Edward Grant

On The Eternity Of The World:

De Aeternitate Mundi Proclus, 2001 The first Argument which survives in Arabic is also included and makes this the only complete edition of On the Eternity of the World since antiquity *De Aeternitate Mundi* John Peckham, 1993 This dual language book is a translation of John Peckham's *De aeternitate mundi* On the Eternity of the World written probably in 1270 Peckham was born in England around 1230 He pursued studies in Paris where he may have been a student of Roger Bacon's and at Oxford He returned to Paris some time between 1257 and 1259 to study theology and in 1269 1270 became magister theologiae It was at this time that he presumably wrote the essay translated here and presented it as part of his inception the equivalent of a doctrinal defense in 1271 when he sought to become a magister regens a member of the theological faculty While Peckham was studying in Paris two controversial theological innovations were being debated The first issue involved the founding of the mendicant orders Franciscans and Dominicans in the first decade of the thirteenth century Their active moving about preaching and teaching represented a departure from the established Rule of St Benedict in which Orders were largely confined to monasteries The second debate was over the introduction of the new philosophy of Aristotle The Dominicans and Franciscans found themselves allied against the Latin Averroists or Radical Aristotelians on such issues as the unicity of the intellect and the assertion of the world's eternity in the sense that it was not created The two Orders disagreed however on the truth of other Aristotelian theses such as the unicity of substantial form and the demonstrability of the world's having a beginning in time On another front having to do with the legitimacy of the Dominicans and Franciscans interpretation of religious life the two Orders united under attacks from the secular clergy Peckham a Franciscan witnessed his Order allied with the Dominicans against Averroists and secular clergy and at odds with them over Aristotelianism in orthodox theology During this tumultuous time Peckham met and probably discussed his inception with Thomas and his position on the eternity of the world can be compared to the treatment of the topic found in the writings of St Thomas Aquinas and St Bonaventure In 1279 Peckham was named the Archbishop of Canterbury by Pope Nicolas III in this position it was expected that he carry out reforms mandated by the Council of Lyons The ruling of that council included the eradication of the Averroists radical departures from theological philosophy and some of the theses held by the Thomists Peckham died in 1291 no doubt in disappointment that the reforms for which he had strived never came to pass **On the Eternity of the World** Saint Thomas (Aquinas), Siger (of Brabant), Saint Bonaventure (Cardinal), 1964 The translation of Aristotle's philosophical works into Latin in the late twelfth and thirteenth centuries produced a crisis for Christian thinkers insofar as the Aristotelian writing seemed to offer demonstrative proof that the world has always existed without a beginning at some point finitely distant in the past The present volume offers the reader three different responses to the Aristotelian doctrine of the eternity of the world the radical Aristotelian views of Siger of Brabant contrasted with those of St Thomas Aquinas and St Bonaventure The latter two both held creation in time though Aquinas believed that the question could only be decided on

the basis of revelation while Bonaventure argued that creation in time could be proved by reason *The Eternity of the World in the Thought of Thomas Aquinas and his Contemporaries* Wissink, 2022-06-08 This study forms part of a research programme aiming to interpret and evaluate the theology of Thomas Aquinas and the later reception of his theology In particular it deals with the reception of Aquinas thinking about the eternity of the world by theologians at the end of the 13th and the beginning of the 14th century De Grijns defends the thesis that Aquinas main interest in *De Aeternitate Mundi* is not philosophical but theological while Aertsen opposes this thesis and tries to demonstrate Aquinas philosophical purposes by comparing his *De Aeternitate Mundi* with his *De Potentia* and by study of his concept of creation Van Veldhuijsen sketches the difference between Aquinas and Bonaventure in this respect M Hoenen concentrates on the importance of William de la Mare's *Correctorium fratris Thomae* and of the *Correctoria Corruptorii* for our understanding of the history of the reception of the views of Aquinas F Thijssen discusses the criticism of the Oxford theologian Henry of Harclay died 1317 of Aquinas views on two central issues that are involved in an eternal world the traversal of an infinity and the existence of unequal infinities Van Veldhuijsen finally investigates Aquinas reception by Richard of Middleton **On the Eternity of the World**, 1984 On the Eternity of the World, 1964 **Studies on Early Arabic Philosophy** Peter Adamson, 2023-04-21

