transportation advances led to decline. During Reconstruction, recently freed slaves reshaped Hamburg into a freedmen's village where residents held local county and state offices. These gains were wiped away after the Hamburg Massacre in 1876, a watershed event that left seven African Americans dead, most of them executed in cold blood. Yet more than a century after Hamburg, the one white supremacist killed in the melee is canonized by the racially divisive Meriwether Monument in downtown North Augusta. Author Michael Smith details the amazing events that created this unique community with a lasting legacy. From back cover

Butler on Whitehead Roland Faber, Michael Halewood, Deena Lin, 2012-03-22 This volume is based on the first set of formal conversations which brings together the dynamic philosophies of two eminent thinkers, Judith Butler and Alfred North Whitehead. Each has drawn from a wide palette of disciplines to develop distinctive theories of becoming, of syntactical violence and creative opportunities of limitation. In bringing together internationally renowned interpreters of Butler and Whitehead from a variety of fields and disciplines—philosophy, rhetoric, gender and queer studies, religion, literary and political theory—the editors hope to set a standard for the relevance of interdisciplinary philosophical discourse today. This volume offers a unique contribution to and for the humanities in the struggles of politics, economy, ecology, and the arts by reaching beyond their closed circles toward understandings that may serve as the basis for the activation of humanity today. Considered together, Butler and Whitehead delineate a whole new cadre of approaches to long-standing problems as well as never-before-asked questions in the humanities. **The Political Philosophy of Judith Butler** Birgit Schippers, 2014-04-03

Judith Butler can justifiably be described as one of the major critical thinkers of our time. While she is best known for her interventions into feminist debates on gender, sexuality, and feminist politics, her focus in recent years has broadened to encompass some of the most pertinent topics of interest to contemporary political philosophy. Drawing on Butler's deconstructive reading of the key categories and concepts of political thought, Birgit Schippers expounds and advocates her challenge to the conceptual binaries that pervade modern political discourse. Using examples and case studies like the West's intervention in Iraq and Afghanistan and in relation to the Israeli-Palestinian conflict, Schippers demonstrates how Butler's philosophically informed engagement with pressing political issues of our time elucidates our understanding of topics such as immigration and multiculturalism, sovereignty, or the prospect for new forms of cohabitation and citizenship beyond and across national boundaries. A detailed exposition and analysis of Butler's recent ideas championing her efforts at articulating the possibilities for radical politics and ethical life in an era of global interdependence, this book makes an important contribution to the emerging field of international political philosophy. **Tubal Uriah Butler of Trinidad and Tobago** Kwame Nkrumah of Ghana Daurius Figueira, 2007 This work explodes myths on the decolonization process in
