Anthropology, Colonial Policy and the Decline of French Empire in Africa Douglas W. Leonard, 2019-12-26 Conceived as both a vehicle to national prestige and as a civilizing mission the second French colonial empire 1830 1962 challenged soldiers scholars and administrators to understand societies radically different from their own The resultant networks of anthropological inquiry however did not have this effect Rather they opened pathways to political and intellectual independence framed in the language of social science and in the process upended the colonial political system and reshaped the nature of human inquiry in France While still unequal French colonial rule in Africa revealed the durability and strength of non European modes of thought In this influential new study historian Douglas W Leonard examines the political and intellectual repercussions of French efforts to understand and to dominate colonial Africa through the use of anthropology From General Louis Faidherbe in the 1840s to politician Jacques Soustelle and sociologist Pierre Bourdieu in the 1950s these French thinkers sowed the seeds of colonial destruction

Royals on tour Robert Aldrich, Cindy McCreery, 2018-05-13 *Royals on Tour* explores visits by European monarchs and princes to colonies and by indigenous royals to Europe in the 1800s and early 1900s with case studies of travel by royals from Britain France Portugal Germany Italy the Netherlands Belgium Japan the Dutch East Indies and French Indochina Such tours projected imperial dominion and asserted the status of non European dynasties The celebrity of royals the increased facility of travel and the interest of public and press made tours key encounters between Europeans and non Europeans The reception visitors received illustrate the dynamics of empire and international relations Ceremonies speeches and meetings formed part of the popular culture of empire and monarchy Mixed in with pageantry and protocol were profound questions about the role of monarchs imperial governance relationships between metropolitan and overseas elites and evolving expressions of nationalism

The Maryland Campaign of September 1862 Joseph Pierro, 2012-08-21 Completed in the early 1900s The Maryland Campaign of September 1862 is still the essential source for anyone seeking understanding of the bloodiest day in all of American history As the U S War Department's official expert on the Battle of Antietam Ezra Carman corresponded with and interviewed

hundreds of other veterans from both sides of the conflict to produce a comprehensive history of the campaign that dashed the Confederacy's best hope for independence and ushered in the Emancipation Proclamation. Nearly a century after its completion, Carman's manuscript has finally made its way into print in an attractively packaged one volume edition painstakingly edited, annotated and indexed by Joseph Pierro. This edition, the first to publish the entire Carman manuscript including the fifteen appendices, is designed for ease of use with standardized punctuation and spelling and conveniently footnoted explanations wherever necessary. The Maryland Campaign of September 1862 is a crucial document for anyone interested in delving below the surface of the military campaign that forever altered the course of American history and is still the only complete edition of Carman's work on the market. Due to an unfortunate case of mistaken identity, the man currently appearing in the frontispiece of *The Maryland Campaign of September 1862* is not the actual Ezra Carman but someone who looks remarkably similar to him. The real Mr Carman can be found at <http://www.loc.gov/pictures/item/cwp2003001783>. PP We apologize for the mistake and will correct this error in further printings.

The Foreign Office and British Diplomacy in the Twentieth Century Gaynor Johnson, 2005. This book examines the evolution of the Foreign Office in the 20th century and the way in which it has responded to Britain's changing role in international affairs. The last century was one of unprecedented change in the way foreign policy and diplomacy were conducted. The work of The Office expanded enormously in the 20th century and oversaw the transition from Empire to Commonwealth with the merger of the Foreign and Colonial Offices taking place in the 1960s. The book focuses on the challenges posed by waging world war and the process of peacemaking as well as the diplomatic gridlock of the Cold War. Contributions also discuss ways in which the Foreign and Commonwealth Office continues to modernise to meet the challenges of diplomacy in the 21st century. This book was previously published as a special issue of the journal *Contemporary British History*.
