On The Fringe Of Diplomacy:

On the Fringe of Diplomacy Alfred Stirling, 1973 A. J. P. Taylor Robert Cole, 1993-12-13 **Sacred Space and Anglo-Turkish Relations** John Fisher, 2024-09-05 This work investigates how various sacred spaces in Ottoman and Republican Turkey interfaced with British foreign policy It considers how these spaces impacted upon British prestige in the context of its dealings with Turkey chiefly as well as other Great Powers The period covered is from the demise of the Levant Company in 1825 to the deconsecration of the Crimean Memorial Church in Istanbul in 1976 Other sacred spaces discussed include the British Embassy Chapel the Crimean War cemeteries various British churches and cemeteries in Izmir the Gallipoli cemeteries connected with the campaign of 1915 and the Phanar the Ecumenical Patriarch's home in Istanbul The book considers how and to what extent the Foreign Office in London and its staff in Turkey intervened to secure those spaces and why the politics of the Patriarchate intruded into the Foreign Office's geo strategic considerations It considers the limits of that support and how dealings over sacred space intermeshed generally with British policy towards Turkey It further explores the motives not just of diplomats and consuls who were instrumental in establishing or safeguarding those spaces but also the aims of other organisations and of expatriate Britons who were similarly involved It also considers instances where such support became attenuated or was withdrawn The book is unique in illuminating in a broad fashion the role of sacred space in the context of Anglo Turkish relations and British power projection in the Near East **The Pope, the Public, and International Relations** Mariano P. Barbato, 2020-06-30 This edited volume engages a long standing religious power the Holy See to discuss the impact of the structural and postsecular transformations of international relations through the emergence of a global and digital public sphere Despite the legal construction that enables the separation of the Holy See as a distinct legal entity it is also an instrument for the papacy to represent externally and regulate internally the global and transnational Catholic Church The Holy See is also the tool that enables the papacy to address a transnational or a global public beyond Catholic adherence most prominently through journeys that are often at the same time state visits and pastoral journeys Instead of understanding these hybrid roles as an irregular exemption the contributions of the book argue that the Holy See should be seen as a certainly special but nevertheless quite normal actor of international and public diplomacy *Transprofessional Diplomacy* Costas M. Constantinou, Noé Cornago, Fiona McConnell, 2017-01-05 Diplomacy is no longer restricted to a single vocation nor implemented exclusively through interaction amongst official representatives In exploring the challenges that these transformations produce this work surveys firstly the genealogy of diplomacy as a profession tracing how it changed from a civic duty into a vocation requiring training and the acquisition of specific knowledge and skills Secondly using the lens of the sociology of professions the development of diplomacy as a distinctive profession is examined including its importance for the consolidation of the power of modern nation states Thirdly it examines how the landscape of professional

diplomacy is being diversified and we argue enriched by a series of non state actors with their corresponding professionals transforming the phenomenology of contemporary diplomacy Rather than seeing this pluralization of diplomatic actors in negative terms as the deprofessionalization of diplomacy we frame these trends as transprofessionalization that is as a productive development that reflects the expanded diplomatic space and the intensified pace of global interconnections and networks and the new possibilities they unleash for practising diplomacy in different milieus **Philippine Studies** ,1973

Diplomatic Style and Foreign Policy Jeffrey Robertson,2016-05-20 The book explores diplomatic style and its use as a means to provide analytical insight into a state s foreign policy with a specific focus on South Korea Diplomatic style attracts scant attention from scholars It is dismissed as irrelevant in the context of diplomacy s universalism misconstrued as a component of foreign policy alluded to perfunctorily amidst broader considerations of foreign policy or wholly absented from discussions in which it should comprise an important component In contrast to these views practitioners maintain a faith like confidence in diplomatic style They assume it plays an important role in providing analytical insight giving them advantage over scholars in the analysis of foreign policy This book explores diplomatic style and its use as a means to provide analytical insight into foreign policy using South Korea as a case study It determines that style remains important to diplomatic practitioners and provides analytical insight into a state s foreign policy by highlighting phenomena of policy relevance which narrows the range of information an analyst must cover The book demonstrates how South Korea s diplomatic style which has a tendency towards emotionalism and is affected by status generational change cosmopolitanism and estrangement from international society can be a guide to understanding South Korea s contemporary foreign policy This book will be of much interest to students of diplomacy studies foreign policy Asian politics and International Relations in general **Small States**

in World Politics Jeanne A. K. Hey,2003 Offering empirical richness within a consistent theoretical framework this work provides a comprehensive examination of small state foreign policy **The European Union, Mercosul and the New World Order** Helio Jaguaribe,Alvaro Vasconcelos,2004-08-02 A critical insight into the politics and economics of relations between the EU and Latin America particularly Mercosul highlighting the significance of such relations for multilateralism and the international order **An Outline of Recent European History, 1815-1927** Clarence Perkins,1927 *Quadrant*

James Phillip McAuley,1975 **Chinese Cultural Diplomacy in the 21st Century** Minglei Wang,2025-09-23 This book examines the China Cultural Centre CCC project s establishment operation and programming through the lens of cultural diplomacy The work illuminates the main structural and operational characteristics of the CCC project by highlighting their similarities and differences compared to other cultural diplomacy initiatives especially the Confucius Institutes CIs It also provides insights on its working modes and associated activities primarily based on the case of the CCC in Australia supplemented by information from other CCCs Furthermore it sheds light on the implications for the CCC project expanding current discussions about Chinese cultural diplomacy The book holds that the operation and programming of CCCs reflect

common views of Chinese cultural diplomacy strategically orientated state led and quantity driven while also highlighting the inclusion of foreign collaborators and a bottom up strategy for facilitating engagement and understanding This book will be of much interest to students of diplomacy studies public diplomacy foreign policy Chinese politics and international relations