Philosophy in the Islamic world from the 9th to 11th centuries was characterized by an engagement with Greek philosophical works in Arabic translation This volume collects papers on both the Greek philosophers in their new Arabic guise and on reactions to the translation movement in the period leading up to Avicenna In a first section Adamson provides general studies of the formative period of philosophy in the Islamic world discussing the Arabic reception of Aristotle and of his commentators He also argues that this formative period was characterized not just by the use of Hellenic materials but also by a productive exchange of ideas between Greek inspired philosophy *falsafa* and Islamic theology *kalām* A second section considers the underappreciated philosophical impact of Galen using Arabic sources to understand Galen himself and exploring the thought of the doctor and philosopher al-Rāzī who drew on Galen as a chief inspiration A third section looks at al-Fārābī and the so called Baghdad school of the 10th century examining their reaction to Aristotle's *Metaphysics* his epistemology and his famous deterministic sea battle argument A final group of papers is devoted to Avicenna's philosophy which marks the beginning of a new era of philosophy in the Islamic world **Against Aristotle, on the Eternity of the World** John Philoponus, 1987 **Fakhr Al-Dīn Al-Rāzī and Thomas Aquinas on the Question of the Eternity of the World** Muammer İskenderoğlu, 2002 This volume examines and compares the approaches of Fakhr al-Dīn al-Rāzī d. 1209 and Thomas Aquinas d. 1274 to the question of the eternity of the world and brings out some similarities and differences of their approaches between them as well as in relation to their own traditions Islam and Christianity respectively *The Collected Works* William Wynn Westcott, 2023-12-22 In *The Collected Works* William Wynn Westcott presents an intriguing compendium of esoteric writings that reflect the multi faceted nature of mysticism ceremonial magic and the occult sciences

prevalent in the late 19th and early 20th centuries With a literary style that blends scholarly precision with poetic eloquence Westcott delves into topics ranging from Kabbalistic interpretations to the practices of the Hermetic Order of the Golden Dawn providing a comprehensive view of the spiritual and philosophical currents of his time This work not only serves as a testament to Westcott's intellectual rigor but also situates itself within the broader context of Western esotericism making it an essential resource for both novices and seasoned practitioners alike William Wynn Westcott was a prominent figure in the occult revival of the Victorian era known for his role as a co-founder of the Hermetic Order of the Golden Dawn A physician by profession Westcott's extensive studies in philosophy history and ancient languages deeply informed his occult pursuits His unique position straddling the worlds of science and mysticism gave rise to a profound desire to explore the connections between the material and spiritual realms ultimately leading to the creation of this remarkable collection This volume is highly recommended for anyone seeking a deeper understanding of esoteric traditions and their historical contexts Whether you are a scholar an occult practitioner or simply a curious reader Westcott's writings will undoubtedly expand your knowledge and appreciation of the mystical arts

Neoplatonism and Gnosticism Rich T. Wallis,Jay Bregman,1992-07-07 In recent decades our view of Gnosticism has been revolutionized by the discovery of a Coptic Gnostic library at Nag Hammadi Egypt Currently Gnosticism is seen as a phenomenon extending far beyond Christianity and displaying a strong Platonic influence The opposition between the two systems was certainly not as sharp as Plotinus claimed Where why and how the ideological lines were drawn is discussed in the light of the new historical evidence

Medieval Latin Texts on the Eternity of the World Richard C. Dales,Omar Argerami,1991-03-01 The editors of this volume have collected a large number of texts most of them previously available only in manuscript of a wide range of scholastic views on the problem of the eternity of the world These selections range from William of Durham in the 1220s to John of Jandun in 1315 They illustrate the continuity of medieval discussions of this crucial topic and present the major arguments on all sides of the question Several of the authors are anonymous and many of those whose names are known have been little studied The notes not only identify the fontes but also through extensive cross references show the obligations of these authors to each other Indices of authorities names and biblical citations enhance the book's usefulness for the scholar of medieval thought
